Subject:	Review of Inverclyde HSCP Alcohol and Drug Services-Progress Update		

1.0 PURPOSE

- 1.1 The purpose of this report is to update the Health and Social Care Committee on the progress of the Inverclyde HSCP Review of Alcohol and Drug Services.

2.0 SUMMARY

- 2.1 The review of alcohol and drug service provision within Inverclyde is underway with an aim to develop a cohesive and fully integrated whole system approach for services users affected by alcohol and drug issues.
- 2.2 The review is now in Phase three - the implementation phase, with extensive progress made in all the key areas of Prevention; Assessment Treatment and Care; and Recovery. In addition, a Workforce plan is underway to ensure the new integrated Alcohol and Drug Service (ADRS) has the appropriate roles and skills required to deliver the new service model.
- 2.3 The Inverclyde Alcohol and Drug Programme Board is continuing to oversee the implementation plan for the review with an implementation timescale of April 2020.

3.0 RECOMMENDATIONS

- 3.1 That the Committee notes the progress and actions being taken by the Alcohol and Drug Partnership to support the new approach to alcohol and drugs in Inverclyde and agrees to a further report being submitted as implementation of the integrated service progresses.

4.0 BACKGROUND

- 4.1 A review of alcohol and drug service provision within Inverclyde is underway with an aim to develop a cohesive and fully integrated whole system approach for services users affected by alcohol and drug issues. The review is fully aligned to the Scottish Government Drug and Alcohol Strategy: Rights, Respect and Recovery: Scotland's strategy to improve health by preventing and reducing alcohol and drug use, harm and related deaths.
- 4.2 The review of the Inverclyde Alcohol and Drug Services has been undertaken in three distinct phases with Phases one and two now complete and reported previously. Phase two produced a number of recommendations for substantial transformational change to be considered. An implementation plan (Appendix 1) with 19 key actions has been developed with appropriate timescales for delivery and encompasses the three main areas of Prevention; Assessment Treatment and Care; and Recovery. It was agreed that these areas would be taken forward as follows:
- Prevention- through the Alcohol and Drug Partnership (Action 1)
 - Assessment, Treatment and Care -through the Alcohol and Drug Review Programme Board (Actions 2-17&19))
 - Recovery- through a wider HSCP recovery development approach with mental health; supported self-care and commissioning. (Action 18)
- 4.3 Phase three, the implementation phase, is now well underway with substantial progress being made against all actions within the implementation plan. In order to ensure the new service model has the required workforce to deliver new ways of working, a separate workforce workstream is also in place.

5.0 PROGRESS TO DATE

5.1 Prevention

The review identified the need to implement a robust whole population cohesive approach to prevention and education within schools and the wider community. This area of work is being undertaken by the Inverclyde ADP with a number of key streams of work underway:

- Inverclyde Prevention and Education Steering Group established by Service Manager – Community Learning and Development, Community Safety & Resilience and Sport
- The development of an Alcohol and Drug Prevention and Education Framework for Inverclyde. The ADP is currently commissioning an external consultant to review the current prevention and education support offered by ADP partners.
- Scoping undertaken by ADP to consider current pathways to service for young people experiencing problems related to their own substance misuse and how these can be improved to ensure seamless, accessible and timeous pathways.

5.2 Assessment Treatment and Care

The majority of the actions in the implementation plan relate to the core service therefore to ensure steady progress is ongoing in this key area, additional team lead capacity has been introduced into the internal HSCP alcohol and drug service. This has enabled a range of actions to be undertaken to integrate the separate alcohol and drug services into one integrated service collocated at the Wellpark Centre.

Key areas progress include:

- Rebranding of the service has been undertaken to “Inverclyde Alcohol and Drug Recovery Service” (ADRS). All external and internal communications now incorporate the new name and work to redesign leaflets/social media etc. for the service, which are being co-produced with the Service User Reference Group at Your Voice, is ongoing.

- A single point of access email address has been set up for receipt of all alcohol and drug referrals; updated referral forms for use by partners are now available. Discussion is ongoing with Access First regarding HSCP single point of access and the integration of alcohol and drugs services in 2020.
- A new integrated duty system is in development with appropriate paperwork to capture both alcohol and drug information and updated to incorporate a validated screening tool. Guidelines from point of self-referral to allocation have been developed.
- Systems are now integrated to provide a single service chronological account of care as opposed to the previous separate alcohol and drug service records. Screening and allocation of all cases are now jointly reviewed by team leads.
- New pathways into service, and combined assessment paper work to provide holistic, recovery orientated assessment of both alcohol and drug use are now in place.
- An eligibility criteria for the new model has been agreed and will be implemented when appropriate 3rd sector pathway and referral route is in place.
- A single pathway has been agreed for individuals who do not attend (DNA) and criteria agreed for assertive outreach in line with Greater Glasgow & Clyde (GG&C) DNA Policy). Meetings are ongoing with team leads and medical staff to incorporate a single discharge pathway and multi-disciplinary team meeting within this process.
- The alcohol and drug liaison team have introduced an emergency department (ED) repeat presentations standard operating procedure and put into operation a multi-disciplinary team meeting to support the board wide initiative and encourage better integration with ED. This will link closely with the CORRA Foundation funded test of change project New Pathways for Service Users.
- Work on the single pathway model of intake and core has commenced. Functions of intake, complex case, addiction liaison, shared care and core have been identified.
- A review of family support has been undertaken by Scottish Families affected by Drugs and Alcohol (SFAD) with a recommendation to consider a development post to build appropriate family support networks in Inverclyde. A test of change to develop this is currently being commissioned from the 3rd sector

5.3 Recovery

A key outcome from the Alcohol and Drugs Review was to develop a recovery strategy and implementation plan as part of the wider recovery framework and development of the Recovery Orientated Systems of Care (ROSC) across the HSCP. This is a key area of focus and is well underway:

- A recovery lead post has been introduced within the HSCP to ensure appropriate capacity to lead and develop recovery strands of work.
- The Inverclyde Recovery Development Group has been established and is meeting monthly.
- The Scottish Drugs Forum has been working with key partners in Inverclyde to develop the Recovery Orientated Systems of Care (ROSC) across the whole system of support including with our third sector partners and the community. Training is organised throughout December and January 2019 to train over 100 staff from across all partners.
- A number of third sector test of change programmes have been commissioned to directly increase the recovery opportunities locally:
 - Lived experience Peer Mentoring Project to develop recovery initiatives in Inverclyde.
 - Meaningful activity and community integration.
 - Scoping out of an early intervention service which identifies and supports people at the early stages of developing alcohol and drug related conditions.

The focus on implementing the ROSC will look to produce a range of positive outcomes including a decrease in the numbers of anticipated referrals, a decrease in the length of time individuals will remain in service, and an improved pathway for the co-ordination of joint allocation and the alignment of service provision with the Alcohol and Drug Recovery Service.

5.4 Workforce

Work is ongoing to develop the new workforce profile for the HSCP Alcohol and Drug Service (ADRS). The timescale to have the workforce plan delivered is April 2020. Working closely with HR and staff representatives, a draft structure, which details new and existing roles, within the service is in development; caseload profiling and redrafting of job descriptions underway. To ensure all staff are supported in the transition to a new integrated model, a training needs analysis is underway across the staff group. Development days, shadowing and other opportunities for joint learning are underway to fully integrate the alcohol and drugs services.

5.5 The Alcohol and Drug Review Programme Board meets 6 weekly to ensure progress is being made. In addition, a professional “critical friend” is in place to ensure that the work to review the service is robust, and all potential recommendations and changes have been identified and are being implemented.

5.6 The Inverclyde Alcohol and Drug Review Service User Reference Group supported by Your Voice is still meeting and is instrumental to the delivery of new ways of working for alcohol and drugs.

6.0 IMPLICATIONS

6.1 Finance

Financial Implications:

The Inverclyde Alcohol and Drug Service is funded jointly by the Council and NHS with additional investment through the Scottish Government via NHSGGC to the Alcohol and Drug Partnership (ADP). This additional investment of £280,000/year for 3 years is being utilised to fund a range of initiatives related to this review.

6.2 Legal

There are no specific legal implications arising from this report.

6.3 Human Resources

There are no specific human resources implications arising from this report.

6.4 Equalities

Equalities

- (a) Has an Equality Impact Assessment been carried out?

	YES
X	NO – This report does not introduce a new policy, function or strategy or recommend a substantive change to an existing policy, function or strategy. Therefore, no Equality Impact Assessment is required.

- (b) Fairer Scotland Duty

If this report affects or proposes any major strategic decision:-

Has there been active consideration of how this report's recommendations reduce inequalities of outcome?

x	YES – A written statement showing how this report's recommendations reduce inequalities of outcome caused by socio-economic disadvantage has been completed. Many of the service users affected by drug and alcohol issues are from areas of deprivation and suffer greater inequalities. Through delivering more recovery orientated care should bring positive impact on service users ability to engage more meaningfully within the community.
	NO

- (c) Data Protection

Has a Data Protection Impact Assessment been carried out?

	YES – This report involves data processing which may result in a high risk to the rights and freedoms of individuals.
x	NO

6.5 Repopulation

There are no specific repopulation implications arising from this report.

7.0 CONSULTATIONS

- 7.1 The report has been prepared by the Chief Officer of Inverclyde Health and Social Care Partnership (HSCP) after due consideration with relevant senior officers in the HSCP.
- 7.2 Staff have been involved in a number of the workstream groups with staff representation on the overall Programme Board.

8.0 BACKGROUND PAPERS
