GAELIC LANGUAGE PLAN

2023-2028

This plan has been prepared under Section 3 of the Gaelic Language (Scotland) Act 2005 and was approved by Scottish Ministers on 3rd July 2023

Foreword

Inverclyde Council recognises the importance of Gaelic to our national culture and heritage and as such, is delighted to present our second Gaelic Language Plan 2023/28. As a Council, we are committed to supporting Gaelic and will seek to further and promote its development within Inverclyde over the life of this plan.

This Plan builds on our first Gaelic Language Plan 2017/22, detailing the additional actions the Council will take to promote and support the acquisition and usage of the Gaelic language, as well as developing the status of the language, recognising it as an official language of Scotland, according it the same respect as English.

Through the implementation of this Plan, we aim to support the delivery of the National Gaelic Language Plan 2018/23 and meet our responsibilities under the Gaelic Language (Scotland) Act 2005.

During the lifetime of this Plan we will continue to build our 'active offer' in a proportionate way through the provision of Gaelic medium education, identifying a range of opportunities for our communities and workforce, working with Gaelic community organisations locally and learning from good practice elsewhere.

Our long term vision is to nurture Gaelic within Inverclyde to ensure a supportive environment, recognising the importance and value of the language. Governance of the Plan will therefore be provided by the Corporate Equalities Group which will help to ensure that this work is mainstreamed within all services and promote Council- wide ownership of its delivery.

1. INTRODUCTION

Description of Inverclyde Council

Inverclyde is located in West Central Scotland with an estimated population of 76,700 people, covering an area of 61 square miles stretching along the south bank of the River Clyde. The main towns of Greenock, Port Glasgow and Gourock sit on the Firth of the Clyde alongside the coastal settlements of Inverkip and Wemyss Bay which lie to the South West of the area and the villages of Kilmacolm and Quarriers Village which are located further inland, and offer a further dimension to the area's diversity, particularly in social, economic and physical terms.

Inverclyde Council is the local unitary authority which is responsible for a range of functions, including education, cultural services, community learning and development, regeneration, environmental health, a range of social work services, strategic housing, planning and building control, waste management, maintenance of public roads (excluding trunk roads), economic development and a range of corporate support services.

The [Inverclyde Council Plan 2023/28](#) sets out the Council's organisational priorities that reflect the key issues to emerge from a socio-economic profile of the area and those issues identified by our communities as a priority. The organisational priorities also support the delivery of the Community Planning Partnership, the Inverclyde Alliance's strategic priorities for the area.

In 2021/22 the Council had an overall budget of £203 million, this includes a new £4million Covid-19 recovery fund to support the community and services recover from the effects of the pandemic.

As at the end of July 2021, the Council had approximately 4,380 employees, with service delivery structured under three Directorates: Education, Communities and Organisational Development; Environment, Regeneration and Resources and the Health and Social Care Partnership. A re-structure of the Environment, Regeneration and Resources Directorate was carried out in April 2021 to ensure that, as the Covid-19 pandemic moved towards the recovery phase, the Council was targeting its resources in the most efficient and effective way possible to support organisational, environmental and economic recovery.

The Council has rationalised its property portfolio in recent years but retains in excess of 100 operational buildings across the authority, including office accommodation, libraries, community halls and centres and the renowned Watt Institution. Inverclyde Council headquarters is located in the Municipal Buildings, Greenock.

Inverclyde comprises of 7 multi member wards with 22 councillors. Following the local government elections in May 2022, the political composition of the Council is Scottish Labour Party (9), Scottish National Party (8), Independent (3) and Scottish Conservative and Unionist Party (2).

Gaelic within Inverclyde

The Census 2011 remains the most comprehensive source of data on the numbers of people in Inverclyde that can understand, speak, read and write Gaelic. As at the time of the 2011 Census, 667 people in Inverclyde were identified as having some knowledge of Gaelic. This is broken down for the population aged three and over, as follows:

- 174 people understand but do not speak, read or write Gaelic (0.2% of the population)
- 212 people speak, read and write Gaelic (0.3% of the population)
- 176 people speak but do not read or write Gaelic (0.2% of the population)
- 36 people speak and read but do not write Gaelic (0.04% of the population)
- 49 people read but do not speak or write Gaelic (0.06% of the population)
- 20 people have other combinations of skills in Gaelic (0.02% of the population)

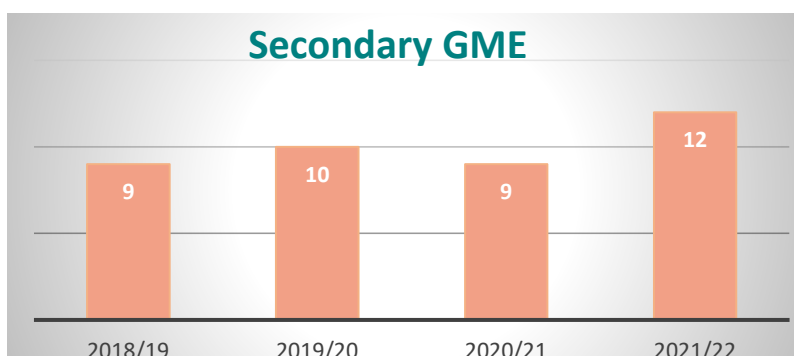

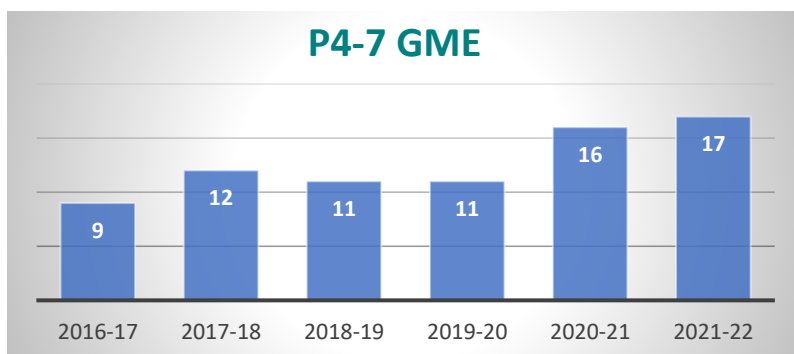

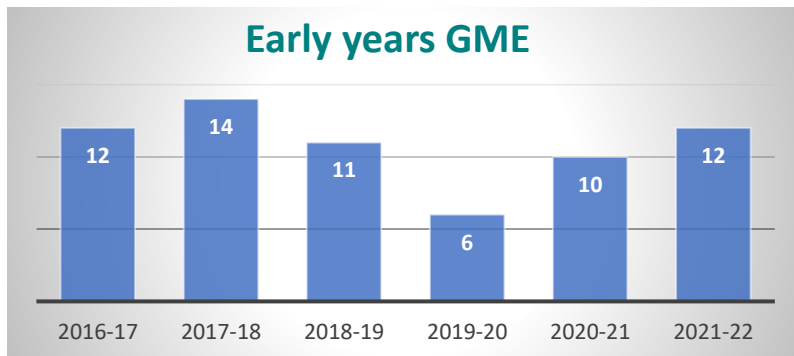

New data will be available following the next Scotland's Census which will take place on 20 March 2022.

As an integral part of Scotland's heritage, national identity and cultural life, Inverclyde Council seeks to nurture, promote and raise the awareness and status of the Gaelic language and culture across Inverclyde. Some examples of this include:

- As part of the Council's participatory budgeting, £25,000 was awarded to Inverclyde Gaelic Learners Group to allow the group to research the history of Gaels who came to Greenock or who had emigrated, with interest in the impact this had on the area and how the Gaelic community survived and integrated.
- An Inverclyde Gaelic Group has been established which aims to improve communication and sharing of information across all groups involved in Gaelic. The group is supported by the CLD service and includes membership from CLD, Whinhill Primary School, Education Services, Inverclyde Gaelic Learners Group and many others.
- The Council's Community Learning and Development (CLD) Service widely promotes classes on Gaelic and Scottish History and the sharing of good news stories from the local Gaelic community.
- Gaelic taster sessions have been carried out at regular Bookbug sessions and teachers at Whinhill have been trained to use Gaelic Bookbug, which they use to facilitate nursery transitions.
- During 2019-20, CLD held three public events in a local Arts Centre with guest speakers on a range of topics from 'The Highland Clearances' to 'Gaelic Place Names'. 54 people attended these events.

Gaelic Medium Education in Inverclyde

Inverclyde introduced Gaelic Medium Education in 1999. Whilst the Council does not provide Gaelic Medium secondary education, it does provide transport for the pupils to travel from the Inverclyde area to the Gaelic Secondary School in Glasgow. The graphs below show the number of children attending in recent years.

Gaelic is considered to be the founding language of Scotland and is thought to have its origins in Ireland. In the late 18th century, the language was heavily suppressed during the Highland Clearances and although speakers of the language were persecuted over centuries, Gaelic is still spoken today by around 60,000 Scots, however there are concerns over the fragility of the language.

At a national level, the 2011 Census showed that the decline in the number of Gaelic speakers since 2001 had slowed. The total number of people recorded as being able to speak and/or read and/or understand Gaelic was 87,056.

- Of these 87,000 people (1.1% of the population) aged three and over in Scotland were able to speak Gaelic.
- In 2011, the proportion of the population aged three and over in Scotland who could speak, read, write or understand Gaelic was 1.7% (87,056), compared with 1.9% (92,000) in 2001.
- Within this group, the number of people who could speak, read, understand and write Gaelic in 2011 was 32,000, 0.6% of the population aged three and over; this was the same proportion as in 2001.

Gaelic speakers are spread throughout Scotland. Of those who identified themselves as Gaelic speakers in the 2011 Census the Council areas with the highest proportions able to speak Gaelic were found to be in Na h-Eileanan Siar (52%), Highland (5%) and Argyll & Bute (4%). There is also a high degree of urbanisation within the Gaelic speaking community with large numbers of Gaelic speakers living in Aberdeen, Edinburgh, Greater Glasgow and Inverness.

The Gaelic Language (Scotland) Act 2005

The Gaelic Language (Scotland) Act 2005 was passed by the Scottish Parliament with a view to securing the status of the Gaelic language as an official language of Scotland commanding equal respect to the English language.

One of the key features of the 2005 Act is the provision enabling Bòrd na Gàidhlig to require a public authority to prepare a Gaelic language plan. This provision was designed to ensure that the public sector in Scotland plays its part in creating a sustainable future for Gaelic by raising the status and profile of the language and creating practical opportunities for its use.

This document is Inverclyde Council's Gaelic Language Plan prepared within the framework of the Gaelic Language (Scotland) Act 2005. It sets out how we will use Gaelic in the operation of our functions, how we will enable the use of Gaelic when communicating with the public and key partners, and how we will promote and develop Gaelic.

Inverclyde Council's Gaelic Language Plan has been prepared in accordance with statutory criteria set out in the 2005 Act and having regard to the National Gaelic Language Plan and the Guidance on the Development of Gaelic Language Plans.

The National Gaelic Language Plan

Inverclyde Council supports the aim of the National Gaelic Language Plan 2018-23 that "Gaelic is used more often, by more people and in a wider range of situations".

We are committed to the achieving this aim by focussing our work, on these three headings:-

- Increasing the use of Gaelic within our organisation and encouraging more people to use Gaelic, more often when they interact with us
- Increasing the opportunity for people to learn Gaelic as part of our day-to-day operations
- Promoting a positive image of Gaelic whenever we can as part of our day-to-day operations as an organisation

Internal Gaelic Capacity Audit

In order to obtain a better understanding of the Gaelic skills that exist within the Council, Inverclyde Council conducted an internal Gaelic capacity audit of its employees. The audit was conducted via an online survey with a hard copy of the survey also made available to employees without access to a PC.

In total, 120 responses were received and a summary of the results is provided below:

- Almost 17% (20) of respondents have some or limited ability of the Gaelic Language
- More than three quarters (93) of respondents reported that they have no ability at all in relation to the Gaelic language
- Just over 3% (4) of respondents are undertaking Gaelic language training. All respondents undertaking this training arranged it themselves.
- Of those respondents not undertaking Gaelic language training at present, 37% (43) are interested in doing so.
- Currently, Inverclyde Council has 4 posts within Gaelic Medium Education and 2 early years' posts where Gaelic is designated as an essential / desirable job skill.
- Gaelic Medium Education is the only service provided by the Council delivered entirely via the medium of Gaelic.

Full details of the audit are provided in Appendix 1. To ensure that the Council continues to hold viable data on Gaelic in the workforce, the survey will be carried out every three years.

Consultation on the draft Gaelic Language Plan

The 2005 Act requires that public authorities consult on their draft Gaelic language plan before submitting it to Bòrd na Gàidhlig.

Inverclyde Council consulted on the draft Plan for a period of 6 weeks from 29th October 2021 to 10th December 2021 using Smart Survey. It was promoted through social media including Inverclyde Council Facebook and Twitter pages and also through the council's consultation webpage. Full details of the consultation and results can be found in Appendix 2.

The key findings:

- 33 people responded to the survey
- 58% strongly agreed or agreed that the draft Inverclyde Gaelic Language Plan will help to support and improve Gaelic language provision locally
- 68% found the plan to be clear in setting out its actions
- 58% agreed that the actions and timescales proposed to deliver the High Level Aims were relevant and appropriate
- 56% agree that the actions and timescales proposed to deliver the Corporate Services Aims were relevant and appropriate
- Almost a third of respondents noted that they know a few words of Gaelic
- 25% respondents reported that they have no ability at all in relation to the Gaelic language
- Nine respondents said they would be interested in finding out more about Gaelic

2. KEY PRINCIPLES

Equal Respect

Under the terms of the 2005 Act, Bòrd na Gàidhlig works with a view to securing the status of the Gaelic language as an official language of Scotland commanding equal respect to the English language and the Bòrd in turn expects that public authorities will demonstrate in their plans how the principle will be achieved and maintained in practice.

Inverclyde Council will ensure that where Gaelic is included as part of our operations and services, we will ensure they are of an equal standard and quality as those that we provide in English.

Active Offer

Inverclyde Council will make an active offer of our Gaelic services to our employees and the public. This will ensure that where Gaelic services are made available by us, Gaelic users are made aware of their existence, and are actively encouraged to use them.

This will take the responsibility away from the individual to ask for the service and will give Gaelic users the confidence to know that their needs will be met if that is their choice.

We will ensure that our Gaelic language services are as accessible as our English language services.

Third Parties

Inverclyde Council will ensure that where appropriate, Arm's Length Executive Organisations and other contractors help with the delivery of the public authority Gaelic language plan.

Maintstreaming

Inverclyde Council will ensure that opportunities for the public and our staff to use Gaelic are normalised, in support of the National Gaelic Language Plan 2018-23 aim that Gaelic is used more often, by more people and in a wider range of situations.

Corporate Parenting

Inverclyde Council is aware of the duties of a Corporate Parent and will work together to ensure that looked after children and young people and care leavers with Gaelic receive the same opportunities as those with other languages.

3. PLAN COMMITMENTS

High Level Aims

To assist public authorities with the development of their Gaelic language plan, the Bòrd has worked with Inverclyde Council to co-produce a set of High-Level Aims.

The High-Level aims are a small number of strategic level actions, closely linked to the National Gaelic Language Plan 2018-23. As such, they will be framed around the three National Gaelic Language Plan headings of:-

Responsibility	Head of Roads / Head of Property Services Head of OD, Policy and Communications

4. LINKS TO THE NATIONAL PERFORMANCE FRAMEWORK

Inverclyde Council's Gaelic Language Plan is seen as contributing towards the following outcomes of the National Performance Framework and in particular:

- people grow up loved, safe and respected so that they realise their full potential
- people live in communities that are inclusive, empowered, resilient and safe
- We are creative and our vibrant and diverse cultures are expressed and enjoyed widely

5. LINKS TO LOCAL AND REGIONAL FRAMEWORKS

Inverclyde's Strategic Planning and Performance Management Framework sets out a number of high level outcomes through the Inverclyde Alliance Partnership Plan 2023/33 and also within the Council Plan 2023/28. The link to each of these Plans is provided below:

[Inverclyde Partnership Plan 2023/33 - Inverclyde Council](#)
[Council Plan 2023/28 - Inverclyde Council](#)

This Plan aims to promote the Gaelic medium and afford it equal respect. For Gaelic speakers this translates to respect for their culture, heritage and community. The following partnership and Council priorities seek to support the delivery of this plan.

Partnership Plan 2023/33 Priorities:

Theme 1: Empowered People

Communities can have their voices heard, and influence the places and services that affect them.

Theme 5: A Thriving Place

Development of strong community based services that respond to local need.

Inverclyde Council Plan 2023/28 Priorities:

Theme 2: Place

Communities are thriving, growing and sustainable.

6. PUBLICATION

Publishing and Publicising the Plan

INTERNAL

Inverclyde Council's Gaelic Language Plan will be published in Gaelic and in English and be available to all our staff via ICON, the Council's intranet.

EXTERNAL

Inverclyde Council's Gaelic Language Plan will be published in Gaelic and in English on our website. In addition, we will:-

- issue a bilingual press release announcing the plan
- publicise the plan through a variety of social media platforms
- distribute copies to arms-length organisations and other third-party organisations, explaining their role in the delivery of the plan
- distribute copies of the plan to key stakeholders in the public, private and third sectors
- distribute copies of the plan to relevant Gaelic organisations and other interested bodies
- make hard copies available on request

7. RESOURCING THE PLAN

All activities in this plan will be resourced through existing budgets relevant to the responsible service. Additional funding for specific projects will be accessed through external funding bodies as appropriate.

It is anticipated that there may be additional funding required for transcribing all relevant documents and information.

8. MONITORING THE PLAN

Inverclyde Council will monitor the implementation of this plan by reporting the Bòrd na Gàidhlig Annual Monitoring Template annually to the Policy and Resources Committee. The annual progress reports will then be submitted to Bòrd na Gàidhlig who will assess our progress.

Monitoring of progress will be supported by the Council's electronic performance management system, Pentana and updated on an annual basis. The performance management system will encourage progress updates to be submitted on a timely basis and also provide an overview of performance at a glance, enabling areas of slippage to be quickly addressed.

The plan will be publicised on the Council's website and intranet so that employees can be made aware of the Council's duties under the The Gaelic Language (Scotland) Act 2005 and what actions the Council intends to take.

Gaelic Language Plan Implementation and Monitoring Group

Inverclyde Council has established a Gaelic Language Plan Development Group, with the primary responsibility of developing the commitments within this plan. Overall governance at a strategic level is provided by Inverclyde Council's Corporate Equalities group. This group includes representation from across all council services and will carry out a quarterly review of the implementation and monitoring of different aspects of the plan and facilitate communications with all staff members with regard to their ongoing duties.

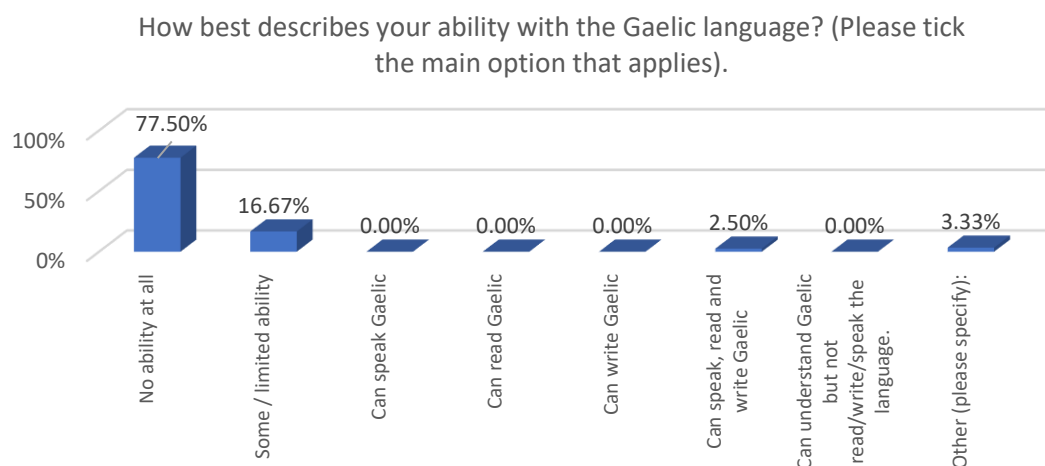

Arm's Length Organisations and Third Parties

All third party organisations which deliver services on behalf of Inverclyde Council will be advised of the commitments within this Gaelic Language Plan. Information on the content of this plan will be provided to all Community Planning Partners across Inverclyde Council. It will also be made available to all Community Councils, equality groups, and other organisations as appropriate.

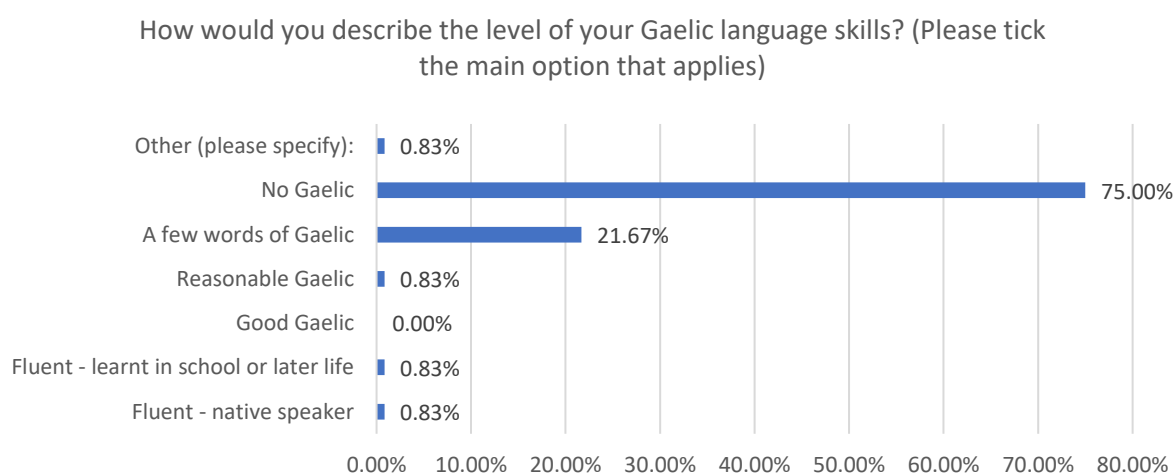

APPENDIX 1 – INTERNAL CAPACITY AUDIT

As part of the preparations for the development of this Plan, Inverclyde Council carried out an audit of existing internal Gaelic capacity via an online survey which was promoted to all employees. The survey had 120 responses and a summary of the responses is provided below:

Employees were asked about their ability and level of Gaelic language skills:

2.5% (3) of employee respondents said that they can speak, read and write Gaelic, almost 17% (20) of respondents have some or limited ability of the language and 77.5% (93) of respondents described themselves as having no ability at all. 3.3% (4) of respondents placed themselves in the 'other' category

Almost 22% (26) of respondents said that they know a few words of Gaelic whilst less than 1% (1) are fluent and a similar percentage replied that they have

reasonable Gaelic skills. Three quarters of respondents (90) said that they have no Gaelic language skills.

Employees were then asked whether they conduct their work through the medium of Gaelic and the vast majority of respondents, 99%, answered no. Gaelic Medium Education is the only service provided by the Council delivered entirely via the medium of Gaelic. Currently, Inverclyde Council has 4 posts within Gaelic Medium Education and 2 early years' posts where Gaelic is designated as an essential / desirable job skill.

4. Do you conduct your work with the Council through the medium of Gaelic?

3% (4) of respondents are undertaking Gaelic language training and all respondents arranged this personally. Of those that are currently not undertaking Gaelic language training, 37% (43) expressed an interest in doing so.

5. Are you undertaking Gaelic language training?

The vast majority of survey responses, 76% (91), were received from the Education, Communities and Organisational Development Directorate.

APPENDIX 2 – PUBLIC CONSULTATION

The public consultation on the draft Inverclyde Gaelic Language Plan was carried out between Friday 29 October 2021 and Friday 10 December 2021. In total, 33 completed responses were received. The analysis of the feedback received has been carried out in accordance with the guidance provided by Bòrd na Gàidhlig, which is that the public consultation report should only focus on comments received in relation to the draft Plan and not include wider comments in relation to Gaelic itself.

Summary of public consultation feedback

Respondents were first asked to note in what capacity they were responding to the survey. 32 out of 33 respondents answered this question.

- 11 people said that they were responding as an Inverclyde resident,
- 7 people were completing the survey as a Gaelic learner,
- 7 people were responding in several capacities (e.g. Inverclyde resident and Gaelic learner and / or parent carer of a child in GME).
- 5 people were responding as a parent, grandparent or carer of a children in GME
- 2 people said that they were responding in their capacity as an Inverclyde Council employee

1. Categories of response

Question 2 asked respondents whether they agreed that the Plan will help to support and improve Gaelic language provision locally. 31 responses were received.

2. The draft Inverclyde Gaelic Language Plan will help to support and improve Gaelic language provision locally

58% of respondents strongly agreed or agreed that the plan will help to support and improve Gaelic language provision in Inverclyde, whilst just under 42% disagreed. This question included a text box for respondents to note their comments. The provision of Gaelic medium education was a feature of many responses:

QUESTION 2. RESPONSES

1. Gaelic is only spoken and understood by less than 3% of the Scottish population and its use is declining due to people moving away from the Western Isles to find work. I don't see any point in supporting use of a language that hardly any Scots speak in 2021	2. As a Gaelic learner, having more signage about Inverclyde helps and reinforces the learning	3. I cannot imagine there is a real need for Gaelic provision in Inverclyde. There are so few who need to speak Gaelic.
4. It's important to promote the use of our languages	5. Inverclyde has always had strong associations with Gaelic as apparent in the number of local place-names of Gaelic origin, a connection which, even when it was no longer the business language of the community, remained the first tongue of many inhabitants. Knowledge of the language in a cultural element of Scotland is an important aspect for the local council to promote as it has been entrusted to do in the National Act.	6. There has been very poor communication regarding this
7. Making Gaelic available to all children in Scotland should become absolutely normal	8. Gaelic has been a subject taught in Greenock for generations and should be continued as part of our culture	9. It is important that it is available locally and keep Gaelic relevant and part of education curriculum
10. Gaelic is our language. Scotland will be united only after we have our own tongue. "A country without its own language is a country without a soul".	11. The vast majority looks like box ticking exercises where the Council is doing the absolute minimum to promote Gàidhlig	12. It's part of the Scottish identity and needs recognition
13. I agree in the sense that it LOOKS like the plan will help to support and improve Gaelic language provision locally, but the reality is that it's very unlikely to do so due to the fact that for the majority of Inverclyde residents, Gaelic is a waste of money and the attitude is generally negative. However, with my daughter in GME - when people are told this they're pleasantly surprised, many didn't know it was an option and parents of young children have asked me further about it as they're interested for their own children.	14. Tha deagh ghealltanasan anns a' phlana seo a bhios a' fàs na Gàidhlig san sgìre. Ach, tha mi den bheachd gum faodadh Comhairle Inbhir Chluaidh a bhith a' gabhail chothroman a bharrachd, gu sònraichte ann am foghlam / There are great promises for growth in Gaelic in area, but I think the Council should take more opportunities particularly in education.	15. It's important to protect languages and the heritage and knowledge that they contain. Linguistic diversity is essential for looking at the world in more than one way.
16. As there is now an increased demand for early years which leads to increased numbers in P1. You would expect a level of commitment to the continuing of secondary education for these Children. The corporate priorities state you wish to preserve and nurture Inverclyde's heritage, yet you deem it acceptable to offer a few hours of Gaelic language per week in an English secondary suitable? Our children and ourselves as parents are committing NINE years of our lives to fully immersive Gaelic. To then be told because Glasgow's capacity has reached its limits the "best" Inverclyde Council can do is provide these committed, fluent children to 2 hours per week language only in a local secondary that has space. This is unacceptable and utterly disappointing to parents of these children and to the local community. The offer you proposed is that Gaelic as a provision in Inverclyde would be	17. I do agree and welcome some parts of the plan. However, there is no clear plan for secondary as children will no longer be accepted to Glasgow Gaelic school.	

treated similar to that of European languages such as French or Spanish. Not at all as EQUAL respect to the English language.		
---	--	--

Question 3 asked respondents whether they agree that the Plan is easy to understand and is clear in setting out what the Council wants to achieve. 31 responses were received.

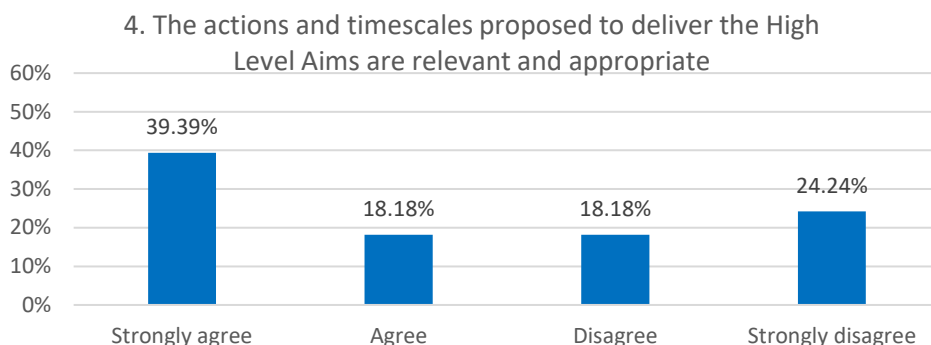

Just over two thirds, 68% of respondents either strongly agreed or agreed that the plan is easy to understand and clear, whilst almost one third disagreed. This question also included a text box for respondents to provide further information if they wished and a small number of relevant comments were received.

QUESTION 3. RESPONSES

1. This is a well presented, if unnecessary, plan.	2. It seems competent and hopefully will be pursued actively with provision of the necessary resources towards fulfilment	3. It is clear and easy to understand thanks to the layout.
4. This is important so that everyone can be aware of what is in place	5. The information is clear and as above agree with some but no clear plan for secondary which is worrying as a parent of 2 children in GME.	6. Tha e soilleir / It is clear
7. Tha structar a' phlana a' coimhead soilleir agus tha fiosrachadh gu leòr ann. Ach, tha feadhainn de na gealltanasan nach eil cho soilleir. Mar eisimpleir, thathar ag ràdh rudan mar 'consider', 'review' agus 'look to extend' seach gnìomhan soilleir gun jargon corporra / The structure of the plan is clear and contains plenty of information. But, some of the commitments/ promises aren't so clear. For example it says things such as "consider", "review", and "look to extend", which are just corporate jargon."	8. It is clear the council is looking to achieve a box ticking exercise	9. This seems clear
10. The plan is a bit long winded. For example I don't need to know how Inverclyde council are made up. Facts and figures from other areas not really needed. Information on Gaelic education in Greenock is important.		

The draft Plan contains a number of High Level Aims which are concerned with increasing the use and learning of Gaelic as well as promoting a positive image of Gaelic. In question 4, Inverclyde Council asked for residents' views on whether the actions and timescales developed to deliver the High Level Aims within the Plan were relevant and appropriate. 33 responses were received.

Almost 58% of respondents strongly agreed or agreed that the actions and timescales to deliver the High Level Aims were relevant and appropriate whilst 42% disagreed or strongly disagreed. Respondents were asked to provide a reason for their answer and a small number of comments were received. A common theme relating to the High Level Aims is the provision of Gaelic medium education in Inverclyde.

QUESTION 4. RESPONSES

1. Bu chòir gum bi a' Chomhairle cinnteach gu bheil na gnìomhan freagarrach airson na h-amasan a chur an gnìomh / The council needs to be sure that their actions are going to be effective in having the goals put into action	2. I might disagree with the original premise but the plan is relevant to the stated aims.	3. The sooner the better
4. I still have no idea what my children's future education will entail.	5. It is important that everyone in our community is aware that Gaelic is being taught in school and classes are available for adults wishing to learn	6. Relevant and appropriate but could be expanded.
7. It is important our communities know this is available so that it can be accessed by anyone who is interested to learn Gaelic	8. Think high-level aim to increase the provision of Gaelic Learns Education at primary and secondary level should be expanded upon, as there is currently no secondary GME education in Inverclyde but the proposed outcome is increase numbers of children at both primary and secondary level. It would be useful to know how the council wants to achieve this - will there be a secondary Gaelic school set up locally?	9. Bòrd na Gàidhlig's aims are great but have to be pan-national and inclusive. Using their framework as a basis for any local council is grand but their framework includes keeping Gàidhlig alive as a working and living language in Benbecula as well as coaxing folk from Duns into learning it. Their aims are too generic for Inverclyde Council to copy/paste.
10. It's great to have these aims but I feel that the actions and timescales particularly relating to secondary education are unreasonable. Those with children in GME are very aware that it's becoming increasingly unlikely that the children from Whinhill will be accepted to the Glasgow Gaelic School as the years go on and demand increases. We feel that it's extremely important to have a stand-alone Gaelic school in Inverclyde for those from Inverclyde and surrounding areas who want to attend. The education has to be full time in Gaelic as they're used to, not just a few hours in a unit in a school where they are a minority and potentially susceptible to bullying, etc.		

Respondents were invited to make any further comments or suggestions in relation to the High Level Aims and again, comments largely focused on the provision of Gaelic medium education.

QUESTION 5. RESPONSES

<p>1. Bu choir dhuinn uile Gaidhlig a chlachadh / We should all be using Gaelic</p>	<p>2. "Increase the numbers of children entering Gaelic Medium Education at primary 1 level by at least 15% each year." - The council's plan doesn't intend to do this at all. There needs to be more GME places and in other schools in Inverclyde.</p> <p>"Increase the number of adults learning Gaelic in Inverclyde" - A handful of A1/2 level learning courses (which seem to be just follow BBC Alba's 'Speak Gaelic' programme) isn't an active form of increasing Gaidhlig speakers. Language nests, speaking groups and promotion of discounted further education for the jump from beginner to fluency are required.</p>	<p>3. I think that in order to increase numbers at primary GME level, there has to be a clear path for families/pupils to progress to secondary GME level. Either formal arrangements need to be put in place with other local authorities who can offer a continuation into secondary GME, or Inverclyde must seriously consider an equal offering of secondary GME as is offered to pupils in English mainstream education.</p>
<p>4. As a parent of a pupil who attends Whinhill Gaelic unit I have been made aware that there is no provision for our children to go on to higher Gaelic education at the present time therefore we hope this situation can be rectified by having a Gaelic provision in inverclyde.</p>	<p>5. The plans for adults I welcome, however the plan for secondary is not clear and feel the children are being let down with this.</p>	<p>6. All parents in the Gaelic medium need to know what there children's future looks like. It is unacceptable that plans are not in place.</p>

Inverclyde Council also sought views on the Corporate Services Aims within the draft Plan. These Aims relate to Gaelic provision in our community, education, workplace and the provision of Gaelic services. In question 6, respondents were asked to rate whether they agree that the proposed actions and timescales set for the Corporate Aims are relevant and appropriate. 32 replies were received to this question.

6. The actions and timescales to deliver the Corporate Services Aims are relevant and appropriate

Just over 56% of respondents either strongly agreed or agreed that the actions and timescales to deliver the Corporate Services Aims are relevant and appropriate, whilst the remained disagreed / strongly disagreed.

Respondents were asked to provide a reason for their answer and a small number of relevant comments were received:

QUESTION 6. RESPONSES

1. Just nonsense like "Bilingual signs will be considered". Are signs paid for by the letter? There is no reason that all signs shouldn't be bilingual.	2. It seems to me that all this will provide is a when of signs, notices and documentation expensively being translated into Gaelic.	3. Unless the language is used in everyday life to give it relevance, it will wither.
4. Bu chòir gum bi na gealltanasan ceangailte ri Amasan Corporra nas treasa. Tha cothrom aig a' Chomhairle an seo a bhith a' cur air dòigh deagh chleachdadh, no best practice, agus seasamh làidir a ghabhail airson na Gàidhlig. Bhiodh seo a' toirt barrachd misneachd do luchd-labhairt is luchd-ionnsachaidh na Gàidhlig san sgìre agus barrachd tuigse don fheadhainn a tha na h-aghaidh / The commitments should be connected to stronger corporate goals. There is an opportunity for this council to put in place a good practice, and take a strong position on Gaelic."	5. Again there are poor gaelic provisions for high school.	6. Gaelic is not widely seen in Inverclyde other than in education through the Gaelic medium school. I would like to see other schools adopt lessons in Gaelic just like they do French or Spanish. If Gaelic had been taught as a language when I was at school I would have chosen it in my 3rd year of high school

Also in relation to the Corporate Services Aims, respondents were invited to make any further comments or suggestions:

QUESTION 7. RESPONSES

1. Almost all of those aims could be met, and probably surpassed, by hiring a single, fluent Gàidhlig speaker whose sole remit is to ensure all of those corporate services are met and they would still have time to visit schools/local groups to promote and teach about Gàidhlig as well	2. I just want to know my child can access Gaelic education in high school. When they started there Gaelic journey we were told they would go to Glasgow Gaelic school.
--	---

The final two questions in the survey were open ended and invited views on:

Q8: Do you have anything further to suggest regarding our draft Gaelic Language Plan and its effectiveness in fulfilling the objectives of the National Gaelic Language Plan?

Q9: Do you have any other comments regarding our draft Gaelic Language Plan as a whole?

Due to the small number of relevant comments received, these have been combined below.

QUESTION 8. RESPONSES

1. I don't see the point of such a plan. Gaelic is not in daily use for business, education or news media anywhere in Scotland apart from the Western Isles and its use there is declining. it would be far better to support Scots language which is actually spoken in the south of Scotland daily by many people. Yet Scots is often derided as 'slang' and is not considered to be a 'proper' language by many Scots, unfortunately.	2. Rather than a National Gaelic language plan, a local Gaelic language plan would be more understandable.	3. Provide higher Gaelic education. People need to start thinking about the future how will we get Gaelic teachers in the future if our children are not educated in this.
4. The Plan should have been more visible and accessible.		

QUESTION 9. RESPONSES

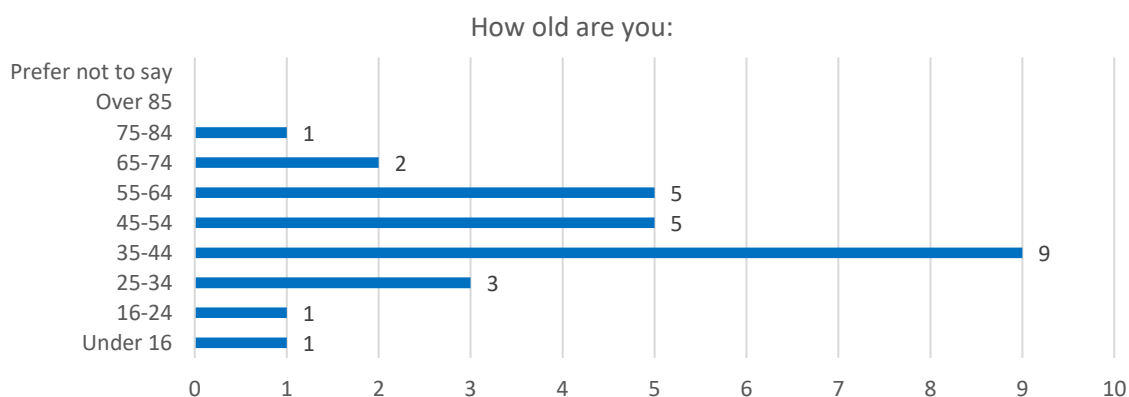

1. It is good to see Inverclyde Council taking such a positive stance in this important matter.	2. I would hope for a plan to be in place soon.	3. It is unnecessary. Uptake of provision in Whinhill Primary is influenced by the smaller pupil/teacher ratio as it always was historically.
4. To encourage uptake of GME in primary then Inverclyde Council could tap into the fund that is available for Gaelic children in Inverclyde who are outside the catchment area of Whinhill primary for transport to and from school. All other areas utilise the fund. We both work and since there is no GME in our catchment area we have to make our own way to school despite being more than 2 miles from the school, we have to pay out of our own pocket for travel expenses and time away from work, it seems unfair when there is a fund there that can be accessed for this purpose. It has a negative impact on children and parents, the out of pocket expense and time will put parents off sending their children to GME rather than supporting and encouraging the development of the language.	5. Am the grandparent of a child who is at present in Gaelic unit at Whinhill Primary and have been made aware that there may be no provision for them moving on to secondary Gaelic education therefore I hope steps are taken to ensure this is not the case	6. Was a bit generic and wishy washy. But I appreciate you're at least trying to give the impression you're trying. When this Covid stuff has finished get some Māori speaker up from Ngāti Ranana in London to explain the importance of indigenous language promotion and the benefits of it and they can be a great example of how to make this a cross cultural unifier.
7. I feel that the ideas are great but I'm really not convinced that it'll go ahead at the level stated in the plan. It feels like a bit of a box-ticking exercise - I really hope I'm wrong for the sake of my children as I see it as a huge positive to learn the language and be part of a close-knit community.	8. Tha e air a chur ri chèile ann an deagh chruth agus tha pìosan làidir ann / It is put together in good shape and had some strong points	9. I would like to see visually and quite quickly beginning in 2022. The Gaelic plan begin and not some year's later

Section 2: About You

Respondents were asked for information about themselves to help the Council improve its services in relation to Gaelic, however there was no obligation to complete this part of the survey. Almost 84% of respondents were happy for Inverclyde Council to publish information about themselves whilst 16% noted that they were not. Accordingly, their information has been excluded from the data analysis provided below.

55% of respondents who were willing to share their information were male and 45% female.

The highest number of responses received were from the 35-44 year old age group.

Almost a third of respondents said that they know a few words of Gaelic and a quarter said that they have reasonable Gaelic language skills. Another quarter said that they have no Gaelic language skills at all. A small number of respondents, 7%, reported that they are fluent in Gaelic.

The survey concluded by offering people the chance to leave their contact details if they were interested in finding out more about Gaelic language and cultural activities provided by the Council and 9 requests for information were received.
