Local Fire and Rescue Service Plan Priorities

The Local Fire and Rescue Service Plan has been developed to set out the priorities and objectives within Inverclyde and allows our local authority partners to scrutinise the performance outcomes of these priorities. We will continue to work closely with our partners in Inverclyde to ensure we are all **“Working Together for a Safer Scotland”** through targeting risks to our communities at a local level.

The plan has been developed to complement key partnership activity embedded across Inverclyde Community Plan and associated Delivery and Thematic plans. Through partnership working we will seek to deliver continuous improvement in our performance and effective service delivery in our area of operations.

The Local Fire and Rescue Plan for Inverclyde identified six areas for demand reduction and is subject to regular monitoring and reporting through the Police / Fire and Rescue Committee. A summary of the priorities and current activity is detailed below with further detail and analysis contained within this performance report.

	Accidental Dwelling Fires	Accidental Dwelling Fire Casualties	Unintentional Injury and Harm	Deliberate Fire Setting	Non-Domestic Fire Safety	Unwanted Fire Alarm Signals
Inverclyde Central	2	0	0	9	0	9
Inverclyde East	4	0	1	3	1	9
Inverclyde East Central	2	1	2	7	0	10
Inverclyde North	5	1	1	11	1	20
Inverclyde South	1	0	3	15	0	15
Inverclyde South West	1	0	0	8	0	3
Inverclyde West	1	0	1	14	0	5

Total Incidents	16	2	8	67	2	71
Year on Year Change	-27%	-67%	-47%	5%	-67%	-23%
3 Year Average Change	-3%	9%	-34%	20%	-15%	-12%

About the statistics within this report

The activity totals and other statistics quoted within this report are published in the interests of transparency and openness. They are provisional in nature and subject to change as a result of ongoing quality assurance and review. Because all statistics quoted are provisional there may be a difference in the period totals quoted in our reports after local publication which result from revisions or additions to the data in our systems. The Scottish Government publishes official statistics each year which allow for comparisons to be made over longer periods of time.

Activity by Time of Day

Incidents by Classification

Top 15 Incidents Types by %

Inverclyde Operational Trends

Domestic Safety - Accidental Dwelling Fires

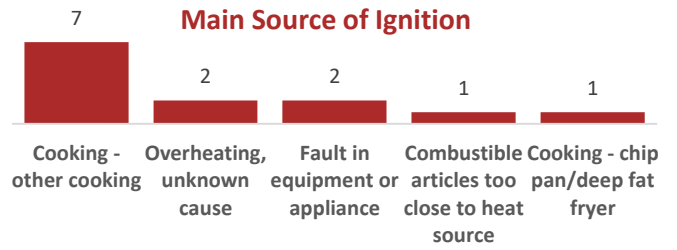

Performance Summary

Accidental Dwelling Fires

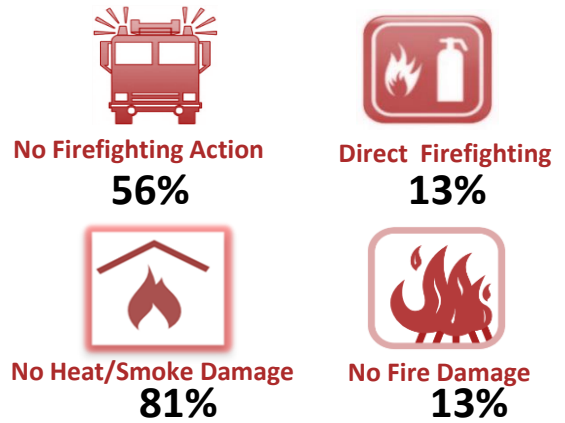

Accidental Dwelling Fires Activity by Ward (% share)

Accidental Dwelling Fires by Time of Day

Severity of Accidental Dwelling Fires

Human Factors

Automatic Detection & Actuation

A 27% reduction during this quarter when compared to last year and the lowest figures over a 5 year period.

Pleasing to see, not only a high percentage of detector coverage, but also of actuation levels.

Domestic Safety - Accidental Dwelling Fire Casualties

Performance Summary

Accidental Dwelling Fires Casualties

Accidental Dwelling Fire Casualties by Ward (% share)

Fire Casualties by Time of Day

Nature of Injury

Smoke inhalation

Extent of Harm

Age / Gender Profile

Male
0%

Female
100%

A significant reduction when compared to three of the last four years.

This reduction is consistent with the high percentage of detection in place and actuating at these incidents as highlighted on page 5 of this report.

Unintentional Injury and Harm

Performance Summary

Non-Fire Casualties

Non-Fire Casualties by Ward (% share)

Pleasing to see a steady reduction across this quarter over a 4 year period.

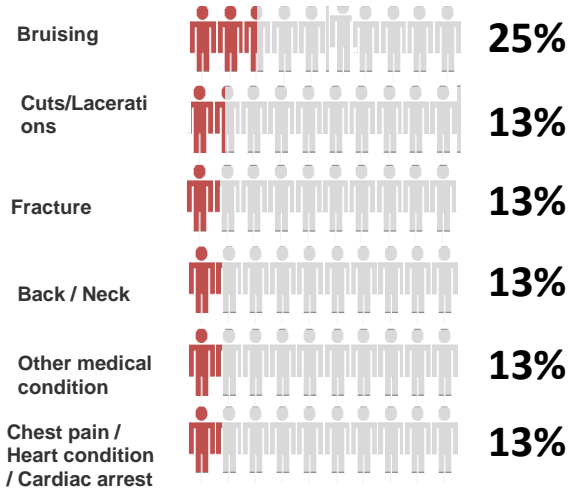

Half of all incident activity was to assist partner agencies, a trend which has been consistent for some time.

Any incidents of note will be highlighted during the report delivery at committee.

Non-Fire Casualties by Time of Day

Nature of Injury

Extent of Harm

Non-Fire Emergency Activity

Male 50%

Age / Gender Profile

Female 50%

Deliberate Fire Setting

Performance Summary

Deliberate Fires

Deliberate Fires by Ward (% share)

Definitions

Primary Fires - all fires in buildings, vehicles and outdoor structures or any fire involving casualties, rescues or fires attended by five or more appliances

Secondary Fires - fire incidents that did not occur at a primary location, was not a chimney fire in an occupied building, did not involve casualties (otherwise categorised as a primary incident) and was attended by four or fewer appliances.

Deliberate Fires by Time of Day

Deliberate Fires by Classification

Primary Fire Ratio by Activity Type

Secondary Fire Ratio by Activity Type

Deliberate Fires Compared to Operational Activity

A slight increase when compared to the same period last year.

The lowest percentage of deliberate primary fires for the last 5 years.

The majority of secondary fires during this period were attributed to refuse fires.

Non Domestic Fire Safety

Performance Summary

Non-Domestic Fires by Time of Day

Non-Domestic Fires by Nature of Origin

Non-Domestic Fires by Ward (% share)

Severity of Non-Domestic Fires

Non-Domestic Fires by Premises Type

Low incident activity for this period with only two incidents recorded.

Legislative Enforcement Officers continue to work with businesses following any fire within relevant premises to improve safety and return to normal business.

Unwanted Fire Alarm Signals

Performance Summary

Year on Year: -23%
3 Year Average: -12%

Unwanted Fire Alarm Signals

Unwanted Fire Alarm Signals by Ward (% share)

Unwanted Fire Alarm Signals by Time of Day

Unwanted Fire Alarm Signals - Top 5 Premises

Unwanted Fire Alarm Signals Activity Ratios

Average Unwanted Fire Alarm Signals per Day

The lowest reporting figures over a 5 year period.

The main reporting times are during normal business hours with over a third as a result of human influence.

SFRS will look at ways to address this with some of top reporters relating to UFAS.
