AGENDA ITEM NO: 8

Report To:	Inverclyde Integration Joint Board	Date:	19 March 2019
Report By:	Louise Long Corporate Director (Chief Officer) Inverclyde Health & Social Care Partnership (HSCP)	Report	No: IJB/10/2019/HW
Contact Officer:	Helen Watson Head of Strategy & Support Services	Contact	t No: 01475 715285
Subject:	Ministerial Strategic Group Return		

1.0 PURPOSE

1.1 The purpose of this report is to seek approval from the Integration Joint Board to submit the appended Ministerial Strategic Group (MSG) return, developed by officers in collaboration with the other HSCPs within the NHS Greater Glasgow and Clyde catchment.

2.0 SUMMARY

- 2.1 On 12th December 2018 the Scottish Government issued a letter and template on behalf of the MSG, asking partnerships to provide an update on their progress and future intentions with regard to six key performance areas.
- 2.2 The template was completed in collaboration with the other five HSCPs in a bid to achieve consistency of approach across NHS Greater Glasgow and Clyde.

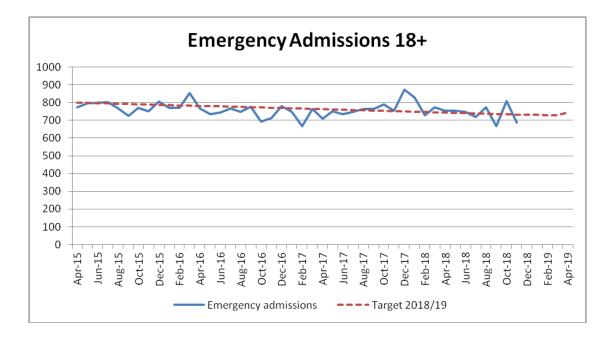

3.0 RECOMMENDATIONS

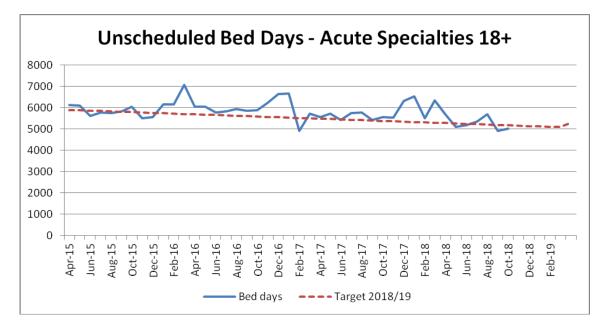

3.1 That the Integration Joint Board approves the completed template for submission. The submission to the Scottish Government is due by 28 February 2019 and the template has been submitted with a caveat that it is a draft, pending approval from the IJB.

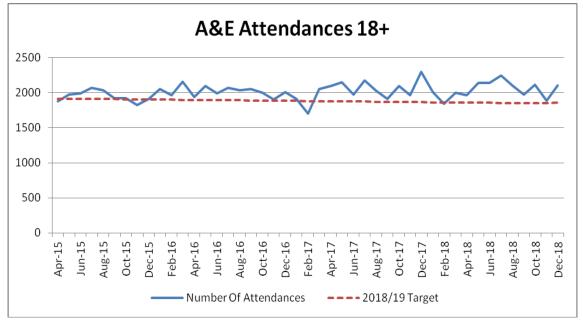

Louise Long Chief Officer Inverclyde Health and Social Care Partnership

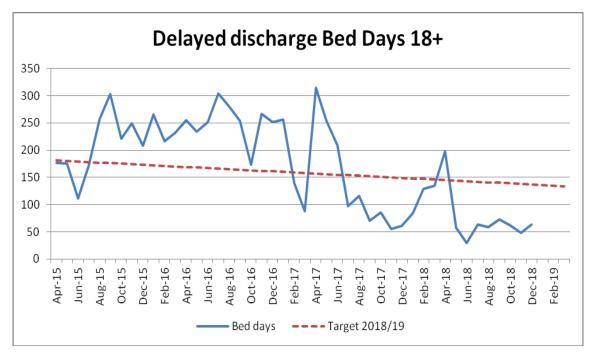

4.0 BACKGROUND

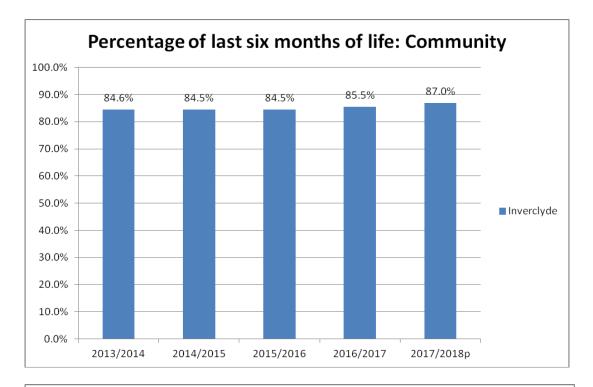

- 4.1 On 12 December 2018, the Scottish Government issued a letter and template on behalf of the Ministerial Strategic Group (MSG), asking partnerships to provide an update on their progress and future intentions with regard to six key performance areas. These areas are:
 - 1. Number of emergency admissions into Acute (SMR01) specialties.
 - Number of unscheduled hospital bed days, with separate objectives for Acute (SMR01), Geriatric Long Stay (SMR01E) and Mental Health (SMR04) specialties.
 - 3. Number of A&E attendances
 - 4. Number of delayed discharge bed days. An objective can be provided to cover all reasons for delay or separate objectives for each reason type i.e. Health and Social Care, Patient/Carer/Family-related, Code 9.
 - 5. Percentage of last 6 months of life spent in the community.
 - 6. Percentage of 65+ population living at home.
- 4.2 These indicators focus mainly on unscheduled hospital activity, and the MSG recognises that this is only one dimension of the work of HSCPs, albeit an important one.
- 4.3 The targets were developed based on local performance since the baseline year of 2015/16, and reflect the aspirations of our new Strategic Plan, to ensure that people can get access to the right support, in the right place, from the right service, and at the right time. The most challenging target is likely to be reducing the number of A & E presentations, as this figure has been increasing. However we are aware that outcomes can be improved by accessing the right part of the overall system, rather than attending A & E for complaints that are not of an urgent nature. The graphs below outline our trajectories on each of the six key MSG indicators.

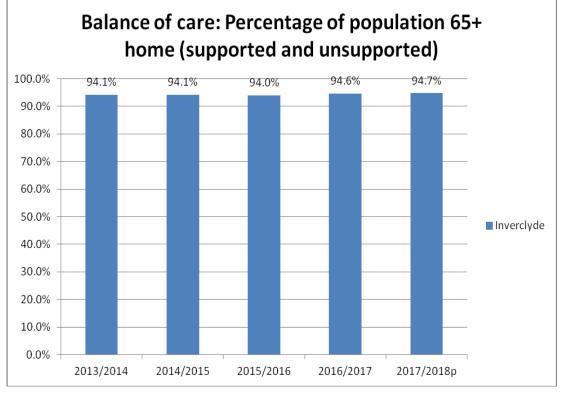

4.4 The template was completed in collaboration with the other five HSCPs in a bid to achieve consistency of approach across NHS Greater Glasgow and Clyde. Going forward, the Integration Joint Board, the Scottish Government, and the NHS Board will be updated regularly on the targets.

5.0 PROPOSALS

5.1 That the Integration Joint Board approves the completed template for submission. The submission to the Scottish Government is due by 28 February 2019 and the template has been submitted with a caveat following approval from the IJB.

6.0 IMPLICATIONS

Finance:

6.1 There are no financial implications at this time.

Financial Implications:

One off Costs

Legal:

6.2 There are no legal implications in respect of this report.

Human Resources:

6.3 There are no staff implications in respect of this report.

Equalities:

6.4 Has an Equality Impact Assessment been carried out?

YES (see attached appendix)
NO - This report does not introduce a new policy, function or strategy or recommend a change to an existing policy, function or Strategy. Therefore, no Equality Impact Assessment is required

6.4.1 How does this report address our Equality Outcomes?

a) People, including individuals from the protected characteristic groups, can access HSCP services.

Not applicable.

- b) Discrimination faced by people covered by the protected characteristics across HSCP services is reduced if not eliminated. Not applicable.
- c) People with protected characteristics feel safe within their communities.

Not applicable.

d) People with protected characteristics feel included in the planning and developing of services.

Not applicable.

e) HSCP staff understand the needs of people with different protected characteristics and promote diversity in the work that they do.

Not applicable.

f) Opportunities to support Learning Disability service users experiencing gender based violence are maximised.

Not applicable.

g) Positive attitudes towards the resettled refugee community in Inverclyde are promoted.

Not applicable.

CLINICAL OR CARE GOVERNANCE IMPLICATIONS

6.5 There are no clinical or care governance issues within this report.

6.6 NATIONAL WELLBEING OUTCOMES

How does this report support delivery of the National Wellbeing Outcomes?

a) People are able to look after and improve their own health and wellbeing and live in good health for longer.

In order to reduce the level of unscheduled care, supported self-management and anticipatory care will be promoted.

b) People, including those with disabilities or long term conditions or who are frail are able to live, as far as reasonably practicable, independently and at home or in a homely setting in their community.

Not applicable.

c) People who use health and social care services have positive experiences of those services, and have their dignity respected.

Not applicable.

d) Health and social care services are centred on helping to maintain or improve the quality of life of people who use those services.

Most people would prefer not to be admitted to hospital.

e) Health and social care services contribute to reducing health inequalities.

Not applicable.

f) People who provide unpaid care are supported to look after their own health and wellbeing, including reducing any negative impact of their caring role on their own health and wellbeing.

A stronger focus on anticipatory care will potentially support carers as equal partners in care.

g) People using health and social care services are safe from harm.

Not applicable.

h) People who work in health and social care services feel engaged with the work they do and are supported to continuously improve the information, support, care and treatment they provide.

Not applicable.
