Subject:	School Estate 2017 Core Facts Submission		

1.0 PURPOSE

- 1.1 The purpose of this report is to provide an update on the School Estate and the Core Facts return for 2017.

2.0 SUMMARY

- 2.1 The Council is required to submit a return on the School Estate Core Facts annually. This details the condition, suitability and sufficiency ratings for the School Estate. It also captures data on capital and other expenditure on the school estate within the previous year. The return was submitted to the Scottish Government in May 2017.

3.0 RECOMMENDATIONS

- 3.1 The Committee is asked to note the contents of the report.

Wilma Bain
Corporate Director Education,
Communities &
Organisational Development

4.0 BACKGROUND

4.1 A Core Facts return on the School Estate is submitted annually to the Scottish Government, the 2017 return was submitted by the due date of 12th May.

The definition of Condition and Suitability ratings from Scottish Government guidance is noted in the tables below:

Condition

Rating	Description	Definition	Score
A	Good	Performing well and operating efficiently	> 85%
B	Satisfactory	Performing adequately but showing minor deterioration	61 – 85%
C	Poor	Showing major defects and/or not operating adequately	40-60%
D	Bad	Economic life expired and/or risk of failure	< 40%

Suitability

Rating	Description	Definition
A	Good	Performing well and operating efficiently (the school buildings and grounds support the delivery of services to children and communities)
B	Satisfactory	Performing adequately but with minor problems (the school buildings and grounds generally support the delivery of services to children and communities)
C	Poor	Showing major problems and/or not operating optimally (the school buildings and grounds impede the delivery of activities that are needed for children and communities in the school)
D	Bad	Does not support the delivery of services to children and communities (the school buildings and grounds seriously impede the delivery of activities that are needed for children and communities in the school)

4.2 The Core Facts data is compiled from the following:

- Condition is based on the full Condition Surveys carried out by Watts Group PLC throughout April 2014 updated by Property Services to reflect works carried out in the period since the previous Core Facts submission.
- Suitability is based on suitability surveys carried out by the former School Estate Team in conjunction with Head Teachers of each establishment. Suitability was included for the first time in 2010 and is based on guidance issued by the Scottish Government in 2008. These are also reviewed and updated by Property Services to reflect works carried out in the period since the previous Core Facts submission.
- Sufficiency is based on the census roll data and individual working capacity calculations for all schools.

4.3 Since the 2016 Core Facts return there has been further improvement in the condition and suitability of the Council's Schools with a further two major projects achieving completion in the period:

- Kilmacolm Primary School Refurbishment achieved completion in September 2016 (operational from October 2016).
- St Patrick's Primary School New Build achieved completion in October 2016 (operational from November 2016).

Further major projects have either commenced on site or are due to commence on site with completion programmed for 2018 (refer to Capital programme Technical Progress report to this Committee):

- Moorfoot Primary School Refurbishment commenced on site in April 2017 to complete March 2018.
- Lady Alice Primary School Refurbishment & Extension is programmed to commence on site in June 2017 to complete May 2018.
- St Ninian's Primary School New Build is programmed to commence on site in June 2017 to complete June 2018.

- 5.2 One of the prime objectives of the School Estate Strategy at National level is to have all schools as Category A or B for Condition. Inverclyde currently has all of its estate across Primary, Secondary and Special sectors in Category A/B. It should be noted that this also reflects the condition of current decant facilities (former Sacred Heart PS and former St Stephen's HS).
- 5.3 The remaining School Estate Management Plan projects will address the refurbishment of schools which are currently already in satisfactory condition in terms of the indicators in 4.1 above but which are on the lower end of scale due to significant elements of the buildings requiring lifecycle replacement / comprehensive refurbishment. Comprehensive refurbishment / new build projects also address Equality/DDA compliance and general improvement in suitability through extension / remodelling works.

¹ Lady Alice PS currently in decant accommodation (former St Stephen's HS decant facility). Ratings above as submitted in the 2017 Core Facts return reflect the condition and suitability of that property.

² Moorfoot PS currently in decant accommodation (former Sacred Heart PS decant facility). Ratings above as submitted in the 2017 Core Facts return reflect the condition and suitability of that property.

5.4 The continuing programme of new build and comprehensive refurbishment has seen a significant improvement in the condition of the school estate since the initial School Estate Management Plan position in 2004. The table below provides a comparison of the 2004 (2010 for suitability), 2016 and 2017 Core Facts submission data.

5.5 The Council has invested in excess of £270m on its school estate over the last 12 years. Significant progress has been made since 2004, particularly in reducing the number of Condition C/D rated schools. In terms of suitability there has also been significant progress made although the majority of improvements earlier in the programme are not fully captured above due to the Suitability Core Fact only being collected from 2010. By that time the Council had already carried out a significant number of projects with the resultant improvement in the suitability of a number of schools across the estate.

6.0 LOOK AHEAD 2017-2020

- 6.1 A report on options for the acceleration of the remaining projects within the School Estate Management Plan and works required across the Early Years Estate was submitted to the January 2016 Committee and subsequently remitted to the 2016 budget setting process. The budget set on 10th March 2016 confirmed funding and support for the accelerated proposals which will see the programme completed by 2020.
- 6.2 Between May 2017 and May 2018 further progress will be made on the School Estate via the committed projects below:
- Moorfoot Primary School Refurbishment – Works commenced on site in April 2017 and are programmed for completion in March 2018.
 - Lady Alice Primary School Refurbishment & Extension – Works programmed to commence in June 2017 to complete in May 2018.
- 6.3 A summary of the remaining SEMP projects programmed to commence and complete following May 2018 is provided below:
- St Ninian's Primary School New Build – works programmed to commence in June 2017 and complete by June 2018.
 - St Mary's Primary School Refurbishment & Extension - target programme anticipates construction start in Summer 2018 to complete in Summer 2019.
 - Gourrock Primary School Extension - target programme anticipates construction start in Easter/Summer 2018 to complete by Easter/Summer 2019.

Repopulation

7.5 The School Estate Strategy has been, and continues to be, one of the Council's key areas of investment in support of the aim of repopulating and promoting Inverclyde as the place of choice to live, work and spend leisure time. The significant investment in the School Estate is not only a catalyst for regeneration but also contributes towards improving Inverclyde for the people who live here and assists in attracting people to relocate and settle here, knowing their children will receive a first class education in the best possible school accommodation.
