2014

February 2014

# Date of Meeting: 19<sup>th</sup> February 2015

### Report by Chief Superintendent Jim Downie, Police Scotland, 'K' Div

**SUBJECT:** Police and Fire Reform: Local Scrutiny and Engagement Inverclyde Local Policing Area Performance Results 1<sup>st</sup> April 2014 - 31<sup>st</sup> December 2014

#### 1. Background

The Police and Fire Reform (Scotland) Act 2012 sets out that the main purpose of policing is to improve the safety and well-being of persons, localities and communities in Scotland. It ensures an enhanced focus on local delivery of policing with a designated local commander for each local authority area accountable for local service provision. Each local commander is required to prepare a local policing plan that meets the needs of the local area and is approved by the local authority. In response to this the local authority has a statutory power to monitor the delivery of police services and to provide feedback to the local commander.

#### 2. Inverclyde Local Police Plan

The Invercive Local Police Plan was published on  $1^{st}$  April 2014. This plan sets out the local policing priorities and objectives for Invercive for 2014 – 2017. It will be reviewed annually through ongoing consultation and is supported by 6 ward community policing plans.

## 3. Performance reporting to Inverciyde Council

The local commander is required to provide reports at an agreed timescale for scrutiny by elected members. Formal scrutiny of the Inverclyde Police Plan falls under the governance of the Inverclyde Police and Fire Scrutiny Sub Committee under the auspices of the Education and Communities Committee which meets a minimum of two times per year.

#### 4. Recommendation

The following data is extracted from Police Scotland internal systems and is correct as of 2nd January 2015. The data is a year to date comparison with the previous year. It includes both recorded and detected crime data and covers all priority areas as set out in the local police plan. Members are asked to scrutinise policing performance for the period outlined and provide feedback where appropriate.

By working together with our partners we continue to significantly reduce the number of disorder complaints being received. Through consultation with members of the public we are able to quickly identify hotspot areas and deploy officer appropriately to deal with concerns. The recent introduction of a campus officer working with local schools and diversionary activities has assisted in this reduction.

Keeping people safe on the roads and reducing road crime is both a national and local priority for Police Scotland. Officers focus on educating drivers and enforcing driver behaviour in order to reduce casualties.
