Subject:	Chief Officer's Report		

1.0 PURPOSE AND SUMMARY

1.1 For Decision For Information/Noting

1.2 The purpose of this report is to update the Integration Joint Board on service developments which are not subject to the IJB's agenda of 25 September 2023.

2.0 RECOMMENDATIONS

2.1 The report details updates on work underway across the Health and Social Care Partnership in relation to:

- **Learning Disability – new development continues**
- **GP List Closures**
- **Delayed Discharges**
- **Alcohol and Drug Partnership (ADP) Annual Reporting Survey 2022-23**
- **Drug Deaths**
- **Homelessness Service**
- **Recovery Walk**

**Kate Rocks
Chief Officer
Inverclyde Health and Social Care Partnership**

3.0 BACKGROUND AND CONTEXT

3.1 The IJB is asked to note the HSCP service updates and that future papers may be brought forward to the IJB as substantive agenda items.

4.0 BUSINESS ITEMS

4.1 Community Hub

Planning permission has been approved for the New Community hub for people with complex neurodiversity and learning disability. Building warrants have been applied for with the first stage warrant in place; construction should commence later this year and be completed by the end of 2024, subject to financial close which is projected in 3rd Quarter 2023.

The community hub is an inclusive community space and will be developed to support these principles to ensure that that users can enjoy integrated experiences and are not stigmatised. This is a fundamental tenet to our values as a HSCP and Council.

Consultation and engagement with service users, parents and carers, staff and other stakeholders has continued throughout to ensure the design meets the brief and will we continue consulting with our community on the official name of the Community Hub.

As with all major construction it is important to note risk management and constraints, especially in the current economic climate where extraordinary rises in the price of materials could impact on the delivery and timing of this project.

This is an ambitious project to create a community facility in Inverclyde fit for the future.

4.2 GP List Closures

Currently 7 GP practices in Greenock and Gourock have formally closed their lists to new registrations with potential reopening dates in late September and October. These closures are unprecedented and have been related to ongoing workload and recruitment issues within Primary Care as well as increased registrations from Asylum Seekers and Foreign Nationals on student visas.

The HSCP is working with these practices to try and facilitate reopening within the next couple of months. Patients who are unable to directly register with a GP practice are being allocated via colleagues at Practitioner services division to ensure no one is left without a GP.

4.3 Delayed Discharges

Delays in the discharge of service users from the Acute system to their own home continues to be a challenge for services, with the main areas of delay as a result of availability of Care and Support at Home packages and service users delayed due to legal issues around Adults with Incapacity legislation.

Although the delay position remains a challenge, we are seeing a positive decrease in delays as a result of our use of intermediate bed use, investment in the development of the Social Care workforce, Healthcare Support Worker team and Allied Health Professionals. The service is also examining innovative ways to support carers through the use of Self-Directed Payments to support hospital discharge.

Adult services are working in partnership with the Acute system to ensure that delays as a result of AWI are kept to a minimum as a result of legal requirements.

We are also supporting the development of the external homecare market by increasing the quality to cost ratio (70% Quality/30% Cost) to attract new homecare providers into Inverclyde which will support hospital discharge. As a result of a reduction in external care home providers we are currently seeing a move to 80% Internal Care at Home support, with 20% external. The service continues to monitor this position and will update at future IJB meetings.

4.4 Alcohol and Drug Partnership (ADP) Annual Reporting Survey 2022-23

The ADP Annual Reporting Survey was approved by the Independent Chair of the ADP returned to the Scottish Government during recess. The IJB is asked to approve the contents within the submission (appendix 1).

4.5 Drug Deaths

I am deeply saddened to report that despite our efforts locally, the significant reduction in deaths reported in 2021 has not continued into 2022 with an increase of 81% from 16 to 29 people losing their lives to drug misuse in 2022. This is more in keeping with the local 5-year rolling average.

The number of people who lost their lives to alcohol related harm has risen from 26 in 2021 to 28 in 2022, again this is in line with the 5-year local average, but higher than the Scottish average.

The roll out of Naloxone, improved pathways into treatment and recovery along with wider community awareness and anti-stigma work is all underway to support those who find themselves at risk of harms from drug and/or alcohol use. There is a strong volunteer network of people in recovery, all organisations employ people in recovery to ensure the voice of lived experience shapes the support

4.6 Homelessness Service

The Change Programme continues with option appraisal work underway to determine the future accommodation and staffing requirements as we continue to modernise the service. This detail will be presented to the November IJB.

The service is registered with the Care Inspectorate as a Housing Support Service, with an unannounced inspection taking place in September 2023. This is the first inspection since 2019 and despite the constraints of the current hostel accommodation, developing the three distinct teams of Assessment, Accommodation and Support has strengthened the position of the service achieving:

- 5 - Very good in both categories Leadership and Staffing
Evidencing major strengths in supporting positive outcomes for the people accessing the service with some minor areas of adjustment and improvement.
- 4 – Good in both categories Planning and Wellbeing
Evidencing strengths that have a significant effect on people's experiences which outweigh the areas found for improvement.

The service has also been nominated for Scotland Housing Awards and have made the shortlist to the finals in six out of the seven categories nominated: -

- Housing Team of the year
- The Marion Gibbs Award
- Housing Led Approaches to Homelessness
- Excellence in Communications
- Excellence in Learning and Development
- Working in Partnership

I look forward to hearing the outcome of the awards night being held on 27 October 2023.

4.7 Recovery Walk

September is Recovery Month and all partners in the ADP have contributed to various events across Inverclyde including the Open Doors events, music concerts, drama, art exhibitions, filming of a recovery video and a football tournament to showcase all of the good work going on as everyone works together in supporting people through their recovery journey. I am delighted that Inverclyde has the privilege of hosting the National Recovery Walk on Saturday 23 September, in collaboration with the Scottish Recovery Consortium, with thousands of people from across Scotland taking part. It is a real opportunity for everyone travelling to Inverclyde to experience the beautiful surroundings and community spirit we have in abundance in Inverclyde

8.0 BACKGROUND PAPERS

8.1 None.

Alcohol and Drug Partnership (ADP) Annual Reporting Survey: 2022/23

This survey is designed to collect information from all ADPs across Scotland on a range of aspects relating to the delivery of the National Mission **during the financial year 2022/23**. This will not reflect the totality of your work but will cover those areas where you do not already report progress nationally through other means.

The survey is primarily composed of single option and multiple-choice questions, but we want to emphasise that the options provided are for ease of completion and it is not expected that every ADP will have all of these in place. We have also included open text questions where you can share more detail.

We do not expect you to go out to services in order to respond to questions relating to activities undertaken by them in your area. Where questions refer to service level activities, we are interested in the extent to which you are aware of these at an ADP level.

We are aware of some element of duplication with regards to questions relating to MAT Standards and services for children and young people. To mitigate this, we've reviewed the relevant questions in this survey and determined the ones that absolutely need to be included in order to evidence progress against the national mission in the long-term. While some of the data we are now asking for may appear to have been supplied through other means, this was not in a form that allows for consistently tracking change over time.

The data collected will be used to better understand the challenges and opportunities at the local level and the findings will be used to help inform the following:

- The monitoring of the National Mission;
- The work of a number of national groups including the Whole Family Approach Group, the Public Health Surveillance Group and the Residential Rehabilitation Working Group, amongst others; and
- The priority areas of work for national organisations which support local delivery.

The data will be analysed and findings will be published at an aggregate level as [Official Statistics](#) on the Scottish Government website. All data will be shared with Public Health Scotland to inform drug and alcohol policy monitoring and evaluation, and excerpts and/or summary data may be used in published reports. It should also be noted that the data provided will be available on request under freedom of information regulations and so we would encourage you to publish your return.

The deadline for returns is Tuesday 27th June 2023. Your submission should be signed off by the ADP and the IJB, with confirmation of this required at the end of the questionnaire. We are aware that there is variation in the timings of IJB meetings so please let us know if this will be an issue.

If you require clarification on any areas of the survey or would like any more information, please do not hesitate to get in touch by email at substanceuseanalyticalteam@gov.scot.

Cross-cutting priority: Surveillance and Data Informed

Q1) Which Alcohol and Drug Partnership (ADP) do you represent?

[single option, drop-down menu]

Inverclyde ADP

Q2) Which groups or structures were in place **at an ADP level** to inform surveillance and monitoring of alcohol and drug harms or deaths? (select all that apply)

[multiple choice]

- Alcohol harms group
- Alcohol death audits (work being supported by AFS)
- Drug death review group
- Drug trend monitoring group/Early Warning System
- None

Q9c) If any of the above are in development for either people with lived/living experience and/or family members, please provide details.
 [open text – maximum 2000 characters]

Lived experience network (LEN) are developing Lived experience Panel (LEP) and will include family members

Q10) What monitoring mechanisms are in place to ensure that services you fund are encouraged/supported to involve people with lived/living experience and/or family members in the different stages of service delivery (i.e. planning, implementation and scrutiny)?
 [open text – maximum 2000 characters]

All services that ADP commission have regular governance meetings every six months. Feedback is provided at these meetings in terms of how those with lived experience and their families are involved in the different stages of delivery. A new template is being developed to improve contract monitoring which will include this information.

Q11) Which of the following support is available to people with lived/living experience and/or family members to reduce barriers to involvement? (select that apply)
 [multiple choice]

- Advocacy
- Peer support
- Provision of technology/materials
- Training and development opportunities
- Travel expenses/compensation
- Wellbeing support
- None
- Other (please specify): We support recovery using the Wellbeing Outcomes Star tool and work with the individual to achieve goals. Employability programmes support those with lived experience.

Q12a) Which of the following volunteering and employment opportunities for people with lived/living experience are offered by services in your area? (select all that apply)

[multiple choice]

Community/recovery cafes

Job skills support

Naloxone distribution

Peer support/mentoring

Q14) Do you consider stigma reduction for people who use substances and/or their families in any of your written strategies or policies (e.g. Service Improvement Plan)? (select only one)

[single option]

Yes (please specify which): IADP Recovery Strategy and Action Plan 2020-23

No

Don't know

Q15) Please describe what work is underway to reduce stigma for people who use substance and/or their families in your ADP area.

[open text – maximum 2000 characters]

In partnership HSCP/Inverclyde Alcohol and Drug Partnership are currently developing an e-learning module with a focus on the stigma experienced by people in drug and alcohol recovery and their families. The module is being co-created with people with lived experience and the module will launch during Recovery Month in September 2023.

The four main learning outcomes are:

- Understanding the meaning of stigma
- Recognising the effects and impacts of stigma
- Identifying bias and disrespectful language and how they contribute to stigma
- Developing the confidence to challenge stigma

Scottish Families Affected by Alcohol and Drugs facilitated a Stigma and Kindness Workshop for members of the community/lived experience as part of Recovery month in 2022. A similar event is being held in September as part of Recovery month.

Within the HSCP and partners senior managers have undertaken STILT Training Staff within ADRS have undergone Safety and Stabilisation and other psychological supports to reduce stigma.

Direct contact with GPs to support equity of access for care and treatment.

Fewer people develop problem substance use
