Report To:	Inverclyde Licensing Board	Date:	6 March 2025
Report By:	Clerk to Inverclyde Licensing Board	Report No:	LS/013/25
Contact Officer:	Anne Sinclair	Contact No:	01475 712034
Subject:	Gambling Act 2005: Review of the Licensing Board's Statement of Principles		

1.0 PURPOSE AND SUMMARY

1.1 For Decision For Information/Noting

1.2 The purpose of this report is to update members of the Inverclyde Licensing Board on the outcome of the initial public consultation on the Licensing Board's Statement of Principles in relation to gambling and to request that the Board considers what revisions, if any, require to be made to its Statement of Principles in light of the consultation responses and consider whether a Local Area Profile should be developed.

2.0 RECOMMENDATIONS

2.1 It is recommended that the Board:

- a) note the terms of this report and the responses received following the initial public consultation;
- b) consider the proposed amendments to the Board's Statement of Principles in relation to gambling as set out in **Appendix 1** and consider what further changes, if any, are required to the Statement of Principles;
- c) consider whether a Local Area Profile should be developed;
- d) approve the draft Statement of Principles, and if considered appropriate, Local Area Profile;
- e) authorise the Clerk of the Board to consult further with the public, trade and relevant stakeholders on the terms of the draft Statement of Principles and Local Area Profile;
- f) authorise the Clerk of the Board to publish the draft Statement of Principles and Local Area Profile as part of the public consultation; and
- g) instruct that a report is brought back to a future meeting of the Board in order to consider any further consultation responses in relation to the Statement of Principles and Local Area Profile prior to the Boards approval.

Lynsey Brown
Clerk to the Inverclyde Licensing Board

3.0 BACKGROUND AND CONTEXT

- 3.1 In terms of Section 349 of the 2005 Act the Licensing Board is required to publish a Statement of Principles that sets out how it will exercise its functions under the 2005 Act. This Statement of Principles must be reviewed every 3 years. The Board's existing policy was formally approved by the Licensing Board on 14 April 2022 and therefore must be reviewed by 13 April 2025. The Board's existing Statement of Principles can be accessed via the following link: [Statement of Principles - Inverclyde Council](#)
- 3.2 The Statement of Principles is the Licensing Board's mandate for managing local gambling provision and it sets out how the Licensing Board views the local risk environment and therefore its expectations in relation to operators with premises in the locality.
- 3.3 When reviewing the Statement of Principles, the Licensing Board must make sure it promotes the licensing objectives of:
- preventing gambling from being a source of crime and disorder, being associated with crime or disorder, or being used to support crimes;
 - Ensuring that gambling is conducted in a fair and open way; and
 - Protecting children and other vulnerable persons from being harmed or exploited by gambling.
- 3.4 The Licensing Board must comply with the 2005 Act and have regard to the Gambling Commission's guidance to licensing authorities, last updated on 11 April 2023, together with licence conditions and codes of practice as well as any responses from those consulted when reviewing its Statement of Principles. It should be noted that the format and content of the Statement of Principles is prescribed by the Gambling Act 2005 (Licensing Authority Policy Statement) (Scotland) Regulations 2006.
- 3.5 The UK Government in April 2023 published its review of gambling legislation setting out the plans for modernising the regulation of gambling. This review noted that the UK Government intended, when parliamentary time permitted, to introduce an over provision test, similar to that contained with alcohol licensing legislation. Such legislation is not in force and therefore the Licensing Board cannot consider over provision of gambling licensed premises at the current time.
- 3.6 The 2005 Act places a legal duty by way of Section 153 to aim to permit gambling, in so far that it is considered to be reasonably consistent with a pursuit of the licensing objectives. The effect of this duty is that the Licensing Board must approach their functions in a way that seeks to regulate gambling by using their powers, for example, by attaching conditions to a premises license as opposed to seeking to prevent gambling altogether.
- 3.7 As at the date of this report there is a total of 14 gambling licences within the Board's Licensing area, comprising 9 Betting licences, 3 Adult Gaming Centre licences and 2 licences in respect of Bingo premises. Six up to date maps, which are produced in **Appendix 2**, have been prepared showing the spread of Gambling Premises across the Licensing Board area. For ease of reference, there is one licence in Wemyss Bay, one in Gourrock, ten in Greenock and two located in Port Glasgow.

4.0 CONSULTATION

4.1 As a minimum the Board must consult:-

- The Chief Constable;
- One or more persons who appear to the Board to represent the interests of persons carrying on gambling businesses in the Board's area; and
- One or more persons who appear to the Board to represent the interests of persons likely to be effected by the exercise of the Board's functions in terms of the Act.

Accordingly, an initial consultation exercise has been undertaken with key stakeholders including the public, trade, Police Scotland, Community Councils, Inverclyde Health & Social Care Partnership, Inverclyde Child & Adult Protection Committees. A total of seven responses have been received from consultees and a summary of the responses is set out in **Appendix 3** to this report. Members will note that whilst none of the respondees consider any changes are required to the policy or any particular topics require to be addressed almost all respondees consider that there are gambling associated risks and at least three respondees highlight the number of gambling licences located within Greenock town centre. In response to the consultation Chief Superintendent Fraser has submitted a letter dated 14 January 2025 confirming that Police Scotland fully support the Board's Policy and additional information has been provided by the Chief Superintendent regarding the proactive steps Police Scotland has taken in this connection. A copy of the letter from Police Scotland is produced in **Appendix 4** to this report.

4.2 The Statement of Principles has now been revised by Officers and a copy of the updated document with proposed revisals shown as tracked changes is set out in **Appendix 1** to this report. The main proposed change is in relation to the introduction of a Local Area Profile in section 11.1 of the Statement of Principles. A copy of the Local Area Profile is set out in **Appendix 5** to this report.

5.0 LOCAL AREA PROFILES

5.1 There is no mandatory requirement on a Licensing Authority to have a Local Area Profile, however the Gambling Commission's most up to date guidance advises that are significant benefits for both licensing authority and operators to complete their own assessment of the local environment as a means of mapping out local areas of concern which can lead to a better awareness of local area and risks. The Gambling Commissions states a Local Area Profile has the following benefits:

- It enables licensing authorities to better serve the local community by better reflecting the community and the risks within it;
- Greater clarity for operators as to the relevant factors in licensing authority decision making, will lead to improved premises license applications, with the operator already incorporating controls and measures to mitigate risk in the application;
- It enables licensing authorities to make robust but fair decisions, based on a clear, published set of factors and risks, which are therefore less acceptable to challenge,
- It encourages a proactive approach to risk that is likely to result in reduced compliance and enforcement action.

5.2 The Gambling Commission advise that risk in the above context includes potential and actual risks, thereby taking into account possible future emerging risks, rather than reflecting current risks only.

- 5.3 The Gambling Commission’s guidance to local authorities describes an effective Local Area Profile as one that takes account of a wide range of factors, data and information held by the Licensing Authority and accordingly the new local area profile pulls together information and data provided by partners. Having regard to paragraph 6.51 of the Gambling Commissions guidance to local authorities it proposed that the Local Area Profile will sit separately from the Statement of Principles to allow for ease of update should the need arise. Therefore, the Statement of Principles refers to the Local Area Profile being a separate document and one that it will have regard to when exercising its functions.
- 5.4 An important element of preparing a Local Area Profile is proactive engagement with responsible authorities as well as other organisations in the area that can provide input to map local risks in their area. These groups are likely to include Public Health, Mental Health, Housing, Education, Community Welfare Groups and Safety Partnerships.
- 5.5 Good Local Area Profiles are intended to increase awareness of local risks and improve information sharing, to facilitate constructive engagement with licensee and more co-ordinated response to local risks. The Local Area Profile is intended to help to inform specific risks that operators will need to address in their risk assessment which will form a part of any new license application or any application to vary a license.

6.0 PROPOSALS

- 6.1 Following a review of consultation responses the existing Statement of Principles- Gambling has been reviewed by officers. It is now proposed that a further public consultation exercise is undertaken with a public notice in the Greenock Telegraph newspaper in relation to the draft Statement of Principles and Local Area Profile with a further report due to be considered by members at a special meeting of the Board in early April 2025.

- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime;
- Ensuring that gambling is being conducted in a fair and open way; and
- Protecting children and other vulnerable persons from being harmed or exploited by gambling.

1.6 In accordance with Section 153 of the Gambling Act 2005, Inverclyde Licensing Board, in making decisions concerning premises licences and temporary use notices, aims to permit the use of premises for gambling in so far as we think it is:

- In accordance with any relevant Code of Practice issued by the Gambling Commission.
- In accordance with any relevant guidance issued by the Gambling Commission.
- Reasonably consistent with the licensing objectives.
- In accordance with this Statement of Principles.

1.7 Nothing in this Statement of Principles will override the right of any person to make an application under the Act or to have the application considered on its individual merits, undermine the right of any person to make representations on an application or to seek a review of a licence where there is a legal power to do so.

This Statement is intended to be a general Statement of Principles and is not to be regarded as a comprehensive guide to the application of the Act by the Board. Applicants and others should always have regard to not only this Statement of Principles but also the Act, any Regulations made under the Act and any Guidance or Codes of Practice issued by the Gambling Commission. Guidance and Codes of Practice issued by the Gambling Commission may be accessed on the Commission's web site. (www.gamblingcommission.gov.uk).

1.8 The following is a summary of the matters dealt with in this Statement:

- The principles applied by the Board in designating in writing a Body which is competent to advise the authority about the protection of children from harm.
- The principles to be applied by the Board in determining whether a person is an interested party in relation to a premises licence or in relation to an application for or in respect of a premises licence.
- The principles to be applied by the Board in exercising its functions with respect to the inspection of premises and with regard to its powers under Section 346 of the Act to institute criminal proceedings in respect of the offences specified in that Section.
- The principles to be applied by the Board with respect to the exchange of information between the Board and the Gambling Commission and the Board's functions under Section 350 of the Act with respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.
- The factors which the Board may take into account when considering applications for premises licences, permits and other permissions and matters that it will consider relevant when determining whether to review a licence.

1.9 In producing this Statement of Principles, the Board has had regard to the licensing objectives of the Gambling Act 2005, the Guidance issued by the Gambling Commission and any responses from those consulted on this Statement of Principles.

1.10 While the Board will have regard to this Statement of Principles in making any decisions under the Act, every application will be regarded and considered on its own merits.

1.14 It should be noted that the Act provides that expected demand for the facilities proposed to be provided in the premises for which a premises licence is sought is not a criterion of which the Board may take account when considering an application. Also, the Guidance issued by the Gambling Commission indicates that "moral objections to gambling are not a valid reason to reject

applications for premises licences”. This being the case, the Board will not have regard to demand or moral objections when exercising its functions under the Act. Similarly, the likelihood of the grant of planning permission or building regulation approval are not criteria that the Board may consider when deciding on the merits of an application and accordingly will not be considered by the Board when exercising its functions under the Act.

- 1.12 The Board is committed to avoiding duplication with other legislation and regulatory regimes as far as possible and therefore legal requirements of other legislation (e.g. health and safety and fire precautions) have not been repeated in this Statement of Principles. However, the Board requires to ensure that it adheres to Equality legislation and accordingly the scope of the Consultation has been widened to take account of the views of relevant bodies.

2.0 Inverclyde and Inverclyde Licensing Board

- 2.1 Inverclyde is one of Scotland’s smaller local authority areas. It is situated to the west of Glasgow on the south bank of the estuary of the River Clyde and covers 61 square miles. Its population is largely concentrated in the towns of Greenock, Port Glasgow, Gourock, Kilmacollm, Quarriers Village, Inverkip and Wemyss Bay. [It has a population of just over 76,000. A map of the local authority area is produced in Appendix X.](#)

- 2.2 Inverclyde Licensing Board comprises eight elected Members of Inverclyde Council with two further Members available to substitute as and when necessary.

3.0 Consultation on the Statement of Principles.

- 3.1 The Act requires the following parties to be consulted prior to publication of this Statement of Principles:

- The Chief Officer of Police.
- One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the Board’s area.

- One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Gambling Act 2005.
- 3.2 The parties consulted in relation to the Statement of Principles are listed in Appendix 1 to this Statement of Principles.
- 3.3 Prior to publishing this Statement of Principles the Board had regard to and gave appropriate weight to the views of those whom it had consulted. In determining what weight to give to particular representations, the following factors were taken into account:
- Who is making the representations (what is their expertise or interest)?
 - What their motivation may be for their view.
 - How many other people have expressed the same or similar views?
 - How far the representations relate to matters which the Board should be including in its Statements of Principles.
 - The Act, any regulations made under the Act and any relevant Guidance or Codes of Practice.
- 3.4 In considering the views of consultees, the Board considered whether those views should be taken into account and the extent to which the Board are able to deal with the issues raised. For example, the views may relate to a matter which is dealt with under other legislation such as planning.
- 3.5 ~~The~~The previous [January 2019](#) Statement of Principles was adopted by the Board on 29 October 2021 pending the outcome of a consultation which was undertaken between February and April 2022. The responses received were considered and at the Board's meeting on 14 April 2022 the existing Statement of Principles was adopted for a period of 3 years. For the purpose of this Statement of Principles the Board undertook a preliminary consultation between 28 November 2024 and 10 January 2025. The responses received were considered by the Board at its meeting on 6 March 2025. Having considered the outcome of the initial consultation the board instructed the Clerk to publicly consult on the revised Statement of Principles and Local Area

Profile. The public consultation was live between (insert date) and (insert date) and the Statement of Principles and Local Area Profile were formally adopted by the Board it at its meeting on (insert date).

4.2 The Board will not be involved, and has no locus to be involved, in the licensing of remote gambling. Regulation of such activities falls to the Gambling Commission.

5.0 Summary of Matters covered within Review of Statement

5.1 A number of updates appear in this Statement of Principles. The updates include reference to Inverclyde Licensing Board not having the authority to consider the likelihood of planning permission or building control certification being granted in determining premises licence applications, fuller descriptions of the various activities for which licences and permits can be granted and the Board's attitude to each, a more detailed policy relative to licence conditions and Review hearings.

6.0 Child Protection

6.1 In terms of Section 157 of the Act the Board is required to designate in writing a body which is competent to advise the Board about the protection of children from harm.

6.2 The Board designates Inverclyde Child Protection Committee. This is an inter-agency body representing the statutory private and voluntary sectors with a wide knowledge and experience of child protection matters: it has the specialist knowledge and expertise to advise the Board about the protection of children from harm.

7.0 Responsible Authorities

7.1 Responsible authorities are public bodies that must be notified of applications and which are entitled to make representations to the Board in relation to premises licences and applications for premises licences.

7.2 The responsible authorities in the Board's area are:

- The Board.
- The Inverclyde Council
- The Gambling Commission.
- The Chief Constable, Police Scotland.
- The Chief Fire Officer, Scottish Fire and Rescue Service.
- Head of Regeneration and Planning, Inverclyde Council.
- Head of Environmental and Public Protection, Inverclyde Council.
- Inverclyde Child Protection Committee.
- HM Revenue and Customs
- Any other person prescribed in regulations by the Secretary of State or Scottish Ministers.

8.0 Interested Parties

- 8.1 Interested parties can make representations about licence applications or apply for a review of an existing licence. A person is an interested party if, in relation to an application for or in respect of a premises licence, that person, in the opinion of the Board which issues the licence, or to which the application is made, the person:
- Lives sufficiently close to the premises to be likely to be affected by the authorised activities.
 - Has business interests that might be affected by the authorised activities.
 - Represents persons in either of these two groups.
- 8.2 In determining whether a person is an interested party, the Board will judge each case on its own merits.
- 8.3 In determining whether a person is a “person living close to the premises”, the Board may take account of the following factors:
- The size of the premises.
 - The nature of the premises.
 - The distance of the premises from the location of the party making the representation.
 - The potential impact of the premises.
 - The nature of the party e.g. is the party a private individual or a school or a church?
- 8.4 In determining whether a party is a person with business interests that could be affected, factors that may be taken into account include:
- The size of the premises, the location of the premises.
 - The proximity of the premises to any premises of the party making representations.
 - Whether the person making the representations has business interests in that catchment area that might be affected.

8.5 In deciding whether a person represents a party in either of the above categories, the Board will make decisions on a case by case basis; in appropriate cases, the Board may require written evidence such as a letter confirming that the person does indeed represent the party.

9.0 Compliance and Enforcement

9.1 The Board has powers in terms of Part 15 of the Act to inspect premises, to monitor compliance with the provisions of the Act, with licence conditions and to investigate suspected offences.

Under the Legislative and Regulatory Reform Act 2006, any person exercising a specified regulatory function has a legal duty to have regard to the statutory principles of good regulation in the exercise of the function. These principles are detailed in 9.2 below. The Board will also have regard to the requirements of the Regulators' Code published by the Department for Business, Innovation and Skills.

9.2 The Board will seek to ensure that its approach to compliance and enforcement is:

- Proportionate: regulators should only intervene when necessary; remedies should be proportionate to the risk posed, and costs identified and minimised;
- Accountable: regulators must be able to justify decision and be subject to public scrutiny;
- Consistent: rules and standards will be applied fairly and equally to all parties;
- Transparent: regulators should be open and keep regulations simple and user friendly; and
- Targeted: regulation should be focused on the problem and minimise side effects.

9.3 The Board will seek to ensure that any inspection programme is risk based.

9.4 The Authority recognises that certain bookmakers have a number of premises within its area. In order to ensure that any compliance issues are recognised and resolved at the earliest stage, [the Board recommends that](#) operators ~~are requested to~~ provide the

authority with a single named point of contact and contact details, such person being a senior individual within the operator's organisation, and with whom the authority will first make contact should any compliance queries or issues arise.

9.4 ~~9.5~~—The Board, to monitor compliance with its functions under the Act, shall work actively with the Gambling Commission's Compliance Officer and other partner agencies to enforce the licensing legislation. The Responsible Authorities shall also monitor the Inverclyde Area for any unlicensed premises or gambling activity and ensure, where this is identified, it is reported to the Gambling Commission or other appropriate agency.

9.49.5 Concerns in relation to the manufacture, supply or repair of gaming machines, will not be dealt with by the licensing authority but will be notified to the Gambling Commission.

10.0 Exchange of Information

10.1 In exercising its functions under the Act, the Board will exchange relevant information with other regulatory bodies. The Board at all times will act in accordance with the provisions of the Gambling Act, Data Protection and Freedom of Information Legislation and any Guidance or Codes of Practice issued by the Gambling Commission.

11.0 Local Area Profiles

11.1 The Local Area Profile contains:

- A link to the Scottish Government website showing details of the Scottish Index of Multiple Deprivation for Inverclyde. These details may be factors that operators consider with regard to the Licensing Objectives, problem gamblers, vulnerable adults and the links in studies identified; and
- A map showing details of a breakdown of the different types of schools in Inverclyde, and their proximity to licensed premises; and
- Details of current Gambling Premises so that operators can assess the range of gambling facilities in proximity to the Licensed Premises in terms of any risk assessment.

12.0 General Principles

12.1 The Board will apply the following general principles in considering applications for premises licences, permits and other permissions and generally in exercising its duties under the Gambling Act 2005:

- As indicated in paragraph 1.11, the Board will not have regard to expected demand, moral objections, or the likelihood of achieving planning permission or building control certification when exercising its functions under the Act.
- The Licensing Authority will seek to avoid any duplication with other statutory or regulatory systems such as the statutory planning regime.
- The Board recognises the importance of protecting children and other vulnerable persons from being harmed or exploited by gambling and the Board will pay particular

attention to any issues which it considers may be relevant to such protection.

- The Board will have regard in every case to the provisions of the Gambling Act 2005 and any regulations made under the Act and any Codes of Practice or Guidance issued by the Gambling Commission.
- The Board will have regard to this Statement of Principles in carrying out its functions under the Act but will always consider every case on its own merits.

124.2 The following paragraphs provide a statement of the principles which will be applied by the Board in specific cases.

132.0 Premises Licences

132.1 Premises licences will always be subject to the restrictions set out in the Act and regulations as well as to any mandatory conditions specified in regulations made under the Gambling Act 2005.

132.2 Premises licences will be subject to any default conditions specified in regulations made under the Gambling Act 2005, except in those cases where the Board considers it appropriate to exclude a default condition.

132.3 In cases where it considers it appropriate to do so, the Board will apply additional conditions to a premises licence to address specific issues relating to a particular premises.

132.4 In making decisions about premises licences, the Board will aim to permit the use of premises for gambling in so far as the Board thinks it is:

- In accordance with any relevant Code of Practice issued by the Gambling Commission.
- In accordance with any relevant Guidance issued by the Gambling Commission.
- Reasonably consistent with the licensing objectives.
- In accordance with the Statement of Principles.

132.5 Definition of Premises. The Act defines premises as being “any place”. A single premises cannot have more than one premises licence. However, it is possible that a single building could have more than one premises licence, provided that the licences apply to different parts of the building and it is reasonable to regard those different parts of the building as being separate premises. It is a question of fact and circumstances as to whether different parts of a building can properly be regarded as separate premises and the Board will consider each case on its own merits. However, Guidance from the Gambling Commission states that “the Commission does not consider that areas of a building that are artificially or temporarily separated can properly be regarded as different premises”. Therefore, the Board will expect there to be a sufficient degree of separation between different parts of a building before being satisfied that these different parts constitute separate premises. Accordingly, the Gambling Commission states in its current Guidance that licensing authorities should pay

particular attention if there are issues about sub-divisions of a single building or plot and will ensure that mandatory conditions relating to access between the premises are observed.

- 132.6 In accordance with the Guidance issued by the Gambling Commission, the Board will pay particular attention to premises which are accessed through other premises, whether licensed or unlicensed. The Board will look particularly at the compatibility of the two premises, particularly having regard to the persons who may resort to each of the premises. The Board will look at such things as the entrances and exits to different parts of the building and the segregation of gambling from non-gambling areas.
- 132.7 Paragraph 1.5 of this Statement of Principles specified the statutory licensing objectives to which the Board would have regard in exercising its functions under the Gambling Act 2005. Detailed below are the principles which the Board will apply in relation to each of the licensing objectives.
- 132.8 The first licensing objective is “preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime”. The Gambling Commission will take the leading role in relation to this objective and the Board will have regard to any Guidance or Advice issued by the Gambling Commission.
- 132.9 The Board will consider whether there is any likelihood of violence or of public order or policing problems if a licence were to be granted. The Board will look at the location of the premises and whether there is any history of violence or disorder or any connection with crime.
- 132.10 The Board will take into account the following:
- The design and layout of the premises.
 - Any physically security features within the premises, such as CCTV and any systems for controlling entry to the premises (e.g. door stewards).
 - Any training given to staff relating to prevention of crime or disorder.
 - The likelihood of any violence, public order or policing problems of the licence granted.

- 132.11 There is no evidence that the operation of betting offices has required CCTV or door supervisors for the protection of the public. The authority will only impose the requirement for any of the above in circumstances where there is clear evidence, from the history of trading at specific premises, that such premises cannot be adequately supervised from the counter and that any one or more of such requirements are both necessary and proportionate.
- 132.12 The second licensing objective is “ensuring that gambling is conducted in a fair and open way”. The Gambling Commission has primary responsibility for ensuring that gambling is conducted in a fair and open way. This is really a matter relevant to operating and personal licences and therefore the Board do not state any principles in regard to this objective.
- 132.13 The third licensing objective is “protecting children and other vulnerable persons from being harmed or exploited by gambling”;
- 132.14 The general intention of the Gambling Act 2005 is that children and young persons should not be permitted to gamble and that they should be protected from harm or exploitation by gambling. This means both preventing them taking part in gambling and also restricting advertising so that gambling products are not aimed at children or advertised in a way that makes them particularly attractive to children.
- 132.15 The Board will consider whether specific measures will be needed to protect children in relation to particular premises. The Board will look at measures such as supervision of entrances and segregation between gambling and non-gambling areas.
- 132.16 The Act does not define “vulnerable persons” but the Guidance from the Gambling Commission suggests that this group will include people who gamble more than they want to or gamble beyond their means and people who may not be able to make informed or balanced decisions about gambling due to mental impairment, alcohol or drugs.
- 132.17 The Board will consider in relation to particular premises whether any special circumstances apply which are relevant to the protection of vulnerable persons.
- 132.18 The Board considers it “best practice”, that premises display appropriate information for vulnerable people who may require or are seeking help with gambling related issues.

Conditions on Licensing Premises

132.19 The Board will judge the merits of each individual application before reaching a decision on it, including whether to impose conditions to protect children or vulnerable persons. Any controls which might be required may also depend on the type of premises being considered and, in particular, whether and to what extent children are allowed in those premises. Such conditions may require, particularly in relation to children: supervision of entrances; segregation of gambling areas from areas frequented by children or family-based activities; restriction on advertising where children and/or vulnerable persons may be near premises, and supervision of gaming machines in non-adult gambling specific premises.

In respect of “vulnerable persons”, the Board will also have particular regard to representations relating to the internal layout of premises, as well as any concerns in relation to the location of applicant premises.

132.20 Any representations relative to a premises licence application should address why any conditions being sought should be imposed. The Board has a legal duty to permit gambling activity insofar as the gambling activity is consistent with the licensing objectives. Accordingly, any representations should include supporting evidence of any gambling related risks or harms relating to the premises or the area of the premises.

132.21 In appropriate cases the Board will apply conditions to any premises licence. Any such conditions will be:

- Proportionate.
- Relevant to the need to make the proposed building suitable as a gambling facility.
- Directly related to the premises and the type of licence applied for.
- Fairly and reasonably related to the scale and type of premises.
- Reasonable in all other respects.

132.22 In order to inform the Board in its decision to impose any conditions on a licence, a Risk Assessment template has been produced for applicants to complete and submit as evidence with

their application. The template is set out at Appendix 2. The template is produced as guidance to applicants. Applicants are free to submit their own risk assessments, but in doing so they must ensure that the Board is provided with adequate information.

143.0 Gaming Centre and Gaming Machine Permits

143.1 The Board can grant or refuse a permit but cannot attach conditions to a permit.

143.2 The Board will expect applicants to demonstrate:

- A full understanding of the maximum stakes and prizes of the gambling that is permissible.
- That the applicant has no relevant convictions (as set out in Schedule 7 of the Gambling Act 2005).
- That staff are trained to have a full understanding of the maximum stakes and prizes.
- That the applicant has in place suitable policies and procedures for the protection of children and vulnerable persons.

154.0 Adult Gaming Centres

154.1 The Board will have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to demonstrate that there will be sufficient measures to ensure that persons under 18 years of age do not have access to the premises.

154.2 Sufficient measures that will be imposed as appropriate licensing conditions may include, but are not limited to such conditions as proof of age schemes, CCTV, door supervisors, supervision of entrances/machine areas, physical separation of areas, location of entry, notices & signage and opening hours.

165.0 Family Entertainment Centres

165.1 The Board shall have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to demonstrate that there will be sufficient measures to ensure that persons under 18 years of age do not have access to the adult only gaming machine areas.

165.2 In accordance with the Gambling Commission's Guidance, the Board will ensure that it is sufficiently aware of any conditions that apply to operating licences, for instance those covering the way in which the area containing category C or higher machines should be delineated.

176.0 Unlicensed Family Entertainment Centre Gaming Machine Permits

176.1 Where the operator of a family entertainment centre (FEC) does not hold a premises licence but wishes to provide gaming machines, he or she may apply to the licensing authority for this permit. The applicant must demonstrate that the premises will wholly or mainly be used for making gaming machines available for use.

176.2 Unlicensed FECs will be able to offer only category D machines under the gaming machine permit. Any number of category D machines can be made available with such a permit. Permits cannot be issued in respect of vessels or vehicles.

176.3 The Board can grant or refuse a permit but cannot attach conditions to this type of permit.

176.4 The Board will expect any permit applicant to demonstrate that there are policies and procedures in place to protect children from harm. Although such "harm" clearly includes harm from gambling, there are wider child protection considerations to be considered in addition thereto.

17.0 Casinos

- 17.1 There are currently no Casinos operating within the Board's licensing area. The Board has not passed a "No Casino" resolution under Section 166 of the Act.
- 17.2 On an application for such a licence, the Board shall take account of the Act and The Gambling Commission's Guidance together with having regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to demonstrate that there will be sufficient measures in place to comply with the licensing objectives, this policy and the Gambling Commission's Guidance Notes.

18.0 Bingo Premises

- 18.1 The Gambling Commission's Guidance states that Licensing Authorities will need to satisfy themselves that Bingo can be played in any bingo premises for which they issue a premises licence. This will be a relevant consideration where the operator of an existing bingo premises applies to vary their licence to exclude an area of the existing premises from being used for bingo, and then applies for a new premises licence, or multiple licences for that excluded area.
- 18.2 This authority also notes the terms of the Guidance regarding the unusual circumstances where an existing bingo premises covered by one premises licence applies to vary the licence and acquire additional bingo premises licences (so that the area that was the subject of a single licence becomes divided between a number of separate licensed premises) it is not permissible for all of the gaming machines to which each of the licences brings an entitlement to be grouped together within one of the licensed premises.
- 18.3 Children and young people [\(anyone up to the age of 18\)](#) are allowed into bingo premises; however, they are not permitted to participate in the bingo activity. If category B and/or C machines are made available for use, these must be separated from areas where children and young people are allowed access. [Children and young people cannot be employed in providing any facilities for gambling on bingo premises and children \(anyone under the age of 16\) cannot be employed in any capacity at a time when facilities for playing bingo are being offered. However, young people \(aged 16 and 17\) may be employed in bingo premises \(while bingo is being played\) provided the activity in which they are employed are not connected with gaming or gaming machines.](#)

19.0 Betting Premises

19.1 The Act contains a single class of licence for betting premises. Different types of premises will require licensing, including betting offices on tracks that have a separate premises licence from the track licence. It is not permissible for the operator to offer gaming machines on premises which are licensed for betting but not to offer sufficient facilities for betting.

19.2 The Licensing Authority will, in terms of the Gambling Commission Guidance take into account the size of the premise, the number of counter positions available for person to person transactions and the ability of the staff to monitor the use of the machines by children and young people (it is an offence for those under 18 to bet) or by vulnerable people when considering the number or nature of machines or the circumstances of betting machines an operator wants to offer.

20.0 Tracks

20.1 There are currently no tracks within the Board's licensing area.

20.2 The Act contains rules which apply to applicants for a premises licence in relation to a track. The applicant need not hold an operating licence because the betting which is provided upon the track will be provided by other operators, who come on-course. Since those people will require the necessary operating licences, the Act allows the track operator to obtain a premises licence without also having to hold an operating licence. This track premises licence then authorises anyone upon the premises with an operating licence to offer betting facilities.

20.3 Tracks are different from other premises in as much as there may be more than one premises licence in effect, each covering a specified area of the track. In accordance with the Gambling Commission's Guidance, the Board will especially consider the impact of the third licensing objective in this area.

20.4 There may be some specific considerations with regard to the protection of children and vulnerable persons from being harmed or exploited by gambling. The need to ensure entrances to each type of premises are distinct and that children are excluded from gambling or betting areas where they are not permitted to enter.

20.5 Children and young persons will be permitted to enter track areas where facilities for betting are provided on days when events take

place, although they are still prevented from entering areas where gaming machines (other than category D machines) are provided. A track premises licence does not automatically allow gaming machines to be provided, but gaming machines may be permitted where a pool betting operating licence is also held by the track owner. Premises licence applicants will have to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities.

- 20.6 In accordance with the Gambling Commission's Guidance, the Board shall attach a condition to track premises licences requiring the track operator ensures that the rules are prominently displayed in or near the betting areas, or that other measures are taken to ensure that they are made available to the public.

21.0 Travelling Fairs

- 21.1 The Board shall consider whether the application falls within the statutory definition of a travelling fair.

- 21.2 Where category D machines and/or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the Board will decide whether the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair, is met.

- 21.3 The 27 day statutory maximum for the land being used for a fair is per calendar year shall apply to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land.

22.0 Small Society Lotteries

- 22.1 A non-commercial society that runs a lottery where the income is below certain specified thresholds can register with the Licensing Board.

- 22.2 The financial limits that apply to these societies are that the proceeds from one individual lottery cannot exceed £20,000 and in a calendar year the total proceeds cannot exceed £250,000. If these limits are likely to be breached, then the Society requires to apply to the Gambling Commission for a Lottery Operating Licence. Societies cannot hold both permissions at the same time.

- 22.3 Registration requires the Society to name a person responsible for the promotion of the lottery and to submit lottery returns within

three months of the date of the lottery draw. Should the responsible person cease to be responsible for the lottery, the Society requires to nominate a new responsible person.

23.0 Temporary Use Notices and Occasional Use Notices

23.1 The general principles specified in this Statement of Principles and the specific principles relating to premises licences will be applied by the Board in relation to temporary use notices and occasional use notices. However, the Board will bear in mind the temporary/occasional nature of the use when making decisions with regard to these.

23.2 Temporary Use Notices

Where a gambling operator does not hold a premises licence but wishes to use the premises temporarily for providing facilities for gambling he or she may apply for a temporary use notice which may be granted if the applicant holds a relevant operating licence.

23.3 The legislation and the Gambling Commission's Guidance define premises as including "any place" and refer to a "set of premises". The Board will consider amongst other things, the ownership/occupation and the control of the premises when determining any particular case.

23.4 A set of premises may not be the subject of a temporary use notification for more than 21 days in a period of 12 months.

23.5 Occasional Use Notices

Where there is betting on a track on eight days or less in a calendar year, betting may be permitted by an occasional use notice, for a full premises licence.

23.6 The Board will ensure that the statutory limit of eight days in a calendar year is not exceeded and will consider the definition of a "track" in determining whether the applicant is permitted to avail him/herself of this notice.

24.0 Reviews

24.1 A premises licence may be reviewed by the Board either of its own volition or following receipt of an application for review from a responsible authority or an interested party. The Board will be the sole determining body on whether a review should or will be carried out.

24.2 In carrying out reviews, the Board will act:

- Expeditiously.
- Fairly.

- In accordance with the Gambling Act 2005 and any regulations issued under the Act.
 - In accordance with any Guidance or Code of Practice issued by the Gambling Commission.
- 24.3 Section 200 of the Act provides that licensing authorities may initiate a review in relation to a particular class of premises licence or in relation to particular premises.
- 24.4 An application for review may be rejected if the Board is of the view that the grounds on which the review is sought:
- are not relevant to the principles that must be applied by the licensing authority in accordance with Section 153;
 - are frivolous or vexatious;
 - will certainly not cause the authority to revoke or suspend the licence or exclude, remove or amend a condition attached to the licence; or
 - are substantially the same grounds specified in an earlier application in respect of the same premises or are substantially the same as representations made in relation to the application for the premises licence.
- 24.5 In determining whether to exercise the power to reject an application for review, the Board will take into account the length of time that has elapsed since the making of the earlier application or since the making of the application.

25.0 Provisional Statements

- 25.1 Section 204 of the Act provides that a person may make an application to the licensing authority for a Provisional Statement in respect of premises that he or she expects to be constructed, expects to be altered or expects to acquire a right to occupy.
- 25.2 The Gambling Commission's Guidance states that "it is a question of fact and degree whether the premises are finished to a degree that they can be considered for a premises licence" and that "requiring the building to be complete ensures that the authority could, if necessary, inspect it fully".
- 25.3 In terms of representations about premises licence applications following the grant of a provisional statement, no further representations from relevant authorities or interested parties will be taken into account unless they concern matters which could

not have been addressed at the provisional statement stage, or they reflect a change in the applicant's circumstances.

25.4 The Board may refuse the premises licence or grant it on terms different to those attached to the provisional statement only by reference to matters:-

- which could not have been raised at the provisional licence stage; or
- which, in the Board's opinion, reflects a change in the operator's circumstances.

25.5 The Gambling Commission's Guidance states that licensing authorities must not have regard to whether or not a proposal by an applicant is likely to be permitted in accordance with planning or building law [as these matters are dealt with under separate legislation and regulations.](#)

- 26.1 Inverclyde Licensing Board is committed to promoting equal opportunities, valuing diversity and tackling social exclusion. **Summary of Responses
To The Gambling Policy Consultation 2024/25**

CONSULTEE	PROPOSED CHANGES TO POLICY OR KEY TOPICS TO BE INSERTED	GAMBLING ASSOCIATED RISKS	SUBMISSION (Factors for the Board to take into account when considering applications)
1. Police Scotland	None	Police Scotland recognise the dangers and harm resulting from gambling	Police Scotland fully support the Board's policy, and they are proactive in recognising the dangers and harm resulting from gambling. Reference is made to letter of Chief Superintendent Rhona Fraser, Police Scotland dated 14 January 2025.
2. Council's Planning Service	None	Mention of risk to part of Inverclyde.	Adverse impact of gambling premises on the amenity, vibrancy and viability of town centres. The town centres should serve a mixture of civic, cultural, commercial and leisure functions.
3. A member of trade	None	No risks	No other key considerations or additional information required to policy.
4. Identity unknown	None	Risks to Inverclyde, parts of Inverclyde and parts of the population of Inverclyde.	A key consideration is the locality of being near where young children would be at school. In order to assist, posters regarding how to access support should be exhibited.
5. Organisation	None	Risk to all due to current number of gambling facilities available in the area.	Consider the proposed location. Support local groups which deal with this issue.

APPENDIX 3

6. School	None	Risk to all.	<p>Risks to all due to the number of gambling establishments and high level of poverty in Inverclyde making many residents vulnerable to gambling. There is a number of premises in a small area. With new applications please consider the number of existing premises before increasing. Setting gambling limits per day and posters for support groups would help.</p>
7. Church	None	Risks to parts of Inverclyde and parts of the population of Inverclyde.	<p>Parts of Inverclyde and parts of the population of Inverclyde are representative of Inverclyde's statistics often at the "poor" end of poverty league tables. Fewer licensed premises and more restrictive opening hours might reduce risk of gambling restrictions.</p> <p>The Board should take into account the number of licensing gambling premises in one area of Greenock Town Centre/West Blackhall Street. Issue regarding the number of licensed gaming premises in a single area.</p>

Dear Ms Sinclair,

**GAMBLING ACT 2005 SECTION 349
INVERCLYDE LICENSING BOARD STATEMENT OF PRINCIPLES**

I refer to notification received of Inverclyde Licensing Boards Statement of Principles regarding Gambling, which will run for the 3-year period from 14th April 2025 to 13th April 2028. On reviewing the content, I fully support the Boards Policy and can confirm that Police Scotland are proactive in recognising the dangers and harm resulting from gambling.

The manifestations of Gambling Related Harm can have an adverse impact on the health and wellbeing of individuals, families, communities and society in general, be it through the loss of employment, bankruptcy or debt, the breakdown of relationships resulting in violence or other forms of domestic abuse, the increase in thefts or others forms of criminality to fund addiction, or the deterioration in physical and mental health of those affected.

Following the identification of Gambling Related Harm being present in several incidents dealt with by Police in recent years, Renfrewshire and Inverclyde Policing Division were chosen to participate in a Gambling Related Harm working Group. This included surveys, awareness training, supporting material, guidance, screening and partnership working. The work undertaken by our division was used to form a national Police Scotland Gambling Related Harm strategy to assist police officers and staff when encountering vulnerable individuals who suffer from Gambling Related Harm.

In addition, our Divisional Policing Licensing Department have obtained from the local authority in Inverclyde, an up-to-date list of premises in the Inverclyde area whose function is to provide a venue for the direct or indirect purpose of gambling.

OFFICIAL

APPENDIX 4

Those premises will continue to be regularly inspected, ensuring compliance with the statutory licensing objectives set, especially with regards to the protection of children and other vulnerable persons from harm. Should any identified premise fail to adhere to the statutory licensing objectives set, be it under the Gambling Act 2005 or Licensing (Scotland) Act 2005, management and staff of premises will be dealt with accordingly and premise and personal licence reviews will be submitted where warranted.

I hope the above gives reassurance to the Board of the continued support which will be provided by Police Scotland in assisting partners to tackle the harm attributed to gambling in the local authority area.

Yours faithfully

Rhona Fraser

Chief Superintendent

Divisional Commander
