Address: Pirrie Hall, at Lyle Kirk, Esplanade Building (former Old West Kirk), Campbell Street

Category: C

Listed on: 29th March 2017

Full Description:

The Pirrie Hall, completed in 1925, was built by the Harland and Wolff Shipping Company. It is a single storey, rectangular plan church hall with a gabled outshot and a steeply-pitched slated roof with overhanging eaves. It is constructed in squared and snecked cream sandstone rubble with ashlar margins and has a high base course and triangular skewputts. It is located to the southwest of Old West Kirk. The extension to the west corner is excluded from the listing.

The 2-leaf timber entrance doors are set in a roll-moulded and four-centred arched architrave. The windows have ashlar mullions and the larger windows in the gables have ashlar transoms. They are multi-pane and leaded and some have top-opening panes. The rainwater goods are cast iron and the gutters are supported by decorative brackets. The interior of the hall was seen in 2016 and has an elaborate open kingpost timber ceiling with rafters springing from stone corbels.

Bardrainey Avenue

Category: C

Listed on: 14th August 2024

Full Description:

A Scottish Episcopalian church, built in 1982-84 to designs by Frank Burnet, Bell and Partners. It includes an adjoining, asymmetrical interlinked arrangement of church hall, offices and rectory, of pale orange brick construction, forming a Z-plan. The building is located on a rocky outcrop in a residential area of Port Glasgow.

The church has a distinctive A-frame roof structure, rising to a gabled peak to the east elevation. There is an apsidal sanctuary projection with a lean-to roof light at the east end and a smaller, lower baptistry projects from the west end. The former bronze-coloured, standing seam roofing panels were replaced by a grey membrane covering in 2021. The rectory retains its bronze roof panelling (2024).

The interior of the church and church halls (seen 2019) have dark stained woodwork, including a steam moulded and glued, laminated timber frame roof structure which appears as the massive hull of an upturned boat. A glazed waffle-grid screen separates the northside chapel. There are exposed, reconstituted stone block walls and dark timber parquet floors. The vestibule has a timber-panelled ceiling and louvred windows.

There are some features salvaged from the earlier church of St Mary The Virgin (located near Newark Castle). These include a carved altar, carved font, a stone dated 1856, an eagle lectern and carved timber pews. Stained-glass windows from the earlier church are set within later 20th century surrounds. The names of those killed in the two World Wars appear on the front of the choir stalls. The small side chapel (Epiphany Chapel) to the north has stained glass representing the Three Kings and an icon of the Virgin and Child.

There are plain brick gatepiers and a brick boundary wall with stone coping at the south entrance to the church from Bardrainey Avenue.

QUARRIER'S VILLAGE

Address: 14 Quarrier's Village,
Hope Avenue, Overtoun

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, circa 1884. 2-storey, irregular-plan, villa in Tudor-Gothic style positioned at south of village adjacent to main thoroughfare. Squared and snecked pale sandstone ashlar with polished dressings. Piened roofs; grey Scottish slate; terracotta ridge cresting; ornamental clay cans; castiron finials and rainwater goods.

Notes:

Number 14 is a good example of one of the larger villa homes within the village, with well-balanced proportions principal elevation and quality of detailing throughout.

QUARRIER'S VILLAGE

Address: 17 Quarrier's Village,
Hope Avenue, Alan Dick Home

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, 1886. 2-storey irregular plan Tudor-Gothic style villa occupying prominent position at centre of village. Squared and snecked sandstone ashlar with ashlar dressings. Piened roofs; grey Scottish slate; terracotta ridge cresting; ornamental clay cans; cast-iron rainwater goods.

Notes:

Number 17 'Alan Dick Home', occupies a prominent site in the centre of the village. It forms half of a stylistic pairing with No. 14 'Overtoun' at the other end of Hope Avenue. Retaining its original windows, No. 17 also provides a good representation of the pattern and plan form evident in a majority of villas on the site.

QUARRIER'S VILLAGE

Address: 28 Quarrier's Village,
Love Avenue, Sabbath School House

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, dated 1893. 2-storey, irregular-plan, Baronial villa situated at south edge of village featuring prominent drum tower and ornate entrance porch. Squared, snecked and stugged sandstone ashlar. Pitched roofs; grey Scottish slate; irregular arrangement of square, corniced and coped ashlar chimneystacks; pierced terracotta ridge tiles; circular clay cans; cast-iron rainwater goods.

Notes:

The Sabbath House was originally used as drop off point for newly interned children as well as providing accommodation for weekly Sunday School gatherings. Architect, Robert A. Bryden was the director of the Sabbath School Union at the time, and this may account for the extra level of detail and finish compared to many of the other homes. The quality of the design and detailing is considered to compensate for the predominant use of uPVC windows (2006).

QUARRIER'S VILLAGE

Address: 34 Quarrier's Village,
Peace Avenue, Glenfarg

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, 1897. 2-storey, asymmetrical-plan Free Renaissance style villa with baronial detailing including distinctive octagonal turret and viewing platform. Squared and snecked sandstone ashlar with ashlar dressings. Pitched roofs; grey Scottish slate; gable end and wallhead chimney stacks; terracotta ridge tiles; circular clay cans; cast-iron rainwater goods.

Notes:

'Glenfarg' is a good example of the more elaborate villas built towards the end of the village's development in the late 1890's. It is situated at the east edge of the village above Gottar Water just before it joins the River Gryfe. Baronial, Tudor and Jacobean detailing is freely applied, with the octagonal tower and viewing platform contributing to this compact yet dramatic composition.

QUARRIER'S VILLAGE

Address: 45 Quarrier's Village,
Faith Avenue, Bethesda

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, 1881. Single and 2-storey, large T-plan villa and former post office with Gothic detailing occupying raised ground to left of main entrance to village. Squared and snecked grey sandstone ashlar with polished dressings. Piened roofs; grey Scottish slate (diamond pattern slating to tower); terracotta ridge tiles and finials; ornamental clay cans; cast-iron rainwater goods.

Notes:

'Bethesda' is one of the largest villas on the site occupying a commanding position on raised ground to the west of the main entrance to the village, opposite the home of William Quarrier. Well defined massing and fine yet simple Gothic detailing characterise the building. Originally the village post office, it continues to be used for similar purposes (2006).

QUARRIER'S VILLAGE

Address: 48 Quarrier's Village,
Marcus Humphrey House (formerly Elise Hospital)

Category: C

Listed on: 9th September 2006

Full Description:

Robert Alexander Bryden, 1901. I-plan cottage hospital in plain Tudor style consisting of central 2-storey gabled hospital block, flanked by symmetrical 7-bay, single storey glazed wings terminating in gabled ward block pavilions. Occupies prominent site to west of village facing main road. Squared and snecked sandstone with ashlar dressings; coped skewes and skewputts. Pitched roofs; grey Scottish slate. Diamond-shafted, wallhead and ridge chimneystacks; circular clay cans; terracotta ridge tiles; cast-iron rainwater goods.

Notes:

The Elise Hospital for children, built during the later stages of the village's construction, occupies a prominent site facing the main road through the village. The building is a good example of an early Edwardian cottage hospital using a simple symmetrical plan form suggestive of A G Sydney Mitchell's approach to hospital design at Crichton Royal Infirmary in Dumfries and the Royal Victoria Hospital in Edinburgh.
