Local Fire and Rescue Service Plan Priorities

The Local Fire and Rescue Service Plan has been developed to set out the priorities and objectives within Inverclyde and allows our local authority partners to scrutinise the performance outcomes of these priorities. We will continue to work closely with our partners in Inverclyde to ensure we are all “**Working Together for a Safer Scotland**” through targeting risks to our communities at a local level.

The plan has been developed to complement key partnership activity embedded across Inverclyde Community Plan and associated Delivery and Thematic plans. Through partnership working we will seek to deliver continuous improvement in our performance and effective service delivery in our area of operations.

The Local Fire and Rescue Plan for Inverclyde identified six areas for demand reduction and is subject to regular monitoring and reporting through the Police / Fire and Rescue Committee. A summary of the priorities and current activity is detailed below with further detail and analysis contained within this performance report.

	Accidental Dwelling Fires	Accidental Dwelling Fire Casualties	Unintentional Injury and Harm	Deliberate Fire Setting	Non-Domestic Fire Safety	Unwanted Fire Alarm Signals
Inverclyde Central	4	0	0	42	0	8
Inverclyde East	2	0	2	49	0	9
Inverclyde East Central	4	1	1	19	1	4
Inverclyde North	2	2	2	14	2	18
Inverclyde South	4	0	0	13	0	12
Inverclyde South West	4	0	0	29	1	4
Inverclyde West	3	0	3	18	0	4

Total Incidents	23	3	8	184	4	59

3 Year Average Change	◆ 11%	◆ 20%	● -17%	● -9%	● -48%	● -13%

About the statistics within this report

The activity totals and other statistics quoted within this report are published in the interests of transparency and openness. They are provisional in nature and subject to change as a result of ongoing quality assurance and review. Because all statistics quoted are provisional there may be a difference in the period totals quoted in our reports after local publication which result from revisions or additions to the data in our systems. The Scottish Government publishes official statistics each year which allow for comparisons to be made over longer periods of time.

● Activity levels have reduced by more than 5%

▲ Activity levels have reduced by up to 5%

◆ Activity levels have increased overall

Inverclyde Operational Trends

Domestic Safety - Accidental Dwelling Fires

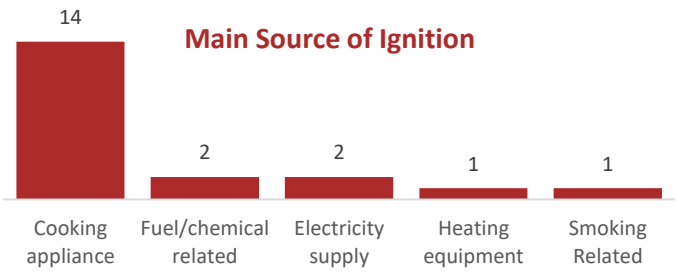

Performance Summary

Year on Year **53%** 3 Year Average **11%**

Accidental Dwelling Fires

Accidental Dwelling Fires Activity by Ward (% share)

Accidental Dwelling Fires by Time of Day

Severity of Accidental Dwelling Fires

Human Factors

Automatic Detection & Actuation

An increase in activity from the same period last year. Service statistics mirrored this increase as more citizens were at home. The main activity times were during daylight hours and pleasing to see a high level of smoke detection was present and actuated.

Domestic Safety - Accidental Dwelling Fire Casualties

Performance Summary

Accidental Dwelling Fires Casualties

Accidental Dwelling Fire Casualties by Ward (% share)

Fire Casualties by Time of Day

Nature of Injury

Extent of Harm

Age / Gender Profile

Lowest figures for the last 5 years. Whilst this is set against an increase in activity, it can be directly linked to the high level of detection present and actuating, allowing an early alarm to anyone present within the property.

Unintentional Injury and Harm

Performance Summary

Non-Fire Casualties

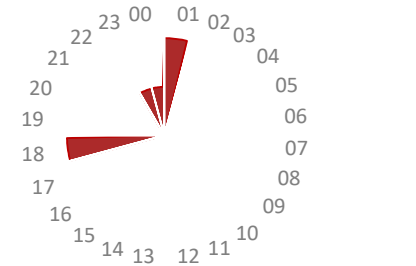

Non-Fire Casualties by Ward (% share)

Figures in this category also the lowest for 5 years. A large number of these incidents were assisting other agencies.

Non-Fire Casualties by Time of Day

Nature of Injury

Extent of Harm

Non-Fire Emergency Activity

Age / Gender Profile

Deliberate Fire Setting

Performance Summary

Deliberate Fires by Ward (% share)

Definitions

Primary Fires - all fires in buildings, vehicles and outdoor structures or any fire involving casualties, rescues or fires attended by five or more appliances

Secondary Fires - fire incidents that did not occur at a primary location, was not a chimney fire in an occupied building, did not involve casualties (otherwise categorised as a primary incident) and was attended by four or fewer appliances.

Deliberate Fires by Time of Day

Deliberate Fires by Classification

Primary Fire Ratio by Activity Type

Secondary Fire Ratio by Activity Type

Deliberate Fires Compared to Operational Activity

A 30% reduction on figures from the same period last year. A slight increase in the percentage of primary fires which was outlined on page 5 of this report.

Non Domestic Fire Safety

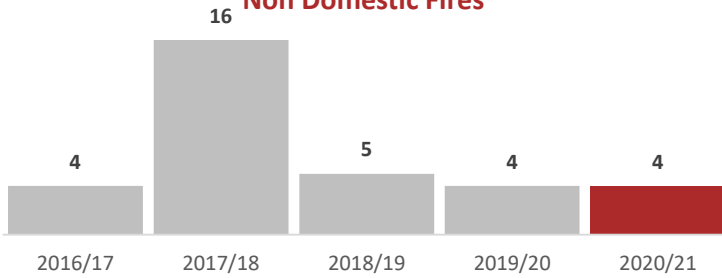

Performance Summary

Year on Year ▲ 0% 3 Year Average ● -48%

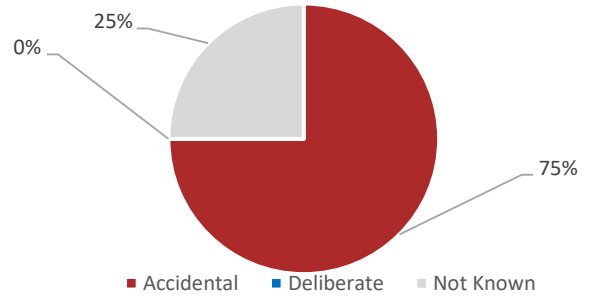

Non-Domestic Fires by Time of Day

Non Domestic Fires

Non-Domestic Fires by Nature of Origin

Non-Domestic Fires by Ward (% share)

Severity of Non-Domestic Fires

Non-Domestic Fires by Premises Type

A consistent figure from the same period last year. Enforcement officers have been in contact with dutyholders where appropriate and have given advice over the phone during this period.

Unwanted Fire Alarm Signals

Performance Summary

Year on Year: -39%
3 Year Average: -13%

Unwanted Fire Alarm Signals

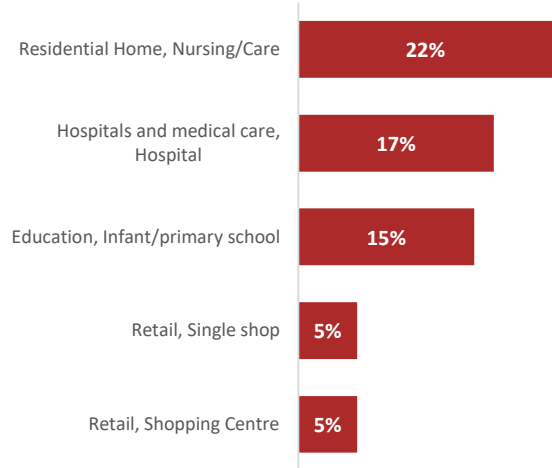

Unwanted Fire Alarm Signals by Ward (% share)

Unwanted Fire Alarm Signals by Time of Day

Unwanted Fire Alarm Signals - Top 5 Premises

Unwanted Fire Alarm Signals Activity Ratios

Average Unwanted Fire Alarm Signals per Day

A reduction of 39% from the same period last year. This figure will clearly have been impacted by COVID-19 as a number of premises will have been closed for a period of time during the reporting period.
