

Report to:	Inverclyde Council, Local Police and Fire Scrutiny Sub-Committee
Date of Report:	15 January 2016
Report by:	Martin Gordon, Local Senior Officer (LSO) Scottish Fire and Rescue Service

Subject:	Scottish Fire and Rescue Service (SFRS) Report
----------	---

PURPOSE OF THIS REPORT

1. The purpose of this report is to inform the Scrutiny Sub-Committee members of Fire and Rescue performance and related activities during Quarter 2 of the 2015/16 reporting period.

PERFORMANCE

2. An SFRS performance report is attached as an Appendix to provide Elected Members with a Ward analysis performance report which relates to a range of Fire & Rescue operational activities within Inverclyde from 1 July 2015 to 30 September 2015.

The information provided in this report and Appendix continues to show reductions across a range of fire related performance indicators; however it also identifies those areas where further interventions are required in order to tackle those areas where operational demand is highest.

A summary of the report is detailed below:

- a. There were no fire fatalities within Inverclyde during the reporting period.
- b. There were 5 Non-fatal fire casualties (including precautionary check-up) within the reporting period which is a reduction from 8 in the previous reporting period.
- c. Deliberate fire raising has reduced significantly from 154 to 95 incidents. This is mainly due to a decrease in deliberate secondary fires from 129 incidents in the previous period to 80 in the current reporting period.
- d. There was an increase in the number of all accidental fires attended, from 33 in the previous reporting period to 39 incidents during the current reporting period.
- e. Special service activity levels rose from 42 to 47 in this reporting period however the number of flooding incidents have reduced from 10 last year to 4 in the reporting period.
- f. The total number of false alarm incidents has decreased (206 to 173 incidents) from the previous reporting period and this includes reductions in malicious calls and also incidents caused by fire alarm equipment failure.

PRIORITIES & INTERVENTIONS

3. SFRS is committed to working in partnership with Community Planning partners in the public, private, and voluntary sectors in order to work together for a safer Scotland. Strengthening our relationship with and working in partnership to add value to our communities is critical to the success of our work.

The following activities are illustrative of SFRS activities in terms of educational activities and interventions:

- a. SFRS continues to work in partnership with Community Planning partners in order to further reduce the number of fire and other emergency incidents attended in Inverclyde. Our participation at the multi-agency tasking and coordinating (MATAC) meetings is one of the key ways in which we work with partners including Police and Community Safety Services to tackle fire related ASB issues including deliberate fire raising and malicious calls. The SFRS LALO position is now fully established with the officer attending weekly Community Safety Partnership meetings at West Stewart Street in a multi-agency approach with Police, Community Wardens and Housing colleagues to deal with ASB and operational matters within Inverclyde.
- b. Fire & Rescue officers participate and contribute at SOA thematic and other Multi-agency committees including the Alcohol & Drugs partnership (ADP), Adult Protection Committee (APC) and the Safer & Stronger theme- Successful Communities Partnership (SOA2)
- c. Home Fire Safety Visits (HFSV) are seen as a key way of preventing accidental house fires and reducing fire related injuries by fitting smoke alarms and providing fire safety advice to occupants. A total of 415 HFSV were delivered in Inverclyde by Fire crews in the reporting period
- d. Schools education – dedicated fire safety staff provide a range of educational visits and talks within educational establishments in order to promote fire safety to young people. The aim is to promote safety and change the culture which may lead to fewer deaths and injuries from fire and road traffic collisions in future generations.
- e. The Greenock Fire Museum and Heritage centre within the Old Fire Station which is part of Inverclyde Councils Municipal buildings continues to promote the history of the fire service and fire safety within Inverclyde to residents and visitors

LSO SCRUTINY EVENT

4. An LSO engagement event was held at Greenock Fire Station on 20 November 2015. The event was arranged as an informative event for Elected members and a variety of Fire & Rescue resources were available to view on the day. A similar event will be organised in the future within Inverclyde.

LOCAL RESOURCES UPDATE

5. On Monday 21st December 2015 crewing levels on all Aerial Rescue Pumps (ARP's) were reduced from 6 personnel to 5 throughout the legacy Strathclyde area.

From that date ARP's will be mobilised to incidents either as a Rescue Pump or as an Aerial Appliance but not as both.

Johnstone Operations Control (OC) has taken cognisance of the fact that crewing levels have been reduced and have altered the Pre-Determined Attendance (PDA's) accordingly.

This change affects Greenock Fire Station only within Inverclyde and will not compromise in any way the current level of fire service response to incidents in terms of 'weight of response' to operational incidents, with the same number of fire appliances being available to respond within the Inverclyde area. The only change will be to the crewing model.

RECOMMENDATIONS

6. Sub-Committee members are asked to note the contents of this report and appendix.

Appendix – SFRS Performance Report for Inverclyde Q2 of 2015/16.
