
Report To:	Policy and Resources Committee	Date:	17 November 2015
Report By:	Brian Moore Chief Officer, Inverclyde HSCP	Report No:	SW/27/2015/DR
Contact Officer:	Dean Robinson Information Governance Officer	Contact No:	01475 712136
Subject:	Inverclyde Information Sharing Protocol		

1.0 PURPOSE

- 1.1 The purpose of this report is to present the Inverclyde Information Sharing Protocol to the Committee for approval.

2.0 SUMMARY

- 2.1 The Council's Information Sharing Working Group is reviewing our information sharing arrangements. Information sharing takes place only where there are legal grounds to do so. However, the Council recognises there needs to be a more consistent, strategic and corporate approach to information sharing. The group is aware that permissible information sharing often has to go beyond the Council's departments and reaches across some of our partners. To that end, as part of the review we have been considering our information sharing arrangements both internally and externally. To this end, the Council has developed an Information Sharing Protocol which reflects our legal duties to share information appropriately, proportionately, legally and responsibly.
- 2.2 The Information Sharing Protocol will provide a high level multi-agency framework for the sharing of information between agencies engaged in partnership working arrangements for a defined purpose. The Protocol will include other public sector, private and voluntary organisations working in partnership to deliver services. Its key objectives are:
- To guide Council services and partner organisations on how to share personal, sensitive, non-personal and commercial information lawfully.
 - To explain the security, confidentiality and principles of information sharing.
 - Emphasise the need to develop and use data sharing agreements.
 - To protect Council services and partner organisations from risks associated with misuse of personal data.
 - To confirm a legal basis for information sharing.
- 2.3 Our next step is to get Council services and partner organisations to agree to the principles contained within the Protocol. In doing so, Council services and partner organisations are making a commitment to:
- Apply the Information Commissioner's Code of Practice's 'Fair Processing' and 'Best Practice' Standards.
 - Adhere to or demonstrate a commitment to achieving the appropriate compliance with the Data Protection Act 1998.
 - Develop local Data Sharing Agreements (DSA) that specify transaction details.

3.0 RECOMMENDATIONS

- 3.1 That the Committee approve the Inverclyde Council Information Sharing Protocol (Appendix 1).
- 3.2 Agree that the Chief Officer, through the Information Governance Steering Group decide on the best approach to implement the Information Sharing Protocol and for Council services and partner organisations to agree to the principles contained within.

Brian Moore
Chief Officer, Inverclyde HSCP

4.0 BACKGROUND

- 4.1 The aim of the Information Sharing Protocol is to ensure a consistent approach to the sharing of all information; personal, personal sensitive, non-personal and commercial data between the public, private and voluntary sectors where such sharing is legally permissible so that members of the public receive the services they need.
- 4.2 Organisations involved in providing services to the public have a legal responsibility to ensure that their use of personal data is lawful, properly controlled and that an individual's rights are respected. This balance between the need to lawfully share personal data to provide a quality service and protection of confidentiality is often a difficult one to achieve.
- 4.3 Information sharing is not restricted solely to information classed as Personal Data by the Data Protection Act 1998. This includes:
- All information processed by the organisations including electronically (e.g. computer systems, CCTV, Audio etc.), or in manual records.
 - Anonymised, including aggregated data. The consideration, though less stringent, must take into account factors such as commercial or business, sensitive data, and the effect of many data sets being applied.
- 4.4 There are few constraints on the sharing of non-personal data that is data which either does not identify a living individual or when combined with other information that is in or may come into the organisation's possession will not identify a living individual.
- 4.5 Each Council service and each partner to this Protocol should ensure that all of their staff who are affected by it are:
- Aware of its contents.
 - The obligations it and any DSA which are created between the organisations signed up to any DSA bring to them.
 - Any revisions to the Protocol and signing of a DSA are completed in good time, which should be before any sharing takes place.
- 4.6 The specific purpose for the use and sharing of information will be defined in the Data Sharing Agreement or contract that will be specific to the service and partner organisation sharing information.

5.0 IMPLICATIONS

Finance

- 5.1 Implementation of the Protocol does not present any immediate cost implications.

One off Costs

Cost Centre	Budget Heading	Budget Years	Proposed Spend this Report £000	Virement From	Other Comments
N/A					

Annually Recurring Costs/ (Savings)

Cost Centre	Budget Heading	With Effect from	Annual Net Impact £000	Virement From (If Applicable)	Other Comments

-----	--	--	--	--	--

Legal

- 5.2 The Information Sharing Protocol will bring existing processes in line with regulatory and legislative requirements including the Data Protection Act 1998 and the Public Record (Scotland) Act 2011.

Human Resources

- 5.3 The Protocol itself does not have any personnel issues, however its implementation may have.

Equalities

- 5.4 None at this time, although recognition will be given to the wider and associate equalities agenda.

	YES (see attached appendix)
√	NO - This report does not introduce a new policy, function or strategy or recommend a change to an existing policy, function or strategy. Therefore, no Equality Impact Assessment is required.

Repopulation

- 5.5 There are no known repopulation implications.

6.0 CONSULTATIONS

- 6.1 Extensive consultation took place with relevant officers who form part of the Information Governance Steering Group and the Information Sharing Working Group.

7.0 BACKGROUND PAPERS

- 7.1 None.

1 INTRODUCTION

- 1.1 This Protocol describes Inverclyde Council's policy and procedures in relation to the sharing of information and data within Council functions and among the Council and its partner organisations. It provides a framework within which information sharing can be encouraged and developed whilst being kept consistent with the Council's legal duties and responsibilities.
- 1.2 This Protocol applies to all data, hard copy and electronic, and information held by or used by the Council, which has been classed as "OFFICIAL" in terms of the Council's Classification Policy. For all practical purposes, the terms "data" and "information" as used in this Protocol are synonymous.
- 1.3 The Protocol includes the general principles to be applied to information sharing as well as providing a template Data Sharing Agreement.
- 1.4 The Protocol is not automatically or contractually binding on the Council's partners but is to be used to set good practice standards and expectations that the parties need to meet in order to comply with relevant legal duties and organisational policies which relate to the sharing of information. This does not prevent any Council service area from including the Protocol in any contractual or other formal agreement.
- 1.5 The Protocol is primarily concerned with the sharing of data, which is the provision of data by one party to another for the receiving party to use for its own purposes i.e. where all parties are data controllers. This protocol is not primarily concerned with data processing, where the receiving party uses data from a supplier or where the supplier acts as data processor and is not a data controller. Circumstances where one organisation receives data to be processed on behalf of another, is not information sharing and should be covered by a Data Processing Agreement, or advice should be sought from Legal and Property Services to ensure appropriate Data Protection Conditions are included as Special Conditions of Contract.
- 1.6 In circumstances where sharing involves commercially sensitive information, e.g. at the exploratory stage of a possible shared service project, the parties may wish to consider using a confidentiality agreement.
- 1.7 This Protocol should be read in conjunction with the Council's Information Classification Policy.

2 APPLICABILITY

- 2.1 Within the Council, all Council services are required to apply the principles of this Protocol to any information sharing activities, whether with external partners or other Council service areas. All Data Sharing Agreements are to be registered in the corporate repository by contacting the Information Governance Officer.
- 2.2 The Council's partner organisations are requested to confirm their agreement to the principles contained in this Protocol in addition to any formal contracts or Data Sharing Agreements.

3 GENERAL PRINCIPLES

- 3.1 The general principles of this Information Sharing Protocol follow those of the Council's *Information Policy* which are:
- there is a presumption in favour of sharing information, providing legislative and contractual requirements and restrictions or those of accepted good practice are followed;
 - each identified data set or information asset will have a designated Information Asset Owner who is responsible for its proper security, integrity and use; and
 - the specific requirements of any agreed exchange of data are to be recorded in a Data Sharing Agreement conform to the standard set out in this Protocol.
- 3.2 This Protocol is enforced and monitored through management arrangements which define the responsibilities of different service areas and individuals. The Council will manage this Protocol through the following governance framework structure:
- Information Governance Steering Group (Parent Group)
 - Records Management Working Group
 - Information Sharing Working Group
 - Training, Awareness and Communication Working Group
 - Freedom of Information Working Group

4 LEGAL POLICY AND FRAMEWORK

4.1 All information sharing will be conducted within current and relevant legislation and guidance from the relevant public officials such as the Information Commissioner and the Scottish Information Commissioner.

4.2 Without any prejudice to the generality, for users' guidance the principal general laws or regulations concerning the protection and use of information affecting the Council and its functions are:

the Data Protection Act 1998

the Freedom of Information (Scotland) Act 2002

the Policy (Scotland) Act 1967)

the Rehabilitation of Offenders Act 1974

the Human Rights Act 1998 (in particular, Article 8)

the Criminal Procedure (Scotland) Act 1995

the Criminal Procedure (Scotland) Act 2003

the Regulation of Investigatory Powers (Scotland) Act 2000

the Housing (Scotland) Act 2001

the Local Government (Scotland) Act 2003

the Protection of Children (Scotland) Act 2003

the Children (Scotland) Act 1995

the Children and Young People (Scotland) Act 2014

the Education (Scotland) Act 1980

the Education (Additional Support for Learning) (Scotland) Act 2004, as amended

the Equality Act 2010

the Adults with Incapacity (Scotland) Act 2000

the Antisocial Behaviour etc. (Scotland) Act 2004

the Social Security Administration Act 1992

the Carers (Recognition and Services) Act 1995

the Mental Health (Care and Treatment) (Scotland) Act 2003

the NHS and Community Care Act 1990

the Access to Medical Records Act 1988

the Management of Offenders (Scotland) Act 2005

the Health Service (Scotland) Act 1978 as amended by Health Service (Reform) (Scotland) Act 2004

the Public Records (Scotland) Act 2011

the Social Work (Scotland) Act 1968
the Copyright, Designs and Patents Act 1989
Common Law
Adult Support and Protection (Scotland) Act 2007
Children Hearings (Scotland) Act 2011
Public Bodies (Joint Working) (Scotland) Act 2014
Re-Use of Public Sector Information Regulations 2005; and
any other relevant or specific statute in relation to any Council function

4.3 The use of ICT systems to process and share data will also be subject to specific legislation governing the use of information technology, including the:

Computer Misuse Act 1990;
Electronic Communications Act 2000; and
Digital Economy Act 2010

4.4 The Council will also conform to the requirements of information security standards in general use including:
ISO 27002 – Code of Practice for Information Security Management

4.5 In addition, the Council operates its own policy framework for the management and security of information to extend and enforce these external standards. This framework and the policies and standards developed under it are available to Council staff on the internal repository of policies and standards and externally through links on the Council's web site. These policies include:

Data Protection Policy.
Data Protection Breach Management Protocol
Records Management Policy
Policy for the Retention and Disposal of Documents and Records paper and Electronic.
Acceptable Use of Information Systems Policy
Information Classification Policy
Clear Desk Environment
Guidance on Flexible, Mobile & Home Working
Homeworking Policy

- 4.6 The development of specific agreements or policies which enable or manage the efficient sharing of information is encouraged, provided they are consistent with the general principles contained in this Protocol.

5 DATA SHARING AGREEMENTS

- 5.1 Data Sharing Agreements (DSAs) are the key method of managing the sharing of information among partner organisations. DSAs must be agreed between Inverclyde Council service areas which are designated Information Asset Owners of information and any internal or external partners with whom information is to be shared.
- 5.2 DSAs must be consistent with the general principles of this Protocol but they can differ in detail where the specific activities of the Council service area and its partners require. The DSAs must however document all the requirements of the information sharing which is to take place.
- 5.3 In transition, any DSAs (of whatever form) which predate this Information Sharing Protocol will be considered valid under this Protocol and will not need to be redrawn, provided they are consistent with the general principles of this Protocol. Such DSAs must, however, be registered in the corporate repository by contacting the Information Governance Officer.
- 5.4 A template DSA is attached in Appendix 1, together with guidance notes on the various sections of the agreement form. This template is a guide rather than it being mandatory. It is strongly recommended the template is used unless there are clear reasons to depart from this standard.
- 5.5 Any request to share information that is not covered within an existing DSA should be directed to the appropriate Information Asset Owner on a 'data sharing request form' (Appendix 2). A decision will be made by the appropriate Information Asset Owner whether sharing can take place (Appendix 3)
- 5.6 In general, DSAs should refer to existing policies and standards but where these need to be extended or enhanced, the development of new policies should follow the guidelines given in the section on Legal and Policy Framework above. These specific policies and standards should be consistent with the existing corporate standards. Any areas of potential disagreement or conflict are to be raised with the owner of the corporate policy or standard.

6 DATA PROCESSING AGREEMENTS

- 6.1 Information sharing refers to those situations in which the Council provides or receives data from another party which the receiving party uses for its own purposes. Where you receive personal data from another party, you should notify Legal & Property Services to ensure this is covered by the Council's existing Registration with the Information Commissioner.
- 6.2 Where data is supplied purely to be processed on behalf of the supplying organisation (such as part of an outsourcing agreement), a DSA is not required. These data transfers should be covered by a Data Processing Agreement (DPA).
- 6.3 A specific DPA may need to be drawn up for each individual instance and it may be linked to or form part of a formal contract.

7 CORPORATE REPOSITORY OF DATA SHARING AGREEMENTS

- 7.1 The creation and maintenance of a comprehensive repository of DSAs is the key management component of this Protocol. The repository of DSAs allows the Council to understand what information sharing activities are currently being undertaken. It also helps minimise duplication and provides a method of ensuring the consistency of approach across all Council services.
- 7.2 The repository forms part of the policies, procedures and guidance database, which is managed by the Information Governance Steering Group. All DSAs are to be registered by submitting them for publication on the repository. Unless there are overriding formal requirements to the contrary (such as legislative requirements or confidentiality), all DSAs registered in the repository will be made available openly within the Council and, where it is legitimate to do so, may also be made available in a secure manner to partner organisations.

8 SECURITY OF SHARED DATA

- 8.1 An appropriate level of information management and security requires to be assigned to the information exchanges envisaged by this Protocol. Parties must have appropriate policies in place covering the security, storage, retention and destruction of personal information in accordance with authoritative guidance issued to their organisations. The Council's most relevant policies are:

- Records Management Policy
- Policy for the Retention and Disposal of Documents and Records Paper and Electronic.
- Acceptable Use of Information Systems Policy.
- Data Protection Policy
- Information Classification Policy

8.2 The Council's policies and the policies of the organisation providing the information (depending on the agreement) must be applied to information shared under this Protocol being policies which are designed to protect the information (particularly, but not exclusively personal information) which they hold. The Council's policies are binding on all staff of the Council and misconduct or disciplinary action may be taken against any staff in contravention. These policies will apply to information held by that party, whether it has originated with that party or been passed to it by another party.

8.3 The parties will each ensure that the other parties are promptly notified of any security breaches, or significant security risks, affecting shared information. In addition, should the breach be considered significant, the ICO will also be notified. Instructions and guidance can be found in the Council's Data Protection Breach Management Protocol. The Parties will, where appropriate, work together to rectify any such breach or mitigate any such risk to information security. If personal data is lost as a result of a security breach, the parties will consider on a case by case basis whether to notify the affected individuals of the breach and other remedial and restitutive actions.

9 TRANSFERRING DATA

9.1 The most straightforward method of transferring data should be chosen but always with proper regard to any requirements of data security. In particular, personal data should never be transferred in an open format which is capable of being read easily if the data were lost, stolen or intercepted.

9.2 The Council provides methods of securing data, which generally involve encrypting it. Staff should contact ICT for guidance on transferring data securely and for requesting an encrypted USB memory device.

9.3 Consideration must always be given to the ability of the receiving partner organisation to operate the proposed secure method of transferring data.

- 9.4 Individual external partners may have data security requirements of their own, which the Council will consider meeting wherever practicable. These include the use of specific technical standards for encrypting data or the use of secure services for transmitting data. Any potential conflicts or areas of non-compliance with the Council's information security policies must be notified to the Information Governance Steering Group.
- 9.5 These transmission methods will generally be supported by the Council's technology partners. Responsibility for ensuring consistency with the Council's information security policies rests with the Information Governance Steering Group, which can also provide advice and guidance on security procedures.
- 9.6 Protective Marking: Information which is shared will carry a protective marking. The markings are as follows:
- Official
 - Official - Sensitive
- 9.7 Parties undertake to take reasonable steps to ensure all data is properly protectively marked and used only in manner which is consistent with the agreed purpose under the DSA.
- 9.8 Access to data will be restricted to relevant and authorised persons, and where appropriate, to those who have signed a confidentiality agreement (or equivalent), and have received training in the Data Protection Act 1998. Data should only be processed in secure offices and shall not routinely be used or otherwise accessed out with the premises of parties.
- 9.9 Where it is considered necessary for personal information to be removed from office premises for meetings or approved home working, it should be carried securely, preferably on encrypted portable media or a secure lockable case/box. Staff should refer to Home Working Policy/Guidance on Flexible, Mobile & Home Working. The information should remain in the possession of the individual at all times unless it can be stored in an approved security container. Sensitive personal information should not be worked on anywhere where the contents might be seen, overlooked or otherwise noticed, and they should not be left unattended in any public place, such as a hotel, taxi or public transport vehicle. Relevant staff should have completed information security training in mobile working and out and about working.

10 MANAGEMENT AND MONITORING ARRANGEMENTS

10.1 Any formal framework or general agreement with partners should include a clear reference to the applicability of this Protocol to information sharing activities.

10.2 The management and monitoring of this Protocol include:

- responsibility for this Protocol and its application being with the Information Governance Steering Group;
- all Data Sharing Agreements will be lodged in the corporate repository;
- the Information Governance Steering Group will manage this repository;
- the Information Governance Steering Group will initially provide a forum within the Council to oversee the management of the Protocol; and

questions or complaints about the operation of the Protocol, whether from within the Council or from external partners, should be referred in the first instance to the Information Governance Steering Group, which will ensure that they are dealt with by the appropriate Council service area.

11 DATA PROTECTION ACT

11.1 All parties must adhere to the terms of the Data Protection Act 1998 insofar as any information being shared constitutes personal or sensitive data. The management of personal data and its availability for sharing both within the Council and with external partners are governed by the Council's Data Protection Policy, which applies the relevant statutory provisions to the Council's own internal processes.

11.2 Any sharing of personal data must be both fair and lawful. Conditions for processing set out in the Data Protection Act must also be met. Where possible, the consent of the Data Subject will be sought and an explanation of the purpose given before personal data is shared internally between Services and/or external partners.

11.3 In limited and well-defined circumstances, however, it may be necessary to share personal data without the explicit consent of the Data Subject, on the basis of lack of capacity of the individual to consent, or because of concerns or perceived risks regarding the welfare of the individual or others. Legal advice should be sought if there is any doubt that the proposed sharing is lawful.

12 FREEDOM OF INFORMATION

12.1 The Council must respond to any proper request for recorded information made to them for the purposes of the Freedom of Information (Scotland) Act 2002 (FOISA). This includes obligations to respond to requests about information sharing practices and procedures in terms of this Protocol.

12.2 It should be noted, however, that the OFFICIAL information exchanged between parties may be exempt from disclosure under the FOISA. All parties should include reference to this Protocol in their respective publicly available Publication Schemes.

12.3 Any requests for information or data under the FOISA should be referred to the Freedom of Information/Data Protection Officer for each respective Party.

13 RECORDS GOVERNANCE

13.1 The Council's partner organisations involved in the sharing of data are expected to have a commitment to proper procedures and practices for:

- the retention and deletion of shared data items and procedures for dealing with cases where different organisations may have different statutory or professional retention or deletion rules;
- dealing with termination of any data sharing initiative, including the deletion of shared data or its return to the organisation that supplied it originally; and,
- the sharing of datasets; to prevent irrelevant or excessive information being disclosed and to make sure the data being shared is accurate.

14 REVIEW AND MONITORING OF THIS INFORMATION SHARING PROTOCOL

14.1 This document will be reviewed annually or more frequently if required.

15 ENFORCEMENT

15.1 The Council's Code of Conduct specifies its employees' obligations towards confidentiality. Every employee is required to respect the confidentiality of information about individuals or organisations. Any breaches of this principle will be viewed as a serious matter for the Council and its partners.

15.2 The Council's partners will be expected to take similar and proportionate actions in relation to any breaches of this Protocol and to investigate and act appropriately for the security of all information comprised within this Protocol.

APPENDIX 1 - Template Data Sharing Agreement

This is an agreement between

(this should clearly set out the parties to the Data Sharing Agreement)

This Data Sharing Agreement is made under the terms of Inverclyde Council's Information Sharing Protocol

CONTENTS

- 1. PURPOSE OF AGREEMENT**
- 2. EXTENT AND TYPE OF DATA TO BE SHARED**
- 3. ANY SPECIFIC LEGISLATION WHICH AFFECTS WHAT DATA MAY BE SHARED, WHEN AND/OR HOW**
- 4. ANY CONDITIONS OR RESTRICTIONS ON HOW THE DATA MAY BE USED**
- 5. METHODS USED TO SHARE INFORMATION**
- 6. ARRANGEMENTS FOR INFORMING AFFECTED PARTIES (INCLUDING DATA SUBJECTS)**
- 7. PROCEDURES FOR DEALING WITH BREACHES OF CONFIDENTIALITY OR OTHER CONTRACTUAL DUTIES**
- 8. GOVERNANCE OR MANAGEMENT ARRANGEMENTS, INCLUDING REGULAR REVIEWS**
- 9. DURATION OR TERMINATION OF AGREEMENT**
- 10. SIGNATURES**

This Data Sharing Agreement is signed on behalf of:

Name of organisation:

Guidance for completing the Data Sharing Agreement

1. PURPOSE OF AGREEMENT

- A clear statement of why there is a need to share information between the parties to the Data Sharing Agreement.
- Reference should be made here to any legislation which underpins the statutory functions for which information sharing is necessary and any guidance that supports data sharing.

2. EXTENT AND TYPE OF DATA TO BE SHARED

- The data exchanged should be the minimum amount necessary for the performance of the relevant services. The agreement should clearly state what information is to be shared.

3. ANY SPECIFIC LEGISLATION WHICH AFFECTS WHAT DATA MAY BE SHARED, WHEN AND/OR HOW

- Specify any conditions relevant to the data being shared.

4. ANY CONDITIONS OR RESTRICTIONS ON HOW THE DATA MAY BE USED, OR WHO REQUIRES ACCESS TO THE SHARED DATA

Provide, for example, details of

- a. Who will have access to the information within the parties to the DSA?
- b. What information is it necessary to share routinely?
- c. Who will authorise transfer of routinely shared information if the data subject has indicated that they do not agree to certain information being shared?
- d. How will the reasons for transfer in these circumstances be recorded?
- e. In what circumstances will explicit consent be sought to information being shared?
- f. In cases where explicit consent is sought how will the giving or withdrawal of consent to share information be recorded?
- g. How will the issue of consent be handled in respect of people under the age of 16 or adults who lack the capacity to give consent?
- h. Should the party receiving the information be subject to strict confidentiality obligations including those employees with whom they share the information?

- i. In what circumstances can secondary disclosure beyond the partners to the DSA take place without the explicit permission of the originating organisation?
- j. Where the permission of the original provider of the information is required prior to secondary disclosure how will that permission be obtained and recorded?
- k. How long will the information be retained?
- l. What are the arrangements for how the information should be shared, transmitted, as well as secure storage and destruction of the information?
- m. What are the arrangements for subject access to the information?
- n. In what circumstances would it be reasonable for the data subject to be given access to their information without the specific consent of the original provider?
- o. Where the consent of the original provider is required before giving subject access how will it be obtained and recorded?
- p. What are the arrangements for rectifying errors and updating the data?
- q. Is the data only to be used under licence, such as Ordnance Survey-derived data?
- r. Does the Council need to retain a Government Protective Marking if the data is being shared?
- s. Will any of the information be transferred outside the European Union?

5. METHODS USED TO SHARE INFORMATION

Specify, here, for example:

- What method of transfer will be used to share information, e.g. sent by encrypted email, password protected documents.

6. ARRANGEMENTS FOR INFORMING AFFECTED PARTIES (INCLUDING DATA SUBJECTS)

Specify, here, for example:

- What information are data subjects given about the purposes for which their information may be used, with whom it may be shared, how they can access it and rectify errors and how they might complain about the way their information has been used?

7. DEALING WITH BREACHES OF CONFIDENTIALITY OR OTHER CONTRACTUAL DUTIES

Specify how you will deal with:-

- Any breach of agreement by staff
- Monitoring security incidents
- Complaints about data sharing
- For internal data sharing, Services must be obliged to follow the Council's Data Protection Breach Management Protocol in the event of a breach
- For sharing between the Council and partner organisations, the partner must inform the Council of a breach and follow the partner's equivalent Data Protection Breach Management Protocol

8. GOVERNANCE OR MANAGEMENT ARRANGEMENTS

- Make clear that the recipient of any data shared will be the Data Controller.
- Named individuals in each signatory organisation who will manage the arrangements
- Who will monitor compliance with the terms of the agreement?
- How can parties be added/removed from the Data Sharing Agreement?

9. DURATION OR TERMINATION OF AGREEMENT

Specify, here, for example:

- How long will the Data Sharing Agreement last?
- When will the Data Sharing Agreement be reviewed?

10. SIGNATURES

This agreement is signed on behalf of:
