

Report To: Environment & Regeneration Committee Date: 31 October 2013

Report By: Acting Corporate Director Environment, Report No: FIN/80/13/AP/MMc

Regeneration & Resources and Head of

Finance

Contact Officer: Mary McCabe Contact No: 01475 712222

Subject: Environment and Regeneration 2013/14 Revenue Budget – Period 5 to 31 August

2013

1.0 PURPOSE

1.1 To advise Committee of the 2013/14 Revenue Budget position at period 5 to 31 August 2013.

2.0 SUMMARY

- 2.1 The revised 2013/14 budget for Environment and Regeneration is £20,960,000 which excludes Earmarked Reserves.
- 2.2 The latest projection, excluding Earmarked Reserves, is an underspend of £37,000, an increase in spend of £114,000 since the previous Committee. This movement has fully arisen from a number of virement requests, as outlined in Section 6 and Appendix 4.
- 2.3 The main variances projected at Period 5 are:-
 - (a) An underrecovery of Planning Income of £81,000. This is an increase in income from previous years and reflects higher receipts to Period 5 than in recent years. However, this line is difficult to project and will be closely monitored;
 - (b) Underspends within Cleaning and Catering employee costs totalling £52,000 due to delays in filling vacant posts;
 - (c) An underspend within Waste Management disposal of £47,000. This underspend is due to an overall reduction in the number of tonnes of waste generated and disposed of and is after removing procurement savings and virement to other lines, as requested at 3.2; and
 - (d) An underspend on fuel across the client Services within the directorate of £64,000. There is an overall underspend on fuel of £87,000 across the Council due to efficiencies resulting from the tracking system, lower than anticipated fuel prices and a decrease in usage £64,000 is Environment and Regeneration's share of this saving.

3.0 RECOMMENDATIONS

- 3.1 The Committee note the current projected underspend for 2013/14 of £37,000 as at 31 August 2013.
- 3.2 The Committee is asked to approve virement as detailed in Appendix 4.

Jan Buchanan Alan Puckrin

Head of Finance Acting Corporate Director

Environment, Regeneration & Resources

4.0 BACKGROUND

- 4.1 The purpose of this report is to advise Committee of the current position of the 2013/14 budget and to highlight the main issues contributing to the projected underspend in 2013/14.
- 4.2 The revised 2013/14 budget reflects an increase from the approved budget of £192,200, due to the following:-
 - i. Additional budget allocated to cover the increased costs associated with adoption of the Living Wage - £26,000 within Environmental Services and £256,000 within Property Assets and Facilities Management;
 - ii. Additional budgets allocated from the Inflation Contingency as follows:
 - Property Insurance across the Committee £8,470
 - Admin Insurance across the Committee £29,890
 - Catering Provisions £87,100
 - Roads Client Lighting Maintenance £4,260;
 - iii. Budget of (£34,000) returned to the Inflation Contingency due to reduced tonnages from the original allocation;
 - iv. Creation of budget for Clothing Bank income (£22,000);
 - v. Reduction in Waste Disposal budget resulting from Procurement Savings (£138,000);
 - vi. Reduction in transport and plant due to realignment of budgets (nil impact across the Council) (£35,610); and
 - vii. Realignment of Janitors' recharge budget £10,090. The contra adjustment being within Education and Communities Committee.

5.0 2013/14 CURRENT POSITION

5.1 The current projection for 2013/14 is an underspend of £37,000, an increase in spend of £114,000 since the previous Committee.

5.2 Regeneration & Planning - £80,000 Overspend

The current projected out-turn for Regeneration & Planning is an overspend of £80,000, an increase in projected spend of £82,000 since Period 3.

The main issues relating to the current projected overspend for Regeneration & Planning are detailed below and in Appendix 2:

(a) Employee Costs:

There is a projected underspend of £38,000, a reduction in spend of £23,000 since Period 3, mainly due to:

- i. An underspend in the Get Ready for Work programme of £31,000; as previously reported; which is more than offset by an underrecovery of income, see 5.2(c)(ii) below.
- ii. A projected underspend in Modern Apprentices' Other Allowances of £12,000 due to delays in recruitment. This is a reduction in projected spend of £16,000 since last Committee.

(b) Property Costs

There is a projected overspend of £14,000 within property costs, not previously reported, mainly due to the purchase of a piece of land in relation to a dangerous buildings enforcement action costing £10,000, which was the subject of a separate report at May's Committee.

(c) Income:

Income is projected to be underrecovered by £93,000; a reduction in projected income of £80,000 since last Committee; mainly due to:-

- £25,000 overrecovery within Industrial & Commercial Rents based on current occupancy levels resulting in fewer voids than budgeted. This is a reduction in projected income of £4,000 from Period 3:
- ii. A projected underrecovery in Get Ready for Work income from Skills Development Scotland of £48,000, partially offset by a reduction in employee costs per 5.2(a)(i) above; and
- iii. A projected underrecovery within Planning income of £81,000, not previously reported. This is £120,000 more income than was recovered in the previous financial year. This income stream is, by its nature, difficult to predict but will be closely monitored and updated projections reported as appropriate.

5.3 Property Assets and Facilities Management - £39,000 Underspend

The current projected out-turn for Property Assets and Facilities Management is an underspend of £39,000; a reduction in spend of £48,000 since Period 3.

The main issues contributing to the current projected underspend for Property Assets and Facilities Management are detailed below and in Appendix 2.

(a) Employee Costs:

There is a projected underspend of £62,000, a further reduction in spend of £33,000 since last Committee, mainly due to:-

- i. A projected underspend of £29,000 in Cleaning due to a reduction in additional hours, as previously reported; and
- ii. A projected underspend of £23,000 within Catering, a £16,000 reduction in spend from that previously reported. This underspend is mainly due to the non filling of a vacant post;

(b) Property Costs

There is a projected overspend of £14,000 within Catering cleaning materials and equipment; mainly due to changes in food industry legislation relating to cross contamination which has led to the use of disposable paper towels instead of tea towels; as previously reported.

(c) Supplies & Services

There is a projected underspend within Supplies & Services of £21,000, a reduction in spend of £20,000 since last Committee, due mainly to:-

- i. A projected underspend of £38,000 within Building Services PAT testing which is partially offset by a reduction in recharge income per 5.3(d) below;
- ii. A projected overspend of £20,000 within Building Services direct purchases based on the current workload, as previously reported; and
- iii. A projected underspend within Catering Provisions of £11,000. This is a reduction in projected spend of £22,000 since last Committee and follows a comprehensive review of the projection based on previous year's trends including known price rises. This line will continue to be closely monitored with any amendments reported to future Committees.

(d) Income:

There is a projected £38,000 underrecovery of income; a further underrecovery of £13,000 since last period mainly due to a projected underrecovery of Building Services PAT testing recharge income of £35,000, offset by a reduction in spend per 5.3(c)(i) above, as previously reported.

5.4 Environmental & Commercial Services - £78,000 Underspend

The current projected out-turn for Environmental & Commercial Services is an underspend of £78,000; an increase in spend of £80,000 since last period.

The main issues contributing to the current projected underspend for Environmental & Commercial Services are detailed below and in Appendix 2.

(a) Employee Costs

There is a projected underspend of £107,000, an increase in projected spend of £1,000 since Period 3, mainly due to:-

- i. A projected underspend of £16,000 in Ground Maintenance employee costs. The projected underspend has reduced by £45,000 from Period 3, mainly due to virement as outlined in section 6.1 and Appendix 4. This underspend is due to delays in filling seasonal posts and is in line with the current work programme. This is partly offset by an underrecovery of Events income, see 5.4(f)(i) below;
- ii. A projected underspend of £37,000 within Refuse Collection, partly offset by Agency Staff costs, see 5.4(e)(i) below. The balance is due to delays in recruiting temporary employees. This is an increase in projected spend of £3,000 since Period 3;
- iii. Costs for an employee funded from Food Waste grant of £34,000, offset by grant income as detailed at 5.4(f)(ii) below;
- iv. A projected underspend in Street Cleaning of £28,000. This is a further projected saving of £13,000 since last Committee and is due to delays in recruiting staff;
- v. A projected underspend of £16,000 within Roads due to delays in filling vacancies. This is a further saving of £12,000 since Period 3;
- vi. A projected underspend of £26,000 within Vehicle Maintenance due to long term sickness absence. This is partly offset by Agency Staff Costs, see 5.4(e)(ii) below and is £22,000 less spend than previously reported; and
- vii. Turnover Savings under Management of £24,000; a further saving of £4,000 since last Committee.

(b) Property Costs

There is a projected underspend of £39,000 within Property Costs, £44,000 less spend than previously reported. This underspend is mainly due to a projected underspend in Waste Management costs of £47,000. This underspend was £80,000 higher but virement outlined in Section 6.1 and Appendix 4 has reduced it with £30,000 being allocated to Roads Client Flooding to fund CCTV survey work and £50,000 to deal with the pothole backlog. This projected underspend was not previously reported pending agreement with the contractor being reached as to the correct applicable rates for the contract. This underspend is a result of a reduction in tonnages.

(c) Supplies & Services

There is a projected overspend of £1,419,000 within Supplies & Services; an increase in spend of £417,000 since last Committee; mainly due to the following:-

- i. Costs associated with Food Waste of £32,000, offset by grant income per 5.4(f)(ii) below, as previously reported;
- ii. An increase in Sub Contractor costs of £41,000 within Vehicle Maintenance due to the fact that some vehicles are no longer under warranty and require specialist maintenance. This was not previously reported and is offset by additional non routine maintenance income, see 5.4(f)(iv) below:
- iii. A projected overspend within Roads Operational Account of £1,334,000. This mainly relates to increased Subcontractors and Materials costs and is offset by additional income per 5.4(f)(v) below. This is an increase in projected spend of £372,000 since last Committee and is due to a review of the future work programme; and
- iv. Street Lighting Electrical Power is currently projected on budget. However, the Service are awaiting an update on prices. Any changes to projection will be reported to a future Committee.

(d) Transportation & Plant

There is a projected overspend of £89,000, an increase in spend of £16,000 since last period, mainly due to:

- i. A projected underspend on purchase of Fuel within Vehicle Maintenance of £87,000 resulting from efficiencies due to the tracking system, lower than anticipated fuel prices and a decrease in usage. This represents a reduction in spend of £9,000 since last Committee and is offset by a reduction in recharge income, see 5.4(f)(iv);
- ii. Projected underspends in fuel within client services of £64,000. This is the fuel spend which is recharged from Vehicle Maintenance. The main underspends are Ground Maintenance £19,000, Street Cleaning £15,000 and Waste Management £19,000;
- iii. A projected overspend of £11,000 on Road Fund licences within Vehicle Maintenance based on the current fleet requirements, as previously reported;
- iv. Projected overspends within the client services on non routine vehicle maintenance of £41,000. This is in line with increased costs in Vehicle Maintenance Sub Contractors under Supplies & Services; and
- v. A projected overspend within the Roads Operational Account of £163,000 on external hires and £12,000 on Non Routine Maintenance. These overspends are mainly due to increased Capital works associated with the RAMP and are offset by an overrecovery of income, as outlined in 5.4(f)(v). Projected spend on external hires has increased by £42,000 since last Committee due to the review of future work.

(e) Administration

There is a projected overspend of £76,000, an increase of £10,000 since last Committee, due mainly to:-

- i. Agency Staff costs within Refuse Collection of £20,000 offset by reduced employee costs, as previously reported;
- ii. Agency Staff costs within Vehicle Maintenance of £20,000 due to the requirement to cover long term driver absences which is also offset by reduced employee costs. This is an increase in costs of £10,000 since last period; and
- iii. There is a projected overspend of £34,000 within the Food Waste scheme which is offset by grant income, see 5.4(f)(ii) below, as previously reported.

(f) Income

There is a projected overrecovery in income of £1,522,000, an increase in income of £326,000 since last Committee, mainly due to:-

- i. A projected underrecovery in Ground Maintenance Special Events income of £10,000, due to a reduction in the workload relating to events, as previously reported;
- ii. Grant income of £100,000 relating to the Food Waste scheme, offset by projected expenditure as outlined in 5.4(a)(iii) 5.4(c)(i) and 5.4(e)(iii) above, as previously reported;
- iii. A projected underrecovery of Scrap Metal income of £25,000 due to reduced rates per tonne following the latest 6 monthly contract review; a £3,000 increase in income since Period 3;
- iv. Vehicle Maintenance income variances as follows: underrecovery of fuel income of £87,000; in line with reduced spend, see 5.4(d)(i) above; and overrecovery of non routine maintenance income of £47,000 in line with increased subcontractors costs per 5.4(c)(ii) above;
- v. A projected overrecovery within the Roads Operational Account of £1,486,000; offset by increases in Supplies & Services and Transport & Plant costs, per 5.4(c)(iii) and 5.4(d)(v) above. This is an increase in projected income of £362,000 since last period following the review of the future work programme; and
- vi. A projected overrecovery of Roads Client bus shelter advertising income of £11,000, not previously reported. This is in line with the previous year's outturn.

5.5 Corporate Director - £nil Variance

The Corporate Director budget is currently projecting to out-turn on budget.

6.0 VIREMENTS

- 6.1 Committee is asked to approve virement as detailed in Appendix 4. This virement is reflected throughout the report. It is requested for the following:-
 - £35,000to cover the cost of upgrading the emissions monitoring equipment within Greenock Crematorium from an underspend in Ground Maintenance employee costs. It is one-off in nature and is for 2013/14 only;
 - ii. £50,000 to increase the Roads Client Potholes budget to deal with the backlog of potholes. This virement is from an underspend in Waste Disposal costs and is one-off for 2013/14; and
 - iii. £30,000 from the underspend in Waste Disposal costs to cover the costs of CCTV survey work on culverts as detailed in the Flood Management Study report elsewhere on this Agenda. Again this virement is one-off for 2013/14.

7.0 CONCLUSIONS

7.1 The Committee is currently reporting an underspend of £37,000.

8.0 FINANCIAL IMPLICATIONS

8.1 The current projected out-turn, per Service, excluding Earmarked Reserves, is:

Service	Approved	Revised	Projected	Projected	Percentage
	Budget	Budget	Out-turn	Over/(Under	Variance
	2013/14	2013/14	2013/14	- Spend)	
	£'000	£'000	£'000	£'000	%

Reserves					
TOTAL NET	22,733	20,960	20,923	(37)	(0.18)%
EXPENDITURE					

9.0 EARMARKED RESERVES

- 9.1 There is a planned £1,965,000 contribution to Earmarked Reserves in the current financial year. Spend to date is £98,000 (10%) ahead of phased expenditure of projected spend as detailed in Appendix 3. Some projects are showing accelerated spend, including the Asset Management Plan and others such as Riverside Inverclyde showing delays in expenditure. It is expected that a detailed review of Riverside Inverclyde expenditure projections will be undertaken before the next report to Committee.
- 9.2 Appendix 3 includes five new earmarked reserves agreed at the Policy & Resources Committee on 24 September 2013:
 - i. £150,000 for Employability Initiatives;
 - ii. £150,000 for Greenock Municipal Buildings Tourism Initiative;
 - iii. £200,000 for Play Areas;
 - iv. £100,000 for Improvements in Parks & Cemeteries; and
 - v. £50,000 for Shop Front Improvement Grants.

Detailed proposals for spend of these new reserves will be the subject of reports to Committee.

10.0 EQUALITIES

10.1 There are no equality issues arising from this report.

11.0 CONSULTATION

11.1 The report has been jointly prepared by the Acting Corporate Director Environment, Regeneration & Resources and the Head of Finance.

Project	Officer	Funding	Phased Budget To Period 5 2013/14	To Period 5	Projected Spend 2013/14	Amount to be Earmarked for 2014/15 & Beyond	Lead Officer Update
		£000	<u>0003</u>	£000	£000	<u>0003</u>	
Riverside Inverclyde	AF	3,185	163	5	2,553		Due to scheduled later start date of Town Centre Regeneration (autumn) & the prioritised draw down of Scottish Government funding (Kelburn, Custom House) it is anticipated approximately £2.4m of the projected spend will be drawn down from September onwards with minimal spend in the first 5 months of the year.
Area Renewal Fund	АР	211	20	10	36		Approval was given by Regeneration Committee (meeting 20th January 2011, 12 May 2011 & 08 Mar 2012) to fund the following projects with at total spend of £249k (£14k in 2011/12, £24k in 2012/13 and £211k in 2013/14). £5k for detailed design work and Business plan for changing facilities at Lady Octavia Workshophas been incurred in 2013/14. Remaining spend on feasibility study for the development of a community facility at Woodhall of £5k projected to be spent in 2013/14. Task Group creche facilities £3k carried forward to 2013/14. £5k for Craigend Resource Centre projected to be spent in 2013/14. £100k has been allocated to Gibshill Community Centre with full spend projected in 2014/15. £15k for ICDT to undertake the Clune Park School feasibility study in 2013/14. £5k spend incurred to date. £75k has been allocated to Clune Park Resource Centre and spend is expected to be incurred in 2014/15 after a review into the future of the former Clune Park School. £3k of legal expenses spend projected to be incurred in 2013/14 for the transfer of land currently held by RCH to Inverclyde Council to facilitate a lease of land to Greenock Central
Asset Management Plan - Office Rationalisation	AG	1,259	280	577	495	764	Residents Action Group. Letter of Acceptance for Central library offices issued and pre start meeting held. Wallace Place and Princes Street Offices have both commenced on site. Projected spend is reduced by savings anticipated from the termination of lease on Cathcart House (approx £270k) which has yet to be vired to the AMP, projected spend is therefore less than spend to date. It is acknowledged that this treatment lacks clarity and a review of the AMP Financial Model is being carried out with a view to improving the presentation of these figures.
Asset Management Plan - Replacement Depot	AG	1,582	15	8	156		Tenders returned for the Civic Amenity Site and for demolition of Nissen Huts/Temporary parking. Design progressing for Vehicle Maintenance building and Planning Permission applied for.
