Port Glasgow

Locality Action Plan 2024

Locality profile

Port Glasgow is located on the West Coast of Scotland, 20 miles west of Glasgow and has a population of around 14,300¹. The locality area covers the extents of the town of Port Glasgow, the second largest town in Inverclyde local authority area.

Port Glasgow's history is intertwined with the development of Glasgow's sea trade. In the 17th century, large ships couldn't reach Glasgow due to the shallow River Clyde. So, the city built a harbour downstream in 1668, establishing what was then called "New Port Glasgow." This new port thrived, becoming a major shipbuilding centre by the 18th century. Notably, the "Comet," Europe's first commercially successful steamship, was built in Port Glasgow in 1812.

The River Clyde was eventually deepened, allowing ships to sail further upstream. While Port Glasgow's importance as a port diminished, shipbuilding remained a dominant industry well into the 20th century. Even today, Ferguson Marine, a descendant of the area's early shipyards, continues to operate in Port Glasgow.

Port Glasgow today is a town with a mix of historic charm and modern living. The historic town centre boasts traditional buildings, including Newark Castle, and a range of independent shops and cafes. While shipbuilding is no longer the main industry, Port Glasgow offers a variety of job opportunities and amenities. The town centre has a mix of independent shops and national chains, while the nearby Retail Park provides further shopping options. Additionally, Port Glasgow boasts several parks and recreational areas.

Port Glasgow has strong, vibrant, active communities who work together to ensure that local people are involved, included and cared for.

Port Glasgow

Locality Action Plan 2024

What is a Locality Action Plan?

The Community Empowerment (Scotland) Act 2015 placed a legal duty on Inverclyde Alliance to demonstrate that it is making a significant difference to the lives of residents through the planning and delivery of local outcomes and the involvement of community bodies at all stages of community planning. In addition, the Public Bodies (Joint Working) (Scotland) Act 2014 (the Act) puts in place the legislative framework to integrate health and social care services in Scotland. Section 29(3)(a) of the Act requires each Integration Authority to establish at least two localities within the area.

Both these pieces of legislation have provided the opportunity for Inverclyde Alliance to develop six locality plans for the localities listed below.

- Kilmacolm and Quarrier's Village
- Port Glasgow
- Greenock East and Central
- Greenock West and Gourock
- Greenock South and Southwest
- Inverkip and Wemyss Bay

The purpose of this locality plan is to outline the key issues in Port Glasgow that have been identified through the statistical information we hold for this locality, as well as extensive engagement with the community.

The locality plan also identifies a range of actions that will be taken to address these issues by both Inverclyde Alliance and the local community in Port Glasgow working together.

Locality plans should be informed by communities themselves and work is ongoing to create an Inverclyde-wide engagement model, known as Inverclyde Peoples Network, based on a mixture of online and face-to-face engagements, that will drive the priorities in 6 locality plans. This will be promoted as a community planning partnership approach and will also link with the work of Health and Social Care Partnership locality planning groups. The Inverclyde

Peoples Network will help to inform and take forward participatory budgeting in Inverclyde. Participatory budgeting is a way for people to have a direct say in how local money is spent.

This is an exciting opportunity for anyone who would like to get actively involved in the way services are delivered and shape how their local community might look in the future.

Public bodies cannot do this alone, we need to listen to what local people say is important to them and include your views as we plan ahead together.

Port Glasgow

Locality Action Plan 2024

Who are the key partners on this Locality Action Plan?

- Elected members
- Community Councils
- Tenants and Residents Associations
- Parent Councils and Pupil Councils
- Youth Council
- HSCP Locality Planning Groups
- Community representatives and groups
- Community Planning Partnership:
 - Inverclyde Council
 - Skills Development Scotland (SDS)
 - West College Scotland
 - Inverclyde Health and Social Care Partnership (HSCP)
 - Police Scotland
 - Scottish Fire & Rescue
 - NHS Scotland
 - Third Sector organisations
 - Housing Associations
 - Scottish Enterprise
 - Nature Scotland

Community Assets

Port Glasgow has a range of community groups, assets, and services across the locality. It is important that these assets are fully utilised for the benefit of residents in Port Glasgow and that consideration is given as to how these assets could be better used to improve the quality of life and deliver better outcomes for local people.

For further information on what activities and services are available within this locality area please visit [Inverclyde Life - find activities and services in Inverclyde.](#)

Community Voice Groups

The following is a list of some of the existing groups that operate within the locality area and provide a platform for communities to have their say:

- Port Glasgow West Community Council
- Slaemuir Tenants and Residents Association
- Chapelton Tenants and Residents Association
- Clune Park Committee
- Woodhall Community Association
- Broadstone Gardens Residents Association
- Park Farm Tenants and Residents Association
- Riverside Club
- Port Glasgow 2025

Physical Assets

Schools / Nurseries

- St Stephen's and Port High School Joint Campus

- Port Glasgow Bus Station

Culture and heritage assets

- Newark Castle
- Coronation Park

Other

- Port Glasgow Swimming Pool
- Boglestone Community Centre Gym
- I-Youth Zone Port Glasgow

Port Glasgow

Locality Action Plan 2024

Engaging with the community

Extensive engagement has been carried out with residents in Port Glasgow to find out what they think about living in this area and identify what improvements they would like to see take place.

Each Locality Plan set original priorities in 2019 based on data analysis and local engagement, which included:

- **Port Glasgow Charrette (2014)** - A Charrette for Port Glasgow town centre was undertaken in March 2014. A charrette is an intensive multi-disciplinary planning process that encourages active engagement of stakeholders in developing design ideas collaboratively in response to specific planning and urban design issues.
- **Our place our future (2017)** - In 2017 Inverclyde Alliance carried out a survey across Inverclyde called 'Our Place Our Future' which delved into a wide range of themes from traffic and parking, streets, and spaces, to work, care, housing, and local amenities.
- **Engagement with Young People (2017)** - children from across Inverclyde provided the HSCP their views and identified eight priorities and actions that are important to them as part of the Inverclyde People Plan 2017-2020.
- **'Celebrate the Present, Shape the Future' Event (2019)** - In 2019 Inverclyde Alliance held a series of engagement events across all 6 localities in Inverclyde called 'Celebrate the past, shape the future'.

During the development of the [Inverclyde Alliance Community Partnership Plan 2023-33](#) a thorough Strategic Needs Assessment and public consultation was undertaken between 2021 and 2022. The consultation involved six different research methods over eight weeks of consultation. There were a total of 2801 participants.

Our partnership vision is "Success For All – Getting It Right for Every Child, Citizen and Community" and the plan focuses on the themes of Empowered People, Working People, Healthy People and Places, A Supportive Place, and a Thriving Place.

Following the publication of this Partnership Plan 23-33, a review of the previous priorities for Locality Plans was carried out to ensure that they were still relevant to local needs and aligned with the new community planning partnership vision and priority outcomes.

A community survey ran during April and May 2024. The survey provided an opportunity for community members to state if they agreed or disagreed with the suggested priorities for their locality area, followed with an opportunity to suggest alternative areas of concern. The survey also asked for feedback on two Inverclyde wide priorities, transport and roads.

Community Learning & Development Officers created an engagement plan to maximise engagement, actions within this plan included:

- Visiting groups across the six localities with paper copies of the survey.
- Support from Corporate Communications with wider publicity
- Hosting 6 Community drop-on sessions in partnership with Inverclyde Libraries
- Promotion of the survey via Schools and Third sector such as CVS and Your Voice.

Community drop-in sessions were also held within each locality. The aim of the community drop-in was to provide a safe space for community members to access support to complete the survey, the support accessed was primary around supporting digital skills and further information in relation to the locality plans.

During the consultation communities were presented with the option of agree or disagree in relation to the suggested priorities specific to each locality and two Inverclyde wide priorities. The suggested priorities reflect feedback from

Port Glasgow

Locality Action Plan 2024

previous community engagement. The digital survey received 410 completed responses:

- Theme 1 Empowering people: 78% agreed with the suggested priority.
- Theme 2 Working People: 74% agreed with the suggested priority.
- Theme 3 Healthy People and Places: 76% agreed with the suggested priority
- Theme 4 A Supportive Place: 75% agreed with the suggested priority
- Theme 5 A Thriving Place: 67% agreed with the suggested priority
- Inverclyde wide priority 1 Improved roads: 75% agreed with the suggested priority
- Inverclyde wide priority 2 Improved transport: 71% agreed
- 129 of the respondents would like to be part of the Inverclyde People's Network

Engagement with people for the HSCP strategic plan 2024-2027 - The engagement process for the Strategic Plan in Inverclyde Health and Social Care Partnership involved a collaborative effort between the HSCP, CVS Inverclyde, and Your Voice. They co-produced a survey distributed digitally to the workforce, third sector, and communities. In-person engagement sessions and focus groups were also conducted to gather expectations and priorities for the plan.

The feedback from the engagement process highlighted several strengths of the Strategic Plan, including:

- Alignment with national outcomes
- Extensive community consultation in developing priorities
- Opportunities to strengthen partnership working with the third sector
- Potential for reviewing and improving processes, waiting times, and response times
- Opportunities to deliver services differently in response to financial pressures and service demands

- Potential to reconnect services and strengthen integration post-COVID

The priorities, over the life of the HSCP plan, we will:

- Provide Early Help and Intervention
- Improve Support for Mental Health, Wellbeing and Recovery
- Support Inclusive, Safe and Resilient Communities
- Strengthen Support to Families and Carers

Port Glasgow

Locality Action Plan 2024

Port Glasgow priorities

Each Locality has their own local priorities that relate to inequalities and highlight where the Community Planning Partnership can add value. The priorities also link to our [Inverclyde Alliance Community Partnership Plan 2023-33](#)

As a result of the extensive engagement that has taken place the following priorities will be taken forward through the locality action plan for Port Glasgow.

Empowered People: Residents have accessible platforms and venues to come together to have their say.

Working People: Communities will have access to employability support that supports highlighted need.

Healthy People and Places: Families and young people have access to safe spaces to learn, play and engage.

A Supportive Place: Communities will feel safer, and the local area will have less anti-social behaviour and crime.

A Thriving Place: Focus on regeneration areas to improve their overall look and feel.

Port Glasgow

Locality Action Plan 2024

Next Steps

- Locality Plans will be embedded within the work of the Thriving Communities Partnership who are a delivery group for Inverclyde Alliances Partnership Plan 2023-33.
- Community Conversation Weeks will be planned annually for each locality to ensure there is continual face-to-face engagement on the plans that is linked to decision-makers both within the local authority and the Community Planning Partnership.
- The Inverclyde People's Network will be developed as an Inverclyde-wide engagement network, based on a mixture of online and face-to-face engagements, that will drive the priorities in 6 revised locality plans.
