

3.0 BACKGROUND AND CONTEXT

- 3.1 The UK Shared Prosperity Fund is a £2.6bn fund for local investment, with all areas of the UK receiving an allocation of funding. This fund is a central pillar to the UK Government's Levelling Up agenda and replaces European Structural Funds which will operate until December 2022. Inverclyde has benefitted from a range of European Structural Fund programmes which have focussed on people and place.
- 3.2 As previously reported, Inverclyde is part of the Glasgow City Region Investment Plan which was submitted to the UK Government at the end of August 2022 and was approved by the UK Government on 5 December 2022.
- 3.3 At the June and August Environment and Regeneration Committees it was reported that Inverclyde has a total allocation of £3,563,961 (Core SPF £2,948,498 and Multiply £615,463) and that Inverclyde Council would work with the Glasgow City Region to prepare a region Shared Prosperity Investment Plan. Officers from the Regeneration Service have worked extensively with colleagues across the metropolitan city region to develop proposals which were included in the Investment Plan.
- 3.4 Highlights of the outcomes and outputs of proposals were presented to the Environment and Regeneration Committee in August.
- 3.5 The Regeneration Service carried out a call for project ideas with internal and external stakeholders. A total of fifty-two project proposals were received from a variety of internal and external partners.
- 3.6 Following this, the submissions were assessed, creating a long list and then a short list of projects. The short list projects were then asked to develop more detailed project proposals to provide assurance that they were deliverable, and where appropriate match funding was detailed.
- 3.7 Each project was evaluated against the eligibility criteria developed and officers' recommendations for progression are set out below, with 17 projects for core SPF at a total cost of £2,821,958 and 6 projects for Multiply at a cost of £590,844.
- 3.8 Shared Prosperity is a fund that runs from 2022-2025, however, as the Investment Plan was only approved in late 2022 the UK Government agreed that the funding for 2022-2023 could be accrued into year 2 – 2023-2024.
- 3.9 Given the time delay, the Regeneration Service has re-evaluated projects ensuring that they fit with the current needs of Inverclyde, aligning with the emerging findings from the Inverclyde Taskforce. In addition, the Regeneration Service has worked with project leads to update proposals, spend profile and proposed deliverables. Year 1 funding can be carried over to year 2 however a 'credible plan' is required to show that the spend can be achieved. Through the work with project leads the project spend has been re-profiled, in line with the UK Government requirements.

4.0 Proposals

- 4.1 The table below sets out project recommendations for 2023-2025. Further information on the project is within appendix 1.

Project Name	Description	Lead Organisation	Total SPF Cost
Public Lighting	Improvements to lighting in public parks.	Inverclyde Council	£150,000
Town Centre Action Plans	Development of action plans for Greenock, Gourock and Port Glasgow	Inverclyde Council	£90,000
Town Centre Improvements	Taking actions from the project above and delivering projects in town centres.	Inverclyde Council	£190,000
Port Glasgow Shipbuilders Environmental Improvements	Improvements to enhance the visitor experience in Coronation Park around the Shipbuilders statue	Inverclyde Council	£150,000
Parklea Community Hub and Gardens	Support work at Parklea Branching Out to enhance the community hub and landscaping	Parklea Branching Out	£80,000
Invergrow	Supporting the development and delivery of projects from the Inverclyde Food Growing Network	Inverclyde Council	£170,952
Inverclyde Community Enterprise Programme	Working with local social enterprises to provide groups with tools to develop and grow their enterprises to be more sustainable.	CVS Inverclyde	£120,000
Net Zero: How do I go about it?	Supporting businesses to become more energy efficient through business audits and small grants	Inverclyde Council	£126,500
Improving your business skills	Supporting businesses to enhance their business skills and knowledge to enable them to be more competitive.	Inverclyde Council	£155,000
Business Networking	Creating forums for local business owners to meet, learn about a topic of	Inverclyde Council	£22,400

	interest, share ideas and explore opportunities to work together e.g., Women in business, tourism		
Supporting growth and new start growth	Providing grants and expert support to support businesses with growth potential	Inverclyde Council	£115,000
Business Accelerator	Programme of training to support new start businesses to improve business survival rates	Inverclyde Council	£208,855
Youth Volunteering Programme	Create a programme of volunteering opportunities to give young people skills and experience which will support them to progress towards employment	Inverclyde Council in partnership with CVS	£121,486
Community Option	Parklea Branching Out delivering a diverse range of personal development skills and opportunities for clients who are vulnerable, with autism and/or additional support needs, providing access to further education, training and employability options	Parklea Branching Out	£90,000
Steps 2 Progression	Embedding employability in areas of most need, identifying economically inactive young people and providing support to progress towards employment e.g., training	Inverclyde Council	£350,000
Progress to Employment	Person centred, all age, end to end support for economically inactive people to progress to employment	Inverclyde Council	£483,283

New Opportunities	Pre-employability pipeline programme of activity and training to support economically inactive people towards employability engagement	Inverclyde Council	£199,092
		Clyde Climate Forrest	£8600
		4% Management	£117,939
		Total core SPF	£2,948,497
Multiply			
Prison leavers maths and numeracy	Maths and Numeracy courses aimed at prisoners, those recently released from prison or on temporary license.	Inverclyde Council - CLD	£39,064
Partnership Maths and Numeracy	Development and delivery of bespoke maths programmes, working with the CLD partnership, aiming to engage hardest to reach, to improve maths and numeracy.	Inverclyde Council – CLD	£76,099
1:1 Maths and Numeracy Support and Volunteer Training	Maths courses delivered through 1:1 support to support people attaining Level 5 maths.	Inverclyde Council - CLD	£146,745
Everyday Maths	Procured activity programmes to enhance client's everyday numeracy e.g. shopping, budgeting	Inverclyde Council – Regeneration Service	£173,000
Workplace Maths and Numeracy Programmes and Staff Training	Working with employers to enhance maths and numeracy skills.	Inverclyde Council – Regeneration Service	£76,941
Multiply – WCS	Additional college programmes to support community members without formal qualification to level 5 maths.	West Scotland College	£79,000
		4% Management Fee	£24,613.
		Multiply Total	£615,462.

4.2 Part of SPF, 4%, is allowed for management costs for monitoring and evaluation of the projects. It is intended that Inverclyde Council will use the fee to fund 1.3 FTE posts.

- 4.3 There is one project that is being delivered by Glasgow City Region. The Clyde Climate Forest aims to plant 18 million trees planted across urban and rural areas of the city region, delivering ecological and climate benefits. The contribution from Inverclyde's Shared Prosperity is £8600. The project will be managed by the GCR therefore the detail is not included in the table above as there are no monitoring or reporting requirements for Inverclyde Council.

Grant Agreements and Payments

- 4.4 Following the approval of the Investment Plan, UK Government has entered into an agreement with Glasgow City Council who is the Lead Authority representing the Glasgow City Region. An agreement will then be entered into between Glasgow City Council (on behalf of the City Region) and Inverclyde Council. Inverclyde Council will then issue agreements to project deliverers and the Council, will be responsible for monitoring and assurance of local activity.
- 4.5 Funding will be issued to the member authorities following signing of the grant agreement with the Glasgow City Region and agreement of the assurance framework. The Member Authorities have worked together on this framework to ensure that there is consistency across the region. The draft grant agreement and assurance framework have been reviewed by the Regeneration, Finance and Legal services ahead of them being formally received by the Council.
- 4.6 As stated above, the UK Government have confirmed that year 1 funding can be carried over to the subsequent financial year however, all or part of the subsequent years grant will be held back until full spend for that financial year has been achieved or there is a credible plan of how it will be spent. The Regeneration Service is working with Glasgow City Region to update the Investment Plan to form the 'credible plan', which for Inverclyde, is based on the project proposals in this paper.
- 4.7 Year 3 - 24/25 funding will be issued when the UK Government is satisfied that the previous year's tranche has been adequately spent. All funds must be spent by March 2025.
- 4.8 Inverclyde Council's will enter into funding agreements with project leads. The Regeneration Service has consulted with Legal Services and grant agreements will be made for each project which will 'pass down' the requirements from UK and GCR to the project leads.
- 4.9 It has been agreed, through discussion with the Finance Service, that grants shall be paid to project leads in arrears following the submission of a grant claim form accompanied by suitable evidence of eligible spend.

Monitoring, Reporting and Assurance

- 4.10 With regards to reporting, the UK Government have set out requirements for quarterly and six-monthly report. As we are working with the Glasgow City Region, Inverclyde Council will prepare local report, which require to be signed off by the Chief Financial Officer, and then submitted to the Glasgow City Region. The Glasgow City Region will then submit the reports to the UK Government following sign off by the Chair of the Finance Strategy Group.
- 4.11 The Glasgow City Region SPF Lead Officers Group have worked together to prepare the assurance framework of the Glasgow City Region. It will be for us as a Council, and in particular, the Regeneration Service, to ensure that the relevant checks are made, in line with the assurance framework, for each project to ensure that activities and spend is eligible against the SPF grant and what they have set out in the proposal.

- 4.12 Inverclyde will monitor the projects. Applicants will be required to submit evidence to the Council demonstrating progress towards achievement of project targets at which meet reporting requirements of the GCR and UK Government. This will include both qualitative and quantitative data. The level of information will be set out in the project funding agreements between the Council and project leads. To ensure that monitoring is coordinated the management fee will be used to employ 1 person, and a Monitoring Officer within the Regeneration Service has been identified to support the Regeneration Manager with monitoring, reporting and assurance. The team will ensure that there is regular contact with the project leads and ensure that reporting deadlines are met, claims are checked, and payments made timeously.

Next Steps

- 4.13 The Regeneration Service will continue to liaise with Legal and Finance on the pass-down grant agreement from Glasgow City Region. They will also liaise with Legal on the preparation of agreements for the project leads.
- 4.14 The Regeneration Service will ensure that the required monitoring, reporting and assurance is carried out, in consultation with Finance and Audit services, and submit to the Glasgow City Region.
- 4.15 The Regeneration Service to advertise for the 1 FTE timeously to support the service with required monitoring, reporting and assurance.

5.0 IMPLICATIONS

- 5.1 The table below shows whether risks and implications apply if the recommendation(s) is(are) agreed:

SUBJECT	YES	NO	N/A
Financial	x		
Legal/Risk	x		
Human Resources	x		
Strategic (LOIP/Corporate Plan)	X		
Equalities & Fairer Scotland Duty		X	
Children & Young People's Rights & Wellbeing		X	
Environmental & Sustainability		X	
Data Protection		X	

5.2 Finance

The project involves the grant of funding from the UK Government, through Glasgow City Region which will be received in tranches Y1 (2022-2023), Y2 (2023-2024) and Y3 (2024-2025). Funding for tranche one is expected in April 2023.

5.3 Legal/Risk

Consultation has taken place with Legal Service with regards to the Grant Offer and Assurance Framework with GCR and the drafting of pass down agreements with project leads.

5.4 Human Resources

The management fee which will be received by Inverclyde Council will be used for 1 FTE within the Regeneration Service.

5.5 Strategic

The proposals reflect the aims and objectives of the LOIP and the emerging outcomes of the Inverclyde Taskforce

5.6 Equalities and Fairer Scotland Duty

(a) Equalities

This report has been considered under the Corporate Equalities Impact Assessment (EQIA) process with the following outcome:

X	YES – Assessed as relevant and an EqIA is required. A copy will be made available on the Council’s website: https://www.inverclyde.gov.uk/council-and-government/equality-impact-assessments
	NO – This report does not introduce a new policy, function or strategy or recommend a substantive change to an existing policy, function or strategy. Therefore, assessed as not relevant and no EqIA is required. Provide any other relevant reasons why an EqIA is not necessary/screening statement.

(b) Fairer Scotland Duty

If this report affects or proposes any major strategic decision:-

Has there been active consideration of how this report’s recommendations reduce inequalities of outcome?

	YES – A written statement showing how this report’s recommendations reduce inequalities of outcome caused by socio-economic disadvantage has been completed.
X	NO – Assessed as not relevant under the Fairer Scotland Duty for the following reasons: Provide reasons why the report has been assessed as not relevant.

5.7 Children and Young People

Has a Children's Rights and Wellbeing Impact Assessment been carried out?

	YES – Assessed as relevant and a CRWIA is required.
X	NO – Assessed as not relevant as this report does not involve a new policy, function or strategy or recommends a substantive change to an existing policy, function or strategy which will have an impact on children's rights.

5.8 Environmental/Sustainability

Has a Strategic Environmental Assessment been carried out?

	YES – assessed as relevant and a Strategic Environmental Assessment is required.
X	NO – This report does not propose or seek approval for a plan, policy, programme, strategy or document which is like to have significant environmental effects, if implemented.

5.9 Data Protection

Has a Data Protection Impact Assessment been carried out?

	YES – This report involves data processing which may result in a high risk to the rights and freedoms of individuals.
X	NO – Assessed as not relevant as this report does not involve data processing which may result in a high risk to the rights and freedoms of individuals.

6.0 CONSULTATION

6.1 Consultation has taken place through the Glasgow City Region with key stakeholders and this will continue to the end of Shared Prosperity Fund in 2025.

7.0 BACKGROUND PAPERS

7.1 Appendix 1: Proposals Table

Appendix 1: Inverclyde Shared Prosperity Proposals

Project Name	Project Description	SPF Intervention	Project Lead	Method of Delivery	Total Project Cost	SPF Y1-Y2	SPF Y3	Total SPF contribution
Communities and Place								
Public Lighting	The recent Inverclyde Women's Safety Survey highlighted an area of concern around safe walking spaces in public parks after dark. This project will be delivered by Inverclyde Community Learning and Development in partnership with Inverclyde Environmental Services, to install lighting within targeted areas to make residents feel safer at night. This is a pilot project to improve lighting in public parks.	S1: Place based investments for regeneration and town centre improvements, which could include better accessibility for disabled people, including capital spend and running costs.	Inverclyde Council	In house	£150,000	£130,000	£20,000	£150,000
Town Centre Action Plans	The Regeneration Service will procure consultants to create Town Centre Action Plans for Inverclyde's 3 town centres, Greenock, Gourrock and Port Glasgow. The team will work the residents, businesses and Town Centre Regeneration Forums to complete town centre health checks and then, through consultation with the local community, propose short, medium and long term projects which would improve the vitality and vibrancy of our town centres. The action plans would provide high level costings which would support the Regeneration Team to move towards	S11: Funding to support relevant feasibility studies.	Inverclyde Council	In house and procured consultants	£90,000	£90,000		£90,000

	delivery and leverage further funding to support this.							
Town Centre Improvements - From Action Plans	Following completion of the Town Centre Action Plan each Town Centre would be allocated funds to take forward project(s) from the Town Centre Action Plan. The team will work with the Town Centre Regeneration Forum, which includes Elected Members, businesses and residents, to identify the project(s) to be taken forward and work with them to ensure that projects make a positive improvement to the town centres.	S4: Design and management of the built and landscaped environment	Inverclyde Council	To be reviewed following completion of action plan	£190,000		£190,000	£190,000
Port Glasgow Shipbuilders Environmental Improvements	Following the completion of the iconic Shipbuilding Statues, the Roads and Environmental Service are aiming to improve the visitor experience to the statue by delivering environmental improvements to Coronation Park to improve the accessibility, provide information and landscaping to enhance the natural environment.	S3: Improvements to the natural environment and green and open space which could include community gardens, watercourses and embankments, along with incorporating natural features into wider public spaces.	Inverclyde Council	In house and potentially procured delivery	£150,000		£150,000	£150,000
Parklea Community Hub and Gardens	Support the creation of new flexible community-based hub and resource that will have a direct impact on some of the most vulnerable members of our community, Port Glasgow residents, existing and new client groups, community groups and partner organisations. The project will support deliver inclusive community spaces in	S2: Support and improvement of community assets and infrastructure projects, including those that increase communities' resilience to natural hazards, such as flooding, and support for	Parklea Branching Out	Grant	£1.8m	£80,000		£80,000

	areas where there are none, build community capacity by working with local groups, young people and vulnerable groups to create spaces, work in partnership with other organisations and provide opportunities in training in the creation and management of the spaces.	decarbonisation of facilities, energy efficiency audits, and installation of energy efficiency and renewable measures in community buildings (including capital spend and running costs)						
Invergrow	This project will support the development of an Inverclyde wide community gardening and food growing in public spaces, to impact on climate change and help alleviate food insecurity and food waste while improving mental wellbeing. This project will be shaped and supported in collaboration with Inverclyde Food Network and will utilise a PB approach with local community volunteers to develop an Inverclyde wide community gardening and food growing in public spaces.	S9: Investment in capacity building, resilience (including climate change resilience) and infrastructure support for local civil society and community groups.	Inverclyde Council in partnership with the Food Growing Network	In house	£170,592	£85,296	£85,296	£170,592
Total Communities and Place								£830,592
Local Business								
Inverclyde Community Enterprise Programme	The project aims to work with local social enterprises offering tailored support through CVSI's core activities, including building capacity through a tailored and bespoke programme of intensive support and by providing groups with tools to	S22: Support for growing the local social economy, including community businesses, cooperatives and social enterprises	CVS Inverclyde	Grant	£120,000	£35,000	£85,000	£120,000

	<p>develop and grow their enterprise through tendering for contracts and generating income from charitable sources. This in turn will create local employment opportunities, generate additional services for each community where they operate, and build a buoyant social enterprise sector in Inverclyde which will contribute towards the local economy.</p> <p>To achieve the aim of this project CVSI will focus on: growing the capacity of existing enterprises; developing new enterprises; educating enterprises on key issues e.g. tendering, applying for grants, net zero; provide support through a social enterprise network.</p>							
Net Zero How Do I go About It?	<p>This is an energy efficiency programme to increase standards within Inverclyde Council and the wider Inverclyde commercial property portfolio, to achieve a target minimum EPC of B rating by 2027.</p> <p>Working with member authorities across Glasgow City Region the project will upskill staff who regularly engage with businesses, particularly in regards to premises, to educate and build confidence in green business support.</p>	<p>S20: Support for expert business advice and support programmes at the local and regional level, including support for decarbonisation, climate adaptation and circular economy advice. This could include funding for new and improvements to existing training hubs, business support offers, 'incubators', 'accelerators'</p>	Inverclyde Council	In house and procured activity.	£247,500 (match with LACER funding)	£43,750	£82,500	£126,500

	The project will work with businesses to do an audit/online survey to assess the energy efficiency and sustainability of the business and their premises. Following the audit the business can apply for grant funding to carry out improvements for their property. This will be open to all commercial properties within Inverclyde Council commercial property portfolio, rolled out to the wider commercial stock to include a detailed written report, cost estimates, works recommendations and grant support to achieve stated target.	and other forms of developmental environments for local enterprise (including social enterprise) which can support entrepreneurs and start-ups/high growth potential firms through the early stages of development and growth by offering a combination of services including: e.g. - account management, advice, resources, training, mentorship, coaching and access to workspace.						
Improving your business skills	To enhance the skills and knowledge of business owners in Inverclyde which will enable them to operate from a more competitive position. Initial survey to determine what particular business skills gaps are the most prevalent – which will be developed as the themes for the training programmes.	S28: Support for business resilience and Covid-19 recovery	Inverclyde Council	In house and procured support	£310,000 (match with LACER funds)	£31,000	£124,000	£155,000
Business Networking	To provide a forum for local business owners to meet up monthly, learn about a topic of interest from a presenter, share ideas and explore opportunities to work together. It is anticipated that various	S19: Strengthening local entrepreneurial ecosystems, and supporting businesses at all stages of their	Inverclyde Council	In house	£22,400	£9,800	£12,600	£22,400

	“sub” networking groups will also be introduced after the initial launch eg Women in business, social enterprises and sector specific eg tourism.	development to start, sustain, grow and innovate, including through local networks.						
Supporting Growth and New Start Growth	Providing grants and expert support to businesses who show high growth potential as a new start business or supporting growth of existing business. Building on existing growth advice and grant infrastructure which is part of EU grants which will end in December 2022.	S15: SME development grants and support, aligned with local and regional sectoral priorities and growth potential. This could include, providing tailored expert advice, matched grants and leadership training to enable manufacturing SMEs to adopt industrial digital technology solutions including AI artificial intelligence; robotics and autonomous systems; additive manufacturing; industrial internet of things; virtual reality; data analytics. The support is proven to leverage high levels of private investment into technologies that drive growth, productivity, efficiency and resilience in manufacturing	Inverclyde Council	In house and procure of expert support	£115,000	£40,000	£75,000	£115,000
Business Accelerator Course	Through procurement of expert support, this project will develop a programme of training to support new start businesses	S19: Strengthening local entrepreneurial ecosystems, and	Inverclyde Council	Procured	£208,855	£82,040	£126,815	£208,855

Total Local Business								£747,505
People and Skills								
Youth Volunteering Programme	<p>This project aims to build on the success of Inverclyde Councils CRF project which delivers positive destinations for inactive Young People across the locality. This project will focus on the volunteering offer, making this a valuable and rich opportunity for young people to gain skills and experience through volunteering.</p> <p>The project will deliver a volunteering programme that: develops young people's skills and experiences; supports young people into volunteering opportunities; create volunteering mentoring service; train local volunteers; develop a youth champion programme; recognise volunteering efforts of young people by supporting them to access and gain National Saltire Awards</p> <p>The project will be delivered in partnership between MCMC and CVS,</p>	S33: Activities such as enrichment and volunteering to improve opportunities and promote wellbeing.	Inverclyde Council	In house and in partnership with CVS	£121,486	£58,783	£62,703	£121,486

	building on the work from CRF which ended in December.							
Community Option	<p>This programme will enhance PBO's services by enabling provision of a more diverse programme of personal development and skills development opportunities for vulnerable people. This will target young people with autism and/or additional support needs to enable access to further education, training and employability options.</p> <p>The project will support up to 60 participants over 2 years through life transitions, providing them with the capacity, literacy, numeracy, employability and life skills so that they have the greatest chance to live an independent life, broaden horizons, build confidence and for some reduce barriers into employment. The project aims to ensure that our clients have the opportunities to be supported at all stages, including having a strong support network while in employment and have a set of core skills and competencies that will help them to become strong, empowered individuals in their own right.</p>	S35: Support for employability programmes and advice, places should have regards for No One Left Behind agenda, the Young Person's Guarantee, Fair Start Scotland and Scottish employability pipeline. This could include tailored support to help people in employment, who are not supported by mainstream provision to address barriers to accessing education and training courses.	Parklea Branching Out	Grant	£90,000	£45,000	£45,000	£90,000
Steps 2 Progression	The project will build upon the work from Community Renewal Fund: Steps 2	S31: Employment support for economically inactive people: Intensive and	Inverclyde Council	In house and procurement	£350,000	£150,000	£200,000	£350,000

	<p>Progression by continuing to embed employability within the most deprived and disadvantaged communities in Inverclyde. The project will target the priority group of young people between 16-19 and those who are economically inactive and unemployed seeking. The project will continue wellbeing surveys with clients, which will help build the person centred support that they need to progress to employment e.g. counselling, benefits checks.</p> <p>This project will increase and improve our training offer for 16-19 year olds with an additional 125 places and this referral and management will be through the Inverclyde Offer, this will be in association with our existing resources and interlink with the UKSPF Volunteering programme which will include a mentoring service.</p>	<p>wrap-around one-to one support to move people closer towards mainstream provision and employment, supplemented by additional and/or specialist life and basic skills (digital, English, maths* and ESOL) support where there are local provision gaps.</p>						
Progress to Employment	<p>Progress to employment will support economically inactive people to closer to employment by providing end-to-end support including key worker support, action planning and skills training.</p> <p>This project will be integrated with the wider all-age provision within the employability service, which currently utilises existing Council and Scottish Government funding.</p>	<p>S31: Employment support for economically inactive people: Intensive and wrap-around one-to one support to move people closer towards mainstream provision and employment, supplemented by additional and/or specialist life and basic skills (digital, English, maths* and ESOL)</p>	Inverclyde Council	In house and procured	£483,283	£75,482	£407,801	£483,283

		support where there are local provision gaps.							
New Opportunities	<p>The project aims to provide valuable and meaningful activity based bespoke programmes to a range of needs groups as pre-employability pipeline engagement. The project will:</p> <ol style="list-style-type: none"> 1. Engage with a range of clients with a variety of needs to encourage and support them to participate in activity programmes. 2. Identify potential clients who may need additional supports prior to effectively engaging in the employability pipeline due to multiple barriers. 3. To design activity programmes which support clients to enter into the employability pipeline, including programmes that are pre-employability pipelines which improve wellbeing and confidence to progress to employment. 	S32: Courses including basic skills (digital, English, maths (via Multiply) and ESOL), and life skills and career skills** provision for people who are not economically inactive and who are unable to access other training or wrap around support detailed above. This could be supplemented by financial support for learners to enrol onto courses and complete qualifications.	Inverclyde Council	In house and procurement	£199,092	£70,092	£129,000	£199,092
